

Tele Radio Sweden appoints Pär Wahlstrand as new Managing Director

Gothenburg, June 29th, 2026

Pär Wahlstrand will take up the role of Managing Director of Tele Radio Sweden on 1 June 2026. He succeeds Erik Jansson, who has decided to leave the company after 18 years as Managing Director to pursue new opportunities. Tele Radio Sweden will continue to focus on growth, customer value and strengthened collaboration within the Allgon Group.

The change marks the next step in Tele Radio Sweden's development, with a clear focus on strengthening customer value, supporting long-term growth and further developing the company's strong position in the Swedish market.

Pär Wahlstrand has extensive experience from both Tele Radio and Allgon Group and most recently held the role of Interim Chief Marketing Officer for the Group. With his broad commercial background and deep understanding of Tele Radio's customers, markets and organisation, he is well equipped to lead Tele Radio Sweden into its next phase.

"I am pleased and honoured to have been entrusted with leading Tele Radio Sweden," says Pär Wahlstrand. "Tele Radio Sweden has a strong position, an experienced team and close relationships with customers and partners. I look forward to continuing to develop the business together with the organisation, strengthening customer value and contributing to our continued growth."

Erik Jansson has played a central role in Tele Radio Sweden's development during his 18 years as Managing Director. Under his leadership, Tele Radio Sweden has strengthened its position in the Swedish market and built a strong offering in industrial radio control.

"It has been a rewarding and successful journey," says Erik Jansson. "I would like to extend my sincere thanks to our customers, partners and colleagues for a fantastic collaboration over the years. The future looks very bright for Tele Radio, and I am confident that the company will continue to grow and develop."

"We would like to extend our sincere thanks to Erik for his significant contributions over many years. At the same time, we are very pleased to welcome Pär as Managing Director. With his experience from both Tele Radio and Allgon, he is well placed to lead the company forward," says Linda Nyquist-Evenrud, Group CEO of Allgon Group.

Information for the editors, not for publication

Tele Radio Group is a multinational company that develops, markets, and supplies universal wireless remote controls and tailor-made wireless solutions for industrial use. Its products contribute to a more efficient and safer work environment. The company was founded in Lysekil, Sweden in 1955, and has since developed into an international corporation with headquarters in Gothenburg and over twenty subsidiaries across Europe, Asia, and the Americas.
