"Crunchfish's journey with offline payments started four years ago when we filed the first patent in January 2020. Crunchfish has explored many aspects of offline payments since then and has continuously expanded the product offering. There are reasons to believe that 2024 may be the commercial breakthrough year for us. To clear the books for 2024 we have decided to write-off the gesture business as well as all IP in the Digital Cash business that is not related to offline payments",
says Joachim Samuelsson, Crunchfish's CEO.

At 09.00 CET/13.30 IST, a live webinar about the report will be hosted on Zoom where Crunchfish CEO Joachim Samuelsson will be interviewed by chief analyst Martin Dominique from Västra Hamnen Corporate Finance. Please register using this [link](#).

A recording of this webinar will also be available afterward on [Crunchfish's website](#) as well as [Västra Hamnen Corporate Finance's website](#).
