kSEK = thousand SEK

Figures in parentheses refer to the same period the previous year.

Comment from the CEO:

"During the third quarter, we continued our work to translate our project portfolio into concrete results. The focus has been on creating the right conditions for implementation and sales, both through continued project preparation and by strengthening the financial and commercial aspects of the business. Our role as an early-stage project developer requires perseverance, and even though the market is challenging, the potential in our projects remains high. In this situation, it is crucial that we focus on the right activities that can generate revenue in the short term while building a stable platform for long-term value growth."

Anders Björkenbo
CEO, SENS
