# PRESS ANNOUNCEMENT

Eighth conference of Astana EXPO-2017 Future Energy Forum  
10-11 August 2017 "Progress in Reduction of CO<sub>2</sub> Emission"

The eighth conference of the **Astana EXPO-2017 Future Energy Forum** "Progress in Reduction of CO<sub>2</sub> Emission and Achieving the Energy Efficient Lifestyle" examines solutions for the reduction of CO<sub>2</sub> emissions in industry and businesses, ranging from low-carbon and energy-efficient technologies to overarching, system-wide strategies. The event provides insight into industry challenges by means of case studies and presents different perspectives on innovation.

Among the speakers are:

- **Andrew Winston**, Founder of Winston Eco-Strategies and a globally recognized expert on green business. He advises many of the world's leading companies on how to navigate a green future.
- **Yvo de Boer**, Partner, SRI Executive (Strategy). In his former role as executive secretary of the UNFCCC, he brought climate change to the highest levels of political attention and presided over the 2009 Copenhagen Accord.
- **Michael A. Yulkin**, Director General, EIC
- **Marco Matteini**, Industrial Development Officer, Energy and Climate Change Branch at UNIDO

Master of ceremonies is science journalist and facilitator **Quentin Cooper** who is best known as the presenter of BBC Radio 4's Material World.

**The event is free of charge; visit [www.futureenergyforum.org](http://www.futureenergyforum.org) to register.**

A central event of Astana EXPO-2017, the Future Energy Forum sets the stage for international participation and cooperation to discuss energy as the defining issue of our time.

In the [press area](#) of the Future Energy Forum website you will find high-resolution pictures as well as detailed information about the conference series.
