

Guideline Geo signs 6.0 MSEK Service Level Agreement

Guideline Geo has secured a three-year Service Level Agreement valued at 6.0 MSEK from a U.S. customer in the mining industry.

The agreement relates to multiple radar solutions from Reutech Mining, for which Guideline Geo is the authorized distributor and service partner in North America. Services include training, preventive maintenance, and ongoing service for the radar systems. The radars are used to monitor movements in the open-pit slopes across the mine to provide early warning in case of slope failures.

The Service Level Agreement will commence in March 2026.
