Madrid, 31 March 2022

Vestas secures 25 MW order for two wind projects in Italy

Inergia Spa. has placed a 25 MW order for the Ascoli Satriano and the Cerignola wind parks to be located in Apulia Italy. The contract includes the supply and installation of six V136-4.2 MW, as well as an Active Output Management (AOM) 4000 agreement for the maintenance and service of the wind park over the next 14 years.

"We are pleased to consolidate our partnership with Vestas, with these projects Inergia reached 225 MW in the wind sector", says Giacomo Ciacci, CEO of Inergia.

"We are happy to work, once again, with our long-term partner Inergia Spa., a key player in the production of electricity from renewable sources in Italy. This project is a new example of the versatility of our technology to optimise our customers' business case, while assuring greater competitiveness when coming to auctions", says Vestas Head of Italy, Francesco Amati.

With this project, Vestas has secured more than 1.6 GW of contracts derived from auctions in Italy, where it has installed over 4.7 GW since 1991, accounting for a market share of more than 40 percent.

Turbine delivery and commissioning are planned for the last quarter of 2022.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 151 GW of wind turbines in 86 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 129 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
