Vestas wins 25 MW order in Italy

RWE Renewables Italia S.r.l. has placed a 25 MW order for the Selinus wind park to be located in Partanna and Castelvetro, Sicily, Italy. The contract includes the supply and installation of six V136-4.2 MW wind turbines.

"We look forward to collaborating with Vestas in Sicily. Once the turbines of our 17th onshore wind farm have been commissioned, they will generate enough green electricity to cover the annual needs of more than 22,000 Italian households," said Paolo Raia, Country Chair RWE Renewables Italia.

"We are proud to partner with RWE, a key company for the global expansion of renewable energy. The order showcases how the versatility of Vestas' 4MW platform continues to optimise our customers' business case and help them win projects in the Italian auctions", says Vestas Head of Italy, Francesco Amati.

With this project, the company adds more than 1.5 GW of contracts derived from auctions in Italy, where it has installed over 4.6 GW since 1991, accounting for over 40 percent market share.

Turbine delivery is planned for the third quarter of 2022, whilst commissioning is expected for the fourth quarter of 2022.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 145 GW of wind turbines in 85 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 123 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
