

Press release

Elos subsidiary Elos Fixturlaser wins prize in magazine Plant Engineering's vote "Product of the Year" for the product "Fixturlaser NXA Pro"

Elos Fixturlaser alignment system that was introduced in 2013 Fixturlaser NXA Pro has been awarded the Bronze Award for the 'Tools and Equipment Maintenance "in voting" Product of the Year 2013 ".

Hans Svensson, Elos Fixturlaser MD, said of the nomination, *"The award reflects the years of planning and development that went into the Fixturlaser NXA Pro, and showcases Elos Fixturlaser's innovative design and manufacturing capabilities."*

The new Fixturlaser NXA Pro was designed to give alignment practitioners greater ease of use, long battery life to get them through the work day, and a screen display that can change in real time to always show the machine being aligned from the same viewing angle as seen by the operator. No other laser alignment system on the market have this function.

Plant Engineering Magazine organizes the annual Product of the Year competition to recognize the best new industrial products available in the United States. For more than a quarter-century, Plant Engineering's readers have selected the outstanding new products that help them do their jobs smarter, safer, more efficiently and more productively.
