

Cyberbit and Infinigate Partner to Bring Hyper Realistic Cyber Range Training to SOC Teams Across Northern Europe

Cyberbit Range will enable Infinigate clients to train and assess cybersecurity teams against live, simulated cyberattacks.

RA'ANANA, Israel, July 27, 2020 – Cyberbit, the world's leading provider of Cyber Range training platforms, today announced a new partnership with Infinigate, Europe's first technology solution distributor, to bring immersive SOC team training to Infinigate clients throughout Northern Europe. This partnership marks another milestone for Cyberbit as they continue to evolve and expand channel operations to provide value to, and empower, their partners. Infinigate is the first Northern European value-added distributor to distribute Cyberbit Range. This Partnership is another step in Cyberbit's commitment to provide effective training to every cybersecurity professional on the planet.

Through this strategic partnership, Infinigate will offer [Cyberbit Range](#) to train cybersecurity teams to respond to real world attacks, simulated in a virtual SOC. Cyberbit introduces an innovative approach of hyper-realistic simulation-based training, combining real-world networks, real-world security tools, and real-world cyberattacks. Cyberbit's unique approach is proven to effectively reduce incident response time, reduce training and onboarding time, improve teamwork, communication skills and individual technical skills. These capabilities will allow Infinigate and Cyberbit to address the growing cybersecurity skills gap in Northern Europe.

Infinigate customers can train either remotely or in an office setting, ensuring that they are prepared for the inevitable attack, removing location or travel restrictions as a factor to their training. Additionally, Cyberbit Range is fully aligned to the NICE Cybersecurity Framework and mapped to MITRE ATT&CK.

"We're excited to see that effective and time efficient cybersecurity training is a priority for Infinigate and their clients across Northern Europe." Said Jade Kaaber, Northern Sales Director at Cyberbit. "Infinigate's vast network of resellers will now be able to help their clients' SOC teams prepare for cyberattacks, while allowing us to increase our reach and market penetration across Northern Europe."

"This is a very exciting partnership for Infinigate." Said Klaus Schlichtherle, Group CEO of Infinigate. "With Cyberbit we strengthen our unique value add offerings to our broad partner base in the channel with full focus on cyber security solutions and trainings."

About Cyberbit:

Cyberbit is the market-leading provider of cyber range platforms for training cybersecurity professionals. Cyberbit Range addresses one of the most acute cybersecurity problems: preparing

the human element for attacks. Cyberbit Range delivers a hyper-realistic experience that replicates a real-world cyberattack by immersing trainees in a virtual SOC, where they use commercial security tools to respond to live, simulated attacks. As a result, Cyberbit Range dramatically increases SOC team performance, improves teamwork, and improves evaluation, hiring, and certification processes. The Platform delivers over 100,000 training sessions annually across 5 continents. Customers include leading Fortune 500 companies, MSSPs, system integrators, academies and governments. Cyberbit is headquartered in Israel with offices in the US, Europe, and Asia. For more information visit www.cyberbit.com
