

News release from Vestas-American Wind Technology

Portland, 30 June 2020

Vestas wins 278 MW order for V150-4.2 MW turbines in USA

Vestas has received an order for 278 MW of V150-4.2 MW turbines for a project in the U.S. Including previously purchased 4 MW components, the project has a total nameplate capacity of 302 MW.

The order includes supply and commissioning of the turbines as well as a 10-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance for the lifetime of the project.

Turbine delivery will begin the second quarter of 2021 with commissioning scheduled for the fourth quarter of 2021.

The project and customer are undisclosed.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 98 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
