

Lotta Jakobsson

Senior Technical Specialist, Injury Prevention

Dr. Jakobsson is an internationally acknowledged researcher and award-winning authority on child safety, with more than 25 years of safety research and development experience at Volvo Cars. She has contributed to the development of safety in new Volvo cars introduced over the last decades; including world-first systems such as SIPS bags, inflatable curtains, whiplash protection systems and integrated child seats. She now plays a central role in the development of the company's advanced behaviour-based safety technologies.
