

Terrafame publishes its January-September 2025 results on 23 October

The battery chemicals producer Terrafame Ltd will publish its January–September 2025 results on Thursday, 23 October at approximately 9:00 a.m. EEST. The media release will be available after publication on the company's website at www.terrafame.com.

A Finnish-language webcast will be held on the same day at 12:00 p.m. EEST. At the event, Antti Koulumies, CEO of Terrafame, and Ville Sirviö, CFO, will discuss the company's performance. The webcast can be followed live at terrafame.videosync.fi/q3-2025. Questions can be submitted using the form at the bottom of the page.

Terrafame enhances low-carbon mobility by delivering responsibly produced battery chemicals to the global battery industry. One of the world's largest production lines for chemicals used in electric vehicle batteries is located on Terrafame's industrial site. The plant is capable of producing nickel sulphate for around 1 million EVs per year. The carbon footprint of the nickel sulphate produced by Terrafame is among the smallest in the industry.

Terrafame's integrated, unique and energy-efficient production process from the mine to battery chemicals is located on a single industrial site. It provides customers with a transparent, traceable and truly European battery chemical supply chain.

Terrafame Ltd was founded in 2015. Its net sales in 2024 were EUR 544.5 million. Around 2,000 people work on its industrial site, approximately 1,200 of whom are employees of partner companies.
