Hamburg, 20 September 2023

Vestas wins 46 MW project in Austria

Vestas has received a firm order from Windpark Engelhartstetten GmbH, a subsidiary of WindLandKraft GmbH, for the Engelhartstetten wind park in Lower Austria.

The order consists of 11 V136-4.2 MW wind turbines and includes supply, delivery, and commissioning of the turbines. Upon completion, Vestas will service the turbines under a 25-year Active Output Management 4000 (AOM 4000) service agreement designed to ensure optimised performance of the assets.

"Windpark Engelhartstetten is a big project for the Austrian market, and we are thrilled to be a part of it," says Christoph Manseder, Lead Director Sales for Austria at Vestas. "This is a privately developed wind project within the Austrian Renewable Energy Act and contributes to Austria's energy transition strategy. Our thanks go to our customer for their trust in our technology".

"We are glad to continue our cooperation with Vestas and are proud to expand our portfolio by a further eleven wind turbines after the successful construction and commissioning phase," says Clemens Regehr, managing director at WindLandKraft GmbH.

Turbine delivery is expected to begin in the third quarter of 2024 with commissioning scheduled for completion in the fourth quarter of 2024.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 169 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 149 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
