

News release from Vestas Northern & Central Europe

Hamburg, 31 December 2021

Vestas adds 257 MW order in Netherlands at Windplan Groen complex

Vestas has received a 257 MW order from Windkoepel Groen for a total of seven projects in the Netherlands. The order includes supply and installation of 37 V162-6.2 MW EnVentus wind turbines, with some delivered in 6.0 MW operating mode, and eight V126-3.45 MW wind turbines delivered in 3.8 MW operating mode.

The seven projects are part of Windplan Groen, a collective initiative to repower existing windfarms in the Eastern part of the Province of Flevoland. The individual owners are joined in Windkoepel Groen.

“Vestas is pleased to be selected to provide our turbines to seven projects at the Windplan Groen complex”, says Nils de Baar, President of Vestas Northern & Central Europe. “This project is an excellent example of community members banding together to drive forward the clean energy transition, by adding new technology to existing sites in the Netherlands. We’re delighted to be working with several members of this collective initiative to deliver the right turbine solutions for their respective projects.”

Vestas will provide service for the project through long-term Active Output Management 5000 (AOM 5000) service agreements, providing power performance certainty and Vestas’ industry-leading service expertise throughout the lifetime of the project.

Vestas is planning to deliver the first wind turbines in the third quarter of 2022. The final wind turbines will be commissioned in late 2023.

About Vestas

Vestas is the energy industry’s global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 145 GW of wind turbines in 85 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 123 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
