## PRESS INFORMATION

3rd conference of Astana EXPO-2017 Future Energy Forum 12-13 July 2017

The 3rd conference of the **Astana EXPO-2017 Future Energy Forum** is organized in cooperation with Nazarbayev University and dedicated to the theme “Climate Change and Reduction of CO<sub>2</sub> emissions”. From **12-13 July 2017** leading experts will discuss the matters of politics, economics and international measures taken to fight climate change.

Among the speakers are **Dr. Axel Winter**, Staff scientist of International Thermonuclear Experimental Reactor (ITER), and **Dr. Rajendra Pachauri**, President of World Sustainable Development Forum. Representatives from Switzerland, Chile, Japan and several African countries share their knowledge about reducing CO<sub>2</sub> emissions.

The special session “The Forefront of Green Energy Technology – A Study of National and International Technological Advances” features innovative projects in Kazakhstan – from startups to existing technologies.

**The event is free of charge, visit [www.futureenergyforum.org](http://www.futureenergyforum.org) to register.**

As central event of Astana EXPO-2017, The Future Energy Forum sets the stage for international participation and cooperation to discuss energy as the defining issue of our time. In the press area of the Future Energy Forum website ([www.futureenergyforum.org/press](http://www.futureenergyforum.org/press)) you will find high-resolution pictures as well as detailed information about the conference series.

**For further questions and interview requests with one of our speakers, please contact:**
