

News release from Vestas-American Wind Technology

Portland, 28 December 2020

Vestas wins 210 MW order in the USA

Vestas has received a 210 MW order of V150-4.2 MW turbines for a wind project in the USA.

The order includes supply and commissioning of the turbines as well as a 10-year AOM 5000 service agreement, designed to ensure optimised performance for the lifetime of the project. Turbine delivery and commissioning are scheduled for the first quarter of 2022.

The customer and project are undisclosed per the customer's request.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 122 GW of wind turbines in 82 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 108 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
