* Q4 and 12M 2020 includes consolidation of Ferronordic's operations in Germany

Lars Corneliusson, CEO Ferronordic, comments: "In a year of unprecedented challenges, I am very proud of how our people responded and performed. In 2020, Russia/CIS delivered record net income and cash flow while we launched and started to build our business in Germany. In Q4 2020, we also invested in development. In Russia/CIS, we ramped up our new contracting services project in Norilsk and expanded our center for component and machine rebuild in Ekaterinburg. We sold 17% more units and gained market share in a recovering market. Our aftermarket business was however affected by covid-related restrictions and the weaker ruble. Total revenue in Russia/CIS was up 34% in RUB but was flat in SEK. Our operating margin was lower due to start-up costs in contracting services and a lower share of revenue from aftermarket sales. In Germany, we continued to build the organisation and improve our network. In December and January, we announced the appointment of a new country manager and the acquisition of two strategically located workshops. Q4 2020 trucks sales were up but aftermarket sales were lower, partly due to renewed covid-restrictions. Together with restructuring and acquisition costs, this negatively affected the operating result. Mostly as a result of the negative contribution from Germany, our consolidated Q4 2020 operating profit declined 31% to SEK 65m. Strong cash flows reversed a SEK 83m net debt in Q3 to a SEK 20m net cash position at the end of Q4 2020. While much uncertainty remains, we expect our markets to recover in 2021 and remain optimistic about the long-term potential. Looking at the opportunities ahead, and at our performance and financial position in 2020, the Board has decided to update Ferronordic's financial objectives and dividend policy and also to recommend a dividend of SEK 7.5 per share."

About Ferronordic

Ferronordic is a service and sales company in the areas of construction equipment and trucks. It is the dealer of Volvo Construction Equipment and certain other brands in all of Russia and Kazakhstan, aftermarket partner of Volvo Trucks and Renault Trucks in part of Russia, and dealer of Volvo Trucks and Renault Trucks in part of Germany. The company also offers contracting services where it owns and operates equipment to carry out works for customers. Ferronordic began its operations in 2010 and now has more than 90 outlets and about 1,400 employees. Ferronordic's vision is to be regarded as the leading service and sales company in its markets. The shares in Ferronordic AB (publ) are listed on Nasdaq Stockholm. www.ferronordic.com
