Press Release from AFRY

AFRY publishes its 2025 Annual and Sustainability Report

AFRY's Annual and Sustainability Report for 2025 is now available on the Group's website.

The report provides an in-depth overview of AFRY's business and the new strategy "Unlocking AFRY", as well as the progress and key milestones achieved during the year. It also highlights concrete examples of the value created for clients as we work together to drive the transition toward a more sustainable and resilient society.

"Looking back on my first year as CEO of AFRY, it has been a year defined by change, hard work and progress. Throughout the year, we have acted at a high pace to set the foundation for profitable growth, while continuing to deliver outstanding value to our clients," says Linda Pålsson, President and CEO.

This year also marks the first in which AFRY's sustainability report is prepared in accordance with EU's Corporate Sustainability Reporting Directive (CSRD). It outlines progress in key areas, including AFRY's journey toward net zero CO₂ emissions by 2040, efforts to develop the client and project portfolio in line with the climate transition and the commitment to being an attractive employer.

The Annual and Sustainability Report is available on afry.com/investor-relations.
