### Cabonline strengthens its presence in Östergötland- establishes operations in both Linköping and Norrköping

**Linköping 013 Taxi has expanded its operations to Norrköping as a franchise partner for Cabonline. Customers in both cities can book their rides via the Cabonline app.**

At launch, the operation will include approximately 27 vehicles in the region, with the ambition to grow in line with demand. The establishment strengthens accessibility for both private individuals and corporate customers, making travel within and between the cities more convenient.

The expansion is carried out within Cabonline's franchise model, where local transporters collaborate with Cabonline and gain access to the company's brands and digital booking platform. Through this model, strong local market knowledge and entrepreneurship are combined with established technical infrastructure and national reach.

– *Through this partnership, we combine local market expertise with Cabonline's digital platform and shared quality framework. This creates solid conditions for long-term development in the region, says **Henrik Hälldin**, Head of B2T, Cabonline.*

For customers, the establishment means access to fixed pricing in the app, flexible payment options and a consistent booking experience. At the same time, the strong local presence and market knowledge in Östergötland are maintained.

Cabonline is one of the leading mobility providers in the Nordics, offering taxi services through strong local brands and a shared digital platform.
