Vestas secures 238 MW order for offshore wind project in Japan

Vestas has secured a 238 MW order from Hibiki Wind Energy for the Kitakyushu-Hibikinada Offshore Wind Farm Project located off the coast of Kitakyushu city, Fukuoka prefecture, Japan.

The order includes supply and installation of 25 V174-9.5 MW wind turbines as well as long-term Active Output Management 5000 (AOM 5000) service agreement for the wind farm.

With this project, Vestas will strengthen its position as a leader in offshore wind energy in Japan, leveraging its experience and expertise established through the number of offshore wind energy projects in global markets as well as in Asia Pacific.

"We are delighted to be partnering with Hibiki Wind Energy and provide our V174-9.5 MW turbines for this important project in Japan's offshore wind energy development. We remain committed to contribute to Japan's carbon neutrality goal, through our leading wind energy solutions and strong partnership with our customers," said Purvin Patel, Vestas Asia Pacific President.

Yutaka Mizumachi, Representative Director and President of Hibiki Wind Energy said *"We selected Vestas because of the high reliability of its wind turbines, which have been in operation for many years around the world, and also because of the expectation for local contribution. We hope that the service and maintenance provided by Vestas will be a catalyst for the revitalisation of the local economy"*.

Commissioning is planned for 2025. Once installed, the project will feature the most powerful wind turbines operating in Japan.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 164 GW of wind turbines in 87 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 144 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 28,000 employees are bringing the world sustainable energy solutions to power a bright future.
