“The second quarter was a productive and active period with many new customers, high trading activity, continued modernization of our technical platform, several prestigious awards, and a high pace in product development. We report a strong and stable financial result of SEK 893 million before tax. Our revenue level remains high, and taking seasonal factors into account, SEK 1,293 million stands out as a strong figure”, says Lars-Åke Norling, CEO of Nordnet.

“Nordnet continues to be an attractive option in the market, and a total of over 2.2 million Nordic private individuals now use Nordnet's platform for saving in stocks and funds. During the quarter, we welcomed 57,000 new customers, and annual customer growth amounts to 14 percent. Savings capital on the platform continues to grow, reaching SEK 1,064 billion by the end of June; an increase of ten percent since the end of the second quarter last year”, says Lars-Åke Norling, CEO of Nordnet.
