ProCon, the CLOUD COLLABORATION PLATFORM from 8over8

PREDICTABLE COMMERCIAL OUTCOMES

Actionable early warning indicators of potential cost and schedule overrun on strategic, mission-critical contracts increases the likelihood of assets meeting predicted financial performance.

ROBUST CAPITAL DISCIPLINE

Standardized, industry-proven workflows align with contracting and procurement strategies to reduce contractual risk throughout sourcing, bid evaluation, contract award, and contract execution. Incontestable threaded and time-stamped evidence ensures that all project and contract stakeholders bear their appropriate share of legitimate, unplanned costs, and enables robust defense of any claims.

CONNECTED DECISION MAKING

Standard best practice processes ensure that the right people work on the most important issues at the right time and in the right sequence.

Automated workflows reduce the administrative burden on a diminished headcount.

Cloud collaboration platform empowers commercial, technical, project, legal, contractors and other cross-functional teams to work effectively to manage change and mitigate contract risk.

TRANSPARENT STAKEHOLDER ENGAGEMENT

The complete, indisputable commercial audit trail of all significant tender and contract communications, contractual obligations and reviews is visible to all stakeholders, improving the quality of decisions and reducing approval bottlenecks.

REAL-TIME ANALYTICS

See Further and Act Faster with ProCon Analytics

Advanced insight into all commercial engagement and contract execution data with early warning indicators of contract and budget risk in easy-to-view dashboards.

Connect all decision makers with trend insights across all projects in a portfolio.

Integrates with existing systems and reporting tools to increase the wealth of data and reduce total cost of ownership.
