## ELIXIR OF SUMMER

### SPRING/SUMMER 2019 | WOMENSWEAR COLLECTION

All of existence consists of the four basic elements of fire, water, air, and earth. These are the elixirs of life. Each element is associated with a specific color that embodies certain characteristics. This has inspired the Spring/Summer 2019 campaign. Natural, pure, clear, and as durable as the Earth itself - adding in the lightness of air teamed with innovation and modernity. However, HANRO also burns like fire for self-confidence, passion, and a love of detail. In addition, the soft, flowing, and exquisite fabrics call to mind the element of water. Each of the four release dates represents an element. Each release date has its own color concept – earthy tones, airy, light blue nuances, fiery red, and fresh lilac and green tones.

Rocks, fresh wind, the warmth of the sun, and the Iberian sea – In Jávea, a port town near Valencia in the north of the Costa Blanca, these four elements come together. Here, the Spring/Summer Collection 2019 is presented with flowing, light fabrics, fine embroidery, lacy back details, classic stripes and delicate floral prints. The collection is multifaceted, versatile and multifunctional, so all your favorite elements across every category can be individually combined with each other. HANRO stands for a modern relaxed look and casual chic with high wearing comfort. Whether at home, in the city, in the office, or out at a bar in the evenings. Strong, colorful and natural – that is the new HANRO Spring/Summer Collection 2019.

New: For the first time, this season there will be a pre-collection with a release date of 15 November 2018.

## Four release dates, four color concepts

From warm, natural earthy tones with a fruity note, to sweet pink and juicy red shades, and the summery green and blue nuances of the Atlantic: In the Spring/Summer Collection 2019, HANRO offers a self-contained color concept for each release date, based on the four elements of earth, air, fire and water. New, modern looks are created through graduated monochrome colors with nuanced, subtle differences. As well as the trend color of lilac, strong earth tones such as dark brass are the musthaves of the season.

### "Natural Serenity" (pre-delivery, 15 November 2018)

A gentle transition between the seasons is created by gentle colors inspired by the element of earth. Spring embodies the feminine and romantic with orchid and sandstone shades. A modern interpretation of grey tones, as well as natural nuances with gold accents, creates a feeling of coziness. Light fabrics such as woven jacquard viscose and soft cotton-micromodal blends also contribute to this. Classic stripes and delicate floral prints in pastel colors are the perfect harbingers of the new season.

## "Cool Breeze" (1st release date, 15 January 2019)

The first release date is characterized by the colors of the element of air – fresh and light. Various blue nuances, from light to dark, match up with the fruity trend color of mango that makes gently bronzed summer skin radiate. The soft modal-silk blend ensures optimum wearing comfort. The delicate, seductive lingerie with lace is perfect for under light summer clothing. Fine embroidery, inspired by blossoms and leaves, brings springtime to lingerie and nightwear.

## "Radiant Sunrise" (2nd release date, 15 January 2019)

Based on the element of fire, gentle pink and rouge nuances, delicate strawberry sorbet, juicy red tones and bright oranges usher in the summer. Natural clay tones harmonize with urban grey and fresh summer shades. Trendy back details are highlights for both day and nightwear. Gently flowing viscose satin and seductive Jacquardtronic lace provide a luxurious summer feeling on the skin. Stripes, floral and graphic prints create a stylish mixed pattern look.

## "Aquatic Illusion" (3rd release date, 15 March 2019)

The soft colors of the underwater world meet lavender and lilac tones: The fresh green and blue nuances of the element water match perfectly with the light fabrics of the collection. Lavender, lilac and reed green are combined with a dark ocean blue. Not only the modern colors, but also the light materials such as the flowing micromodal single jersey or cotton jersey provide refreshment on a hot summer's day. Delicate floral prints round off the intricate look of the summer.

## Living (Release date from 15 January 2019)

Whether worn for relaxing, for leisure, or for a modern casual look – the Living Collection from HANRO unites the current trends of mix & match, layering, and athleisure. Cozy styles for the couch or soft sport are turned into a fashion statement in combination with ready-to-wear influenced pieces. This loungewear can be worn at home as well as outdoors for a variety of occasions, without compromising style or wearing comfort. HANRO creates well-dressed, everyday looks, in which a woman feels comfortable and looks superb.
