

# Anders Löfvendahl

Technical Expert & Function Owner Cabin Air  
Quality  
Volvo Cars, Climate Department

Anders Löfvendahl obtained BSc degree in Chemical engineering at Chalmers University of Technology 1994. He joined Volvo in 1995 and has been working in the environmental field ever since.

He has held different positions in various parts of Volvo and been working with both interior and exterior environmental questions and with climate comfort.

He is now Volvo Cars technical expert in cabin air quality.
