

PRESS RELEASE

November 26, 2015

Obducat has completed the acquisition of Solar-semi

As previously announced Obducat AB (publ) ("Obducat") has entered into an agreement to acquire the German company Solar-semi GmbH, a leading supplier to the micro and nano electronic industry. Obducat has now completed the acquisition.

With the acquisition, Obducat will more than double its installation base, triple its revenues and – not the least – strengthen its leading position globally within nano imprint lithography. The acquisition price amounts to approximately 7.6 million SEK and is paid partly in cash and partly through the issuance of convertible bonds. The acquisition is partly financed through a directed issue of new class B shares.

For more information, refer to Obducat's press release of 17 November 2015.

This is information that Obducat AB (publ.) is required to disclose pursuant to the Swedish Securities Market Act. The information was submitted for publication on November 26, 2015 at 17.40 CET.
