

# Interim Report Q3

## Third quarter, July-September 2025

- Polymer Factory completes strategic delivery to Leading Biopharmaceutical Company based in Boston area
- Dendritic nanogels (DNGs) based on Polymer Factory's proprietary bis-MPA dendritic nanotechnology show promise as nanocarrier against aggressive tumors
- Polymer Factory Granted SpheriCal Patent and Dendritic Nanogel (DNG) Patent in Multiple European Countries
- Polymer Factory Receives Approx. SEK 2.05 Million Through 100% Exercise of Warrants of Series TO1
- Polymer Factory announced change of management

## Year to date, January-September 2025

- Polymer Factory achieved a significant milestone by securing a strategic order for our SpheriCal® products from a global biopharma leader
- The Company carried out a directed share issue during the quarter, targeting a limited group of investors with the aim of increasing working capital
- Polymer Factory announces a substantial order of SpheriCal® products
- The company signed a Supply Agreement with Global Leader in Scientific Instrumentation
- Polymer Factory Receives Order from International Energy Company
- Bruker launches QSee™ in partnership with Polymer Factory

## Key Figures

| (KSEK)                         | Third quarter |              | Nine months  |              |
|--------------------------------|---------------|--------------|--------------|--------------|

## COMMENTS FROM CEO MATS WALLNÉR

I am truly impressed by the caliber of customers choosing our products – many of them are world-leading organizations at the forefront of their industries. This is a strong validation of the quality, innovation, and customer value that Polymer Factory's technology delivers

**"Each QSee™ vial contains only 5 micrograms of SpheriCal®, yet sells for an impressive market price of SEK 13,300"**

### Strategic Collaborations with Bruker and Merck

Our collaboration with Bruker continues to progress well, with joint evaluations of new application areas for SpheriCal® across multiple fields. Earlier this year, Bruker launched QSee™ – a quality control suite of software and reference materials based on SpheriCal®, enabling automated instrument performance evaluation. Each QSee™ vial contains only 5 micrograms of SpheriCal®, yet sells for an impressive market price of SEK 13,300. This market position reflects both the strong commercial potential and the high perceived value of our technology.

Polymer Factory also maintains a long-standing partnership with Merck Sigma Aldrich, acting as a global distributor of around thirty of our products. The collaboration continues to perform well, and our goal is to expand it into new product areas, strengthening our global footprint and market reach.

### Expanding Market Applications

Our proprietary products are applied across a diverse range of industries and research domains. Within IVF (in vitro fertilization), they contribute to improved knowledge and reduced risks; in cancer diagnostics, they enable solutions previously considered impossible; and in dermatology, they enhance skin penetration and therapeutic efficacy. Beyond these areas, our products are used in several other applications, often by customers whose specific projects remain confidential. Our customer base includes global corporations, innovative start-ups, clinics, and some of the world's top-ranked universities.

Mats Wallnér, CEO of Polymer Factory

### Customer Growth and Commercial Focus

It is encouraging to see growing recognition of Polymer Factory and the value our solutions bring to customers. During the quarter, we have strengthened our commercial outreach, taking more structured and proactive measures to identify and engage with potential customers where our technology offers clear competitive advantages. The majority of our customer base is located in North America and Europe – two key markets where we continue to see solid traction.

### Market Environment and Outlook

The global environment remains characterized by uncertainty stemming from complex geopolitical conditions, trade and tariff risks, high asset prices, and concerns over persistent inflation. Despite these challenges, our outlook for the remainder of 2025 and into 2026 remains positive. The world-leading companies we collaborate with recognize both the unique value our products deliver and the deep scientific expertise within Polymer Factory.

### MATS WALLNÉR

Acting CEO

# ABOUT POLYMER FACTORY

**Polymer Factory is a leading developer and provider of dendritic nanomaterials, to be applied over a range of sectors globally.**

Polymer Factory is in many ways an accelerator firm for dendritic nanotechnology – generating cutting-edge products desired by customers across different high-demand sectors. From our roots in dendritic materials, we have developed SpheriCal®, a pioneering calibration technology for mass spectrometry (MS), and more recently, our latest addition, DNGs. Our broad portfolio, comprising more than 300 products, has attracted customers from BigPharma, MedTech, BioTech, as well as the chemical and other industries.

Stemming from many years of cutting-edge research, Polymer Factory was founded by a team of well-renowned scientists. This research has evolved into a business that provides products to billion dollar industries.

## MISSION

To provide life science customers with premium precision nanomaterials for improved analysis and performance.

## VISION

By providing nanomaterials, enable the development of products that improve life and prosperity.

