

Press release

New Quality Manager appointed at Elos Medtech

Lotta Ljungberg has been appointed as new Quality Manger (Regulatory & Quality assurance) at Elos Medtech. She will assume her position on November 13, 2014. Lotta has wide experience from senior positions in quality and product development in well-established medical- and biotechnology companies such as HemoCue, Getinge and Cellavision.

"-We are pleased to welcome Lotta Ljungberg to our team. Elos Medtech is at a stage where the regulatory part of our business is becoming increasingly important. With Lottas' experience and contacts with authorities such as the FDA, we receive a significant addition of expertise, which is important since we are planning to develop our international presence in the future, says Göran Brorsson, President and CEO at Elos."

Elos Medtech is one of Europe's leading business partners in the development and production of precision products used in medical technology and components, such as dental and orthopaedic implants and instruments. Operations are conducted at facilities in Sweden, Denmark and China. Customers consist primarily of international medical-technology companies in the following market segments: Dental, Orthopaedics, Medical Devices and Diagnostics.

Elos Group's turnover of approximately MSEK 400 and has about 400 employees. The Group is traded on NASDAQ OMX Stockholm AB since 1989. The Elos B share is classified as a Health Care company on the Small Cap list.
