

Johan Taws

Product and Program Head of Large Cars / Vice President

Johan has been at Volvo Cars since 2002 and is the product owner for all our cars from their inception to last production run. In over 20 years at Volvo, Johan was previously the AD & Mobility Business Owner & Strategy / Vice President, creating the future direction and sustainable business for safe and automated mobility solutions.

Before that, Johan served as the Tech and Industrial head of several new car programs / Sr Director for our XC40, S60L and XC60 models.
