

## **NGM Market notice: #26-24**

Stockholm, March 27, 2026

### **NGM Strengthens Its Growth Offering with Market Rebrand and Enhanced Rulebook**

NGM today announces the rebranding of Nordic SME to NGM Growth Market, marking an important step in strengthening its offering for growth companies and investors. The initiative is aimed at enhancing transparency, clarity, and predictability in both listing requirements and the overall listing process.

As part of this development, NGM has, in close dialogue with key stakeholders, conducted a comprehensive review of the Rulebook for NGM Growth Market. Following the review, NGM has introduced updated listing requirements designed to better support companies throughout their growth journey. In addition, targeted improvements have been made across the Rulebook, and a new, streamlined checklist for required listing documentation has been launched to facilitate a more efficient and user-friendly listing experience.

A detailed overview of all amendments is available in a comparative table (Appendix 1). The updated Rulebook and the new checklist, including guidance on preparing a liquidity forecast, has been published on NGM's website and will enter into force on May 1.

Through these enhancements, NGM further reinforces its commitment to providing a transparent, efficient, and attractive marketplace for growth companies.
