WOMEN'S COLLECTION: SPRING/SUMMER 2018

„MODERN ELEGANCE“ – The Story behind

In the fast pace of today's life and times of digitalization, we are more and more looking for personal freedom, calm moments and individuality. We are longing for laid-back, individual outfits that are modern and in step with latest trends as much as we strive for sophistication and timelessness.

Our backdrop of the town of Biarritz mirrors this contrast as the setting for the Spring/Summer 2018 campaign. The small town, located on the Atlantic coast of Southern France, is a former luxury retreat of the aristocrats. The elegant seaside resort has most recently turned its image into a cool and contemporary destination, being one of the best surf spots in Europe. Visitors love the glamorous nonchalance as much as the calmness and the raw nature of Biarritz.

This distinctive mix of classic, elegant chic and contemporary casualness is perfectly reflected in the new HANRO collection. Staged in front of the impressive Atlantic coast with the magnificent waterfront, rocky cliffs, long sandy beaches and elegant promenade, the collection is feminine and sophisticated, yet it still features a modern look and a certain laissez-faire feel.

Airy natural fabrics, tulle, chiffon and botanical inspired laces and embroideries provide summery lightness. A new femininity is revealed in romantic, natural designs. Variations of blue, red and golden yellow, as well as soft beige shades and refined prints round off the look. 'Lingerie to ready-to-wear' and new, modern loungewear are increasingly blurring the boundaries between lingerie, sleepwear and casualwear, thus opening the door for versatile all day styling options for inside or out.

Inspiring sensuality, timeless elegance, and modern distinctiveness – this is the new HANRO collection for Spring/Summer 2018.

A natural look is in the basis of HANRO's Spring/Summer 2018 **lingerie** collection. Comfortable yet functional bra shapes and lingerie styles offer ideal support while also fitting in a pleasant and natural way. The same applies for the sporty and modern cuts, as well as the high-quality fabrics.

Fine cotton and soft flowing satin are the perfect base for wonderfully tender summer lingerie; as well as lightweight and elastic polyamide, airy tulle and piqué fabrics. Romantic and playful decorations such as lace and embroideries in foliage designs, or alluring cutouts, offer an ideal balance between feminine charm and pure, understated elegance.

The new basic range "Smooth Illusion" enhances a modern and clean style featuring bras made from opaque and smooth Spacer material, or polyamide fabric. The superfine polyamide briefs stay "invisible" also under body-hugging clothing thanks to the ultra-flat cut edges. They can be mixed and matched with the color-coordinated range "Lace Illusion", featuring allover lace lingerie with a tulle layer underneath for total wearing comfort.

Summer colors of rich gold, tangerine and fuchsia meet powdery beige shades and soft grey blue hues for a light look. Fresh white and maritime blue in the collection reflect the colors of the Atlantic ocean.

The multi-faceted **nightwear** range is beyond the area of sleep. Modern pajama styles and summery gowns can be worn for the night, as well as during the day at home, on the balcony or at the beachside café. Thanks to the soft, lightweight, and comfortable natural fabrics, all styles ensure incomparable wearing comfort.

Soft cotton – as jersey, interlock or woven – as well as flowing micro-modal with a decent shine – either pure or as blends with cotton and silk – are elegant summer companions. Airy, lightweight viscose is the perfect fabric for warm nights and days. Tender lace and decorative embroideries in a leaf design provide a feminine and luxurious touch. High-quality inserts of silk satin and silk chiffon create a delicate transparency.

Clean and modern cuts are rounded off with feminine, ready-to-wear inspired details such as charming ruffles, up to the point of a trendy Carmen décolleté. Classic nightwear in a subtle retro appeal creates a perfect symbiosis between the past and today.

The color palette shows rich golden yellow and fuchsia, as well as soft gray blue and neutral hues of sand, mauve and rose. A maritime flair is achieved with fresh blue, clear white, stripe designs and stylish prints.

Stylish 24 hours companions at home and on the go: HANRO's **loungewear** bridges the gap between sleepwear, loungewear, casualwear und activewear. The collection offers a wide selection of modern garments for multi-faceted mix and match styling and layering outfits, featuring versatile shirts, lounge dresses, 7/8 length pants, jumpsuits and many more. High-quality fabric blends and sophisticated ready-to-wear details such as special pockets, gathered soft cuffs, cords, pin tucks, etc. are suitable to be worn on the streets and enhance the outerwear look.

Classic soft fabrics from cotton and micro-modal offer the perfect base for a new, fashionable lounge look for laid back spring days in and around the house. No matter if worn as a set or combined with other ready-to-wear styles: you will achieve a casual and stylish feel-good outfit.

A unique mix of functional and natural fibers, as well as lounge and sporty styles (such as in crop tops or bodysuits in ballerina style crisscross straps) demonstrate a sporty fashion statement, yet stay classy.

Accomplished looks made from elegantly flowing viscose or micro-modal fabrics with a beautiful understated sheen ensure a stylish look, no matter if in the office or for your after-work drink, when traveling or in a café, and at the same time provide the pleasant comfort of relaxing at home on the couch.
