

News release from Vestas-American Wind Technology

Portland, 30 June 2021

Vestas wins 92 MW order in the USA

Vestas has received a 92 MW order to power an undisclosed wind project in the U.S. The project consists of 22 V150-4.2 MW turbines.

The order includes supply, transport, and commissioning of the turbines, as well as a multi-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

Turbine delivery will begin in the second quarter of 2022 with commissioning scheduled for the fourth quarter of 2022.

The customer and project are undisclosed.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 136 GW of wind turbines in 84 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 117 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
