

News release from Vestas Northern & Central Europe

Hamburg, 2 July 2021

Vestas receives 29 MW order in Ireland to mark first onshore collaboration in Europe with Ørsted

Vestas has secured a 29 MW order from Ørsted for the Lisheen 3 project in County Tipperary, Ireland.

The order comprises the supply, installation, and servicing of eight V136-3.45 MW turbines in 3.6 MW operating mode. It will be the third phase of Vestas-supplied wind parks at the project location, following the 36 MW Lisheen and the 24 MW Lisheen extension projects.

The turbines will be serviced by Vestas through a long-term 20-year Active Output Management 5000 (AOM 5000) service agreement, providing power performance certainty and Vestas' industry-leading service expertise throughout the lifetime of the project.

The order marks the first onshore wind project for which Vestas will supply turbines to Ørsted, in Ireland and in Europe.

"We are delighted to kick off our partnership with Ørsted and their new European onshore wind business at the Lisheen3 project in Ireland," said Juan Furones, Vice President Sales North & West, Vestas Northern & Central Europe. "This phase of the Lisheen project, the third at the location, will continue to deliver on the target set in Ireland's Climate Action Plan of achieving 70 per cent of electricity from renewable sources by 2030".

Deliveries are expected to begin in the third quarter of 2022, while park commissioning is expected for the final quarter of 2022.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 136 GW of wind turbines in 84 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 117 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
