

News release from Vestas Mediterranean

Madrid, 30 June 2020

Vestas secures 42 MW order in France

The international renewable energy developer Valeco has placed a 42 MW order for three wind projects in France.

The contract includes the supply and installation of eight V100-2.0 MW wind turbines delivered in 2.2 MW Power Optimised Mode and eight V117-3.45 MW wind turbines in 3.0 MW operating mode, as well as Active Output Management 5000 (AOM 5000) service agreements, designed to maximise energy production for the sites.

The name and location of the projects are undisclosed.

Turbine delivery and commissioning are scheduled for the first half of 2021.

Vestas has over 5.1 GW capacity installed and over 2,300 wind turbines in France. These numbers place the company as the main contributor to the expansion of wind energy in France, where last year the company had a 40 percent market share.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 98 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
