

## News release from Vestas Asia Pacific

Singapore, 18 November 2022

### Vestas extends partnership with wpd with onshore order in Taiwan

Vestas has secured a 21 MW order with wpd AG in Taiwan that includes five V117-4.2 MW turbines with 91.5m towers in two wind projects.

The order includes a long-term Active Output Management 4000 (AOM 4000) service agreement for the wind farms, to ensure optimised performance and long-term business case certainty for the customer.

*“We are pleased to extend our long-term partnership with our global key account, wpd in Taiwan.” said Alex Robertson, General Manager of Vestas Taiwan. “We would like to thank wpd for entrusting Vestas with these projects and strengthening our strategic collaboration at local market. Onshore wind is the fastest way to bring new renewable generation capacity online in Taiwan, but more governmental support is needed to accelerate the build out.”*

With this order, Vestas’ total onshore installed volume in Taiwan will exceed more than 350 MW of which 130 MW is with wpd, underlining the strong global cooperation with wpd AG as well as Vestas’ commitment to drive the energy transition in Taiwan.

Deliveries are expected to begin at the third quarter of 2023, while commissioning is planned for the fourth quarter of the same year.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 160 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 140 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 28,000 employees are bringing the world sustainable energy solutions to power a bright future.

### **About wpd**

wpd is one of the world's leading developers and operators (IRPP) of wind and solar farms. Founded in 1996, the company develops, finances, constructs and operates wind farms and solar parks in 28 countries. The IRPP business includes projects in its own portfolio with a total capacity of almost 2,300 MW. Thanks to its growing expertise, the company is considered a reliable partner for Power Purchase Agreements (PPAs). wpd is steadily expanding its activities in the German domestic market and internationally in Europe, Asia, North America and South America and has a project pipeline totaling 13,870 MW of onshore wind and 2,300 MW of solar energy.
