

## News release from Vestas-American Wind Technology

Portland, 11 December 2020

### Vestas wins 125 MW order in the USA

Vestas has received a 125 MW order for a wind project in the USA that will feature a mixed site configuration of various turbine variants of the 2 MW and 4 MW platforms including a number of V150-4.2 MW turbines.

The order includes supply and commissioning of the turbines as well as a multi-year service agreement, designed to ensure optimised performance for the lifetime of the project. Turbine delivery is scheduled for the third quarter of 2021 with commissioning scheduled for the fourth quarter of 2021.

*“We’re pleased to expand the V150 footprint in the U.S. and to showcase the flexible and diverse Vestas product portfolio that ensures each wind project site has the optimised layout for wind production,”* said Austin Schroll, Senior Director of Sales for Vestas Americas, *“Our unparalleled service operations solutions will keep the project operating at full capacity to provide reliable and renewable energy for the long-term”.*

The customer and project are undisclosed per the customer’s request.

#### About Vestas

Vestas is the energy industry’s global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 122 GW of wind turbines in 82 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 108 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
