## **Vestas wins 59 MW order with Eurus Energy in Japan**

Vestas has secured a 59 MW order for two projects with Japanese wind power developer, Eurus Energy Holdings Corporation. The order includes supply and supervision of installation of 14 V117-4.2 MW wind turbines for the 21 MW Tabito and 38 MW Sandaimyojin wind projects, to be located in Fukushima prefecture, Japan.

Vestas will also deliver a multi-year Active Output Management 4000 (AOM 4000) service agreement for the wind farm, providing a time-based availability guarantee to ensure optimised performance and long-term business case certainty for the customer.

Delivery of the turbines for Tabito project will begin in the third quarter of 2022, with commissioning scheduled for the second quarter of 2023. The delivery for Sandaimyojin project will begin in the second quarter of 2023, with commissioning planned for the first quarter of 2024.

### **About Vestas**

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 140 GW of wind turbines in 85 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 120 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
