

Stuart Templar

Director, Sustainability

Stuart joined Volvo Cars in 2016 as Director of Sustainability. He oversees Volvo Cars' sustainability strategy in virtually every area of the company from Design to Product Creation, Procurement, Finance and more. Stuart believes that improving Volvo Cars's overall sustainability performance and transforming Volvo Cars into a truly sustainable business is critical to the company's future success. Stuart and his team are currently working to ensure that Volvo Cars has a responsible supply chain, and to reduce the company's environmental footprint.
