

# Gilmour®

## New Outdoor Watering Tools

New for 2018, Gilmour releases a line of intuitively-designed outdoor watering tools with innovations that provide smart solutions. Gilmour's quality, efficiency and control features help outwit the usual challenges, making watering more enjoyable and less frustrating.

Easy  
Operation

Optimal  
Control

Care-free  
Performance

Highest  
Durability

### 1. New Gilmour Rectangular Sprinkler

**Stop getting soaked with an easy on/off flow control**

- On/off flow control eliminates trips from sprinkler to spigot and allows for fine tuning of water flow at the sprinkler
- Independent length and width control tabs allow for easy, customized coverage
- Aqua touchpoints intuitively guide adjustments
- Metal base provides added stability and durability

### 2. New Gilmour Thumb Control Watering Nozzle

**Designed to pivot without twisting the hose and to reduce kinking**

- Swivel connection increases mobility, allowing nozzle to pivot without twisting or kinking hose
- Refined patterns with 8 clearly marked spray settings and one-turn adjustment to move from jet to rinse
- Ergonomic design optimizes location of controls, reducing strain to make adjustments while watering; structured contours increase comfort and control
- Thumb-control for complete flow range from on to off
- Durable metal secures impact points and barrel

### Lifetime Warranty