What makes dendritic materials so special, and in many ways superior, is their flawlessness, multifunctionality and dynamic structure. This makes them ideal for a vast number of applications in an array of industrial uses, from applications within pharmaceuticals and diagnostics as well as the chemistry and material industries. Polymer Factory's dendritic materials have a number of competitive advantages:

- Structural perfection (i.e. they are monodisperse and structurally flawless).
- High scalability and batch-to-batch consistency – an important feature across several high-end sectors e.g. therapeutic and diagnostic applications.
- High loading capacity, enabling the attachment of an exact and large number of drugs while decreasing the drug's toxicity when merged with the dendritic material.
- High level of optimization and flexibility, allowing users to achieve desired targeted complexation and product formulation.
- Biocompatibility and biodegradability; the dendritic carriers degrade under physiological conditions.

For more information about Polymer Factory Sweden AB and our products, visit <http://www.polymerfactory.com>

## EVENTS DURING Q3 2025

### KEY EVENTS DURING THE PERIOD

Polymer Factory completes strategic delivery to Leading Biopharmaceutical Company based in Boston area

### KEY EVENTS AFTER THE END OF THE PERIOD

A leading multinational company in the US is conducting an evaluation of SpheriCal®, and the initial results have been encouraging.

### RELATED PARTY TRANSACTIONS

There is a consultancy agreement between the Company and NORDICBLUE AB, which is partly owned by Mats Wallnér, regarding services related to his role as CEO for the Company. During Q3, a total of SEK 85,893 has been invoiced under the agreement.

There is also a consultancy agreement between the Company and SCEM Consulting AB, which is partly owned by Michael Malkoch, regarding services related to his role as CTO for the Company. During Q3, a total of SEK 85,893 has been invoiced under the agreement.

### RISKS AND UNCERTAINTY FACTORS

Polymer Factory is exposed to various types of risks, which can be categorized as related to business and operations, industry and market, intellectual property, and financial risks. During the third quarter, it is assessed that no significant changes has occurred in respect of risks and uncertainties.

More details on the Company's risks and uncertainties are described in the Annual Report that was published on 3 April 2025, which can be found on the company's website.

### ORGANIZATION

As per September 30, 2025, the number of employees in the company was 4, in addition to above mentioned consultancy agreement.

### SHARE

Polymer Factory Sweden AB (publ) is listed on Nordic SME on Nordic Growth Market since June 24, 2024 under ticker POLYMER. The Company was previously listed on Spotlight Stock Market since April 7, 2021 under the same ticker.

Total number of shares amounts to 16,174,966.

Nordic Growth Market NGM AB, owned by Börse Stuttgart, is a Swedish stock exchange with permission from the Swedish Financial Supervisory Authority to operate a regulated market, Main Regulated, a multilateral trading platform, Nordic MTF, and a growth market for small and medium-sized companies, Nordic SME.

### ACCOUNTING PRINCIPLES

The interim report is prepared in accordance with the Swedish Annual Accounts Act and the standards of the Swedish Accounting Standards Board (BFNAR 2012:1) (K3). Accounting principles are unchanged compared with 2024.

This report has not been reviewed by the company's auditor.

### OTHER INFORMATION

A warrant program for the CEO and other employees was established on the extra general meeting on 20 December 2021. More information on the program and terms can be found on the Company's website.

# FINANCIAL OVERVIEW

## REVENUES

Net sales for the period amounted to KSEK 431 (560), a decrease with 23% compared to Q3 2024. Net sales for year to date amounted to KSEK 1,628 (1,159), an increase with 40% compared to the same period 2024.

During the quarter there was a minimal increase in inventories. Other revenue amounted to KSEK 498 (498) for the period, and KSEK 1,502 (1,105) for year to date, which is derived from work performed under the grant from EDF.

Out of the four segments (Dendrimers and dendrons, Hyperbranched materials, SpheriCal® and DNG), Dendrimers and Dendrons, and Hyperbranched were predominant in Q3, relating to a customized product. For year to date, SpheriCal® was predominant. North America has been the predominant market during both periods, with Europe following.

## OPERATING EXPENSES

Total operating expenses amounted to KSEK 1,493 (1,581) for Q3 and KSEK 4,892 (5,869) for year to date respectively.

## RESULT

Loss amounted to KSEK -562 (-931) for the third quarter, and KSEK -1,608 (-3,498) for year to date. For the period, the result is affected by the differences in change in inventory, which resulted in KSEK 2 (-397) for September.

Earnings per share amounted to SEK -0.04 (-0.09) for the third quarter and SEK -0.12 (-0.33) for year to date.

## CASH FLOW AND FINANCIAL POSITION

Cash flow from operating activities for the period was KSEK -957 (-631) and KSEK -2,548 (-3,637) for year to date.

Cash flow for the period was KSEK 1,097 (-631) and for year to date KSEK 1,012 (-3,637) due to new share issues. As per September 30, 2025 Cash and bank amounted to KSEK 2,727 and equity amounted to 5,414.

The board assesses that there is a risk that the company will not have sufficient financing for the next 12 months given that sales do not develop favorable, cost reductions are not sufficient and/or that no capital is obtained from the capital market.

## INCOME STATEMENT IN SUMMARY

|                                                                                       | Third quarter   |                 | Nine months     |                 | Full year         |
