

## News release from Vestas Northern and Central Europe

Hamburg, 14 November 2023

### Vestas wins 67 MW order in Sweden

Vestas has received a firm order from Vattenfall Vindkraft AB, part of the Vattenfall AB group, to power the 67 MW Velinga wind project in Sweden.

The order consists of twelve V150-6.0 MW wind turbines in 5.6 MW operating mode and includes supply, delivery, and commissioning of the turbines. Upon completion, Vestas will service the turbines under a long-term Active Output Management 5000 (AOM 5000) service agreement designed to ensure optimised performance of the assets.

*“Vestas have been working closely together with Vattenfall on this project from an early stage and we are happy to see the Velinga project now being built, delivering clean energy in the south of Sweden,” says Anna Schlasberg Wachtmeister, Vice President NCE Sales North and West at Vestas. “We are grateful for the partnership we have with Vattenfall, and now we look forward to deliver the turbines so they can start producing fossil-free electricity.”*

The project site is located in the municipality of Tidaholm in Västra Götaland County. Turbine delivery is expected to begin in the second quarter of 2025 with commissioning scheduled for completion in the second half of 2025.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 173 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 151 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
