### **Proposed resolutions by the Board of Directors**

#### **13. Resolutions regarding guidelines for determination of salaries and other compensation paid to the President and senior management**

##### **Compensation to the Board of Directors**

Compensation to the Board of Directors is determined by the Annual General Meeting based on proposals from the nominations committee. However, the Board of Directors is entitled to commission an individual director to perform consultancy services on behalf of the company. Directors elected by the meeting shall in special cases receive fees for services within their respective areas of competence, which do not constitute Board of Directors' work. With respect to the services, a fee on market terms will be payable which must be approved by the Board of Directors.

##### **Compensation to company management**

The Board of Directors proposes the following guidelines for the determination of salaries and other compensation to company management. For the purpose of ensuring that the company is able to recruit and retain qualified employees in company management, the fundamental principle is that the company management must be offered employment terms and compensation on market terms.

*Salaries and other benefits:* Compensation to the company management shall be comprised of a fixed salary and pension. The fixed salaries are normally reviewed on a calendar year basis. In addition to fixed salaries, there may be variable salaries provided that the variable part never exceeds 25 percent of the annual salary. In addition, the company management shall be entitled to customary non-monetary benefits such as a company car and occupational healthcare. In addition to these benefits, other benefits may also be offered on an individual basis.

*Pension:* Company management shall be offered premium-based or defined-benefit pension agreements. In premium-based solutions, the premium shall correspond to the premium contributions which apply from time to time for ITP 1/ITP 2, or a maximum of 25 percent of gross salary. In the premium-based agreement, the pension will correspond to the sum of premiums and any return, without any guaranteed pension level. Under the premium-based pension plan, there is no defined time for retirement.

*Notice of termination period and severance pay.* The notice of termination period shall not exceed one year when notice is given by the company, and not greater than six months when notice is given by the employee. Upon termination by the company, severance pay is, in addition, payable in an amount corresponding to not more than six months' salary.

*Incentive programmes:* Resolutions regarding share and share price-related incentive programmes directed to company management shall be taken by the Annual General Meeting.

*Remuneration committee:* The Board of Directors shall act as the company's remuneration committee. The Board of Directors shall prepare issues regarding remuneration principles, compensation and other employment terms and conditions for company management. The more detailed principles regarding setting salaries, pensions and other benefits shall be set forth in a salary policy established by the Board of Directors in relation to the company management.

*Deviations in individual cases:* The Board of Directors shall be entitled to deviate from these guidelines where there is special cause for such an individual case. If such deviation takes place, information regarding this and the reason for the deviation shall be reported at the next Annual General Meeting.

#### 14. Resolutions regarding authorization of the Board of Directors to issue shares and/or warrants and/or convertibles

The Board of Directors propose that the Annual General Meeting authorizes the Board of Directors to resolve, on one or several occasions, on issue of shares and/or warrants and/or convertibles during the time until the next Annual General Meeting for payment in cash and/or with terms regarding set-off or issue in kind or otherwise with terms and thereby deviate from the preferential right of the shareholders.

The issues shall be done to a marketable issue price determined by the Board of Directors in consultation with the company's financial advisers, taking into consideration any marketable issue-discount.

The number of shares that could be issued, or the number of shares that could be subscribed for through warrants, or the number of shares that convertibles could be converted into shall amount to a total of 5 763 200 new shares.

The purpose of the authorization and the reason to deviate from the preferential right of the shareholders is that issues shall be possible for financing the company's business, commercialisation and development of the company's products and markets and/or acquisition of businesses, companies or parts of companies and/or enable a broadening of the owner base of the company.

The Board of Directors, the President or the person appointed by the Board of Directors, shall be authorized to make such minor amendments and clarifications of the resolution by the Annual General Meeting that may prove necessary in connection with registration with the Swedish Companies Registration Office.

The approval by the Annual General Meeting of this proposal is valid only if supported by shareholders representing at least 2/3 of both the votes cast and the votes represented at the Annual General Meeting.
