# CEO Eshel Pesti:

The first quarter of 2026 marked a solid start to the year with operating performance developing positively across key areas. Like-for-like net rental income increased by 4.5%<sup>1</sup> with comparable FX rates, driven by index-linked rent increases and positive leasing spreads. Operating and administrative expenses remained well controlled, and our cost efficiency measures continued to support a strong operating margin. We managed to reduce administrative expenses by 17.5% to further support the P&L.

A notable contribution to the quarter's performance was the 25%, with comparable FX, growth in general mall leasing income, including specialty leasing, energy and parking income. Through general mall leasing we can monetise our assets even further and bring additional revenue. Expanding general mall leasing income remains a key operational and value creation priority for Citycon in 2026.

At the end of the first quarter, retail economic occupancy rate stood at 94.8%. The decline from year-end was mainly due to normal seasonal effects. Tenant sales continued to develop favourably, with like-for-like tenant sales increasing by 3.5% compared to the corresponding period last year. Footfall followed a positive trend, with like-for-like visits increasing by 2.1%, underlining the continued relevance of our centres as local hubs for daily services.

During the quarter, we completed significant energy efficiency projects at four assets in Finland. These comprehensive upgrades include modernization of heating, ventilation and air conditioning systems, as well as LED lighting improvements. As a result, aggregated district heating consumption across these centres is expected to decrease by up to 38%, while electricity consumption in common areas is expected to decline by up to 5%. These investments support both our sustainability objectives and long term cost efficiency.

We also took important actions to strengthen and derisk our balance sheet. During the first quarter we signed a new EUR 270 million secured loan. With the proceeds from the new loan we completed an early redemption of the shortest bond which was due in September 2026. The redemption was announced in March and completed in April 2026 when the remaining nominal amount of around EUR 123 million was repaid in full. In April we additionally signed a new EUR 220 million secured loan from which we received the funds in early May. These transactions are important actions to improve our credit maturity profile and to reduce our near-term refinancing needs. These secured loan transactions also demonstrate strong lender interest in our high-quality assets. Additionally, Citycon paid two dividends during Q1/2026. In January Citycon announced a EUR 0.20 per share dividend and in March a EUR 0.90 per share dividend.

We continue the work on optimising our asset portfolio by identifying and carrying out potential asset divestments. Following Q1/2026 we have been approached by several potential buyers related to selected assets in Finland, Sweden and Norway.

Looking ahead, Citycon is well positioned to deliver strong operational performance in 2026. Supported by resilient cash flows and a proactive approach to portfolio, we remain focused on creating sustainable long term value for all our stakeholders. Finally, I want to thank all Citycon employees for the achievements during the quarter.

The Nordic economies, like the rest of the global economy, are impacted by the uncertainty related mainly to politics, conflicts and structural forces challenging the economies. However, the Nordic countries share strong public economies and stable institutions, which help stabilise their economies. Prolonged crises have nonetheless weakened growth prospects and affected consumer confidence in the economic outlook. Source: SEB Nordic Outlook (May 2026).

The tenant mix of Citycon's assets, consisting mainly of grocery and service-oriented tenants, is less reliant on consumer discretionary spending and the strategy has already demonstrated its strength and resilience throughout a variety of market conditions. In addition, 95% of the Company's leases are tied to indexation.

## 8. Risks and uncertainties

The most significant near-term risks and uncertainties in Citycon's business operations are associated with the general development of the economy and consumer confidence in the Nordic countries and Estonia, and how this affects occupancy rates and rental levels of the shopping centres and, thereby, Citycon's financial results. Increased competition locally or from e-commerce might affect demand for retail premises, which could lead to lower rental levels or increased vacancy, especially outside capital city regions. Costs of development projects could increase due to rising construction costs or projects could be delayed due to unforeseeable challenges. Rising interest rates could also put pressure on investment yields, which could potentially impact fair values. The war in Ukraine continue to pose risks to economic health in Europe as well.

The main risks that can materially affect Citycon's business and financial results, along with the main risk management actions, are presented in detail on pages 33–34 in the Financial Statements 2025, in Note 3.5 A) as well as on Citycon's website in the Corporate Governance section.

## 2) EPRA NRV, NTA and NDV per share

The Best Practice Recommendations ('BPR') by The European Public Real Estate Association ('EPRA') include three measures of net asset value: EPRA Net Reinstatement Value (NRV), Net Tangible Assets (NTA), and Net Disposal Value (NDV).

Citycon considers EPRA NRV to be the most relevant measure for its business.

The EPRA NRV scenario, aims to represent the value required to rebuild the entity and assumes that no selling of assets takes place.

The EPRA NTA is focused on reflecting a company's tangible assets and assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax liability.

EPRA NDV aims to represent the shareholders' value under an orderly sale of business, where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax.

The tables below present calculation of the new EPRA net asset value measures NRV, NTA and NDV.

The difference between the secondary market price and carrying value of bonds <sup>1</sup>	-	-	75.4	-	-	11.9	-	-	50.9
Real estate transfer taxes <sup>2</sup>	23.5	-	-	23.7	-	-	23.5	-	-
<b>Total</b>	<b>1,396.5</b>	<b>1,202.1</b>	<b>1,165.8</b>	<b>1,498.1</b>	<b>1,313.5</b>	<b>1,227.7</b>	<b>1,551.8</b>	<b>1,357.2</b>	<b>1,297.6</b>

<b>Net Asset Value per share</b>	<b>7.61</b>	<b>6.55</b>	<b>6.35</b>	<b>8.13</b>	<b>7.13</b>	<b>6.66</b>	<b>8.45</b>	<b>7.39</b>	<b>7.07</b>

<sup>1</sup> When calculating the EPRA NDV in accordance with EPRA's recommendations, the shareholders' equity is adjusted using EPRA's guidelines so that bonds are valued based on secondary market prices. The difference between the secondary market price and the carrying value of the bonds was EUR 75.4 million (secondary market price lower) as of 31 March 2026. In the comparison period 31 March 2025, the difference was EUR 11.9 million (secondary market price lower).

<sup>2</sup> The real estate transfer tax adjustment in EPRA NRV calculation is based on the transfer tax cost for the buyer for share deal in Finland. Share deals are not subject to transfer tax in other group operating countries.

<sup>3</sup> In the EPRA NTA formula, 50% of the deferred tax liability related to investment property fair value is added back, according to EPRA guidelines.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements ISRE 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.
