Hamburg, 21 December 2022

Vestas wins 108 MW order for a wind project in Scotland

Vestas has received a 108 MW order from Infiney UK to power the Limekiln project in the United Kingdom.

The order includes supply, installation, and commissioning of 24 V136-4.5 MW turbines at a tip height of 150m, as well as a 20-year Active Output Management 5000 (AOM 5000) service agreement.

"Vestas are proud to work with Infiney for the first time in the UK, and we are excited to yet-again supply the V136-4.5 MW for the UK market," says Juan Furones, Vice President Sales for Northern and Central Europe at Vestas. *"We are pleased to contribute to the UK's Net-Zero ambitions through our industry-leading wind energy solutions and strong partnership with our customers."*

The site is located around 13 miles west of Thurso in the Scottish Highlands.

The delivery and installation of the wind turbines are expected to occur in the second quarter of 2024 with the commissioning scheduled for the third quarter of 2024.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 160 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 140 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 28,000 employees are bringing the world sustainable energy solutions to power a bright future.
