

## News release from Northern & Central Europe

Hamburg, 30. June 2022

### Vestas secures 67 MW order in Scotland

Vestas has received a 67 MW order from Red Rock Power Limited for the Benbrack wind farm located in Dumfries and Galloway in Southwest Scotland.

The order includes the supply, installation, and commissioning of 13 V136-4.5 MW turbines and two V117-4.2 MW turbines in 4.3 MW operating mode. Vestas will also service the turbines under a long-term Active Output Management 5000 (AOM 5000) service agreement.

*"We are very pleased to have been selected by Red Rock Power to supply our onshore solutions for its Benbrack wind farm as it highlights the importance of onshore wind to the UK energy security strategy," said Juan Furones, Vice President for Vestas Sales North & West. "This project, once again, shows the applicability of the recently upgraded V136-4.5 MW wind turbine, and the V117-4.2 MW wind turbine, towards the Scottish climatic conditions".*

Benbrack's Project Director, Jamie Grant, said: *"We look forward to working with Vestas on Benbrack and are pleased to have completed an agreement before early onsite works commence in August. Vestas' commitment to innovate and continually improve efficiency was a key driver and aligns with our long-term goals to maximise generation and asset value once in operation".*

Deliveries and installation of the wind turbines are expected to begin in early 2024, while commissioning is expected to complete by the middle of the same year.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 154 GW of wind turbines in 87 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 134 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
