- NEWS RELEASE -

Goldsky Resources Releases Q3 2026 Financial Results and Corporate Update

VANCOUVER, **Canada, November 27, 2026 — Goldsky Resources Corp** (TSX-V: GSKR, FNSE: GSKR SDB, OTCQX: GSKRF, FRA: HEG0) ("**Goldsky Resources**" or the "**Company**") announces the release of its unaudited condensed consolidated interim financial statements and management discussion and analysis (the "Financial Statements") for the nine months ended September 30, 2026 ("Q3 2026").

During the quarter, the Company commenced a 25,000-metre drill program at Barsele, reported positive interim metallurgical results and advanced the Rajapalot resource update, while maintaining a strong treasury position.

Q3 2026 Highlights:

- Cash increased to approximately C$58.6 million as at September 30, 2026 (June 30, 2026: C$56.4 million), as C$6.3 million received from the exercise of warrants, stock options and compensatory options during the quarter more than offset cash used in operations. The Company remains well funded to advance its Nordic portfolio.
- Total assets increased to approximately C$441.5 million as at September 30, 2026 (June 30, 2026: C$430.5 million), mainly reflecting the advisory fee capitalized to the Barsele Gold Project ("Barsele") during the quarter and the higher cash balance.
- Exploration and evaluation assets increased to C$379.2 million (June 30, 2026: C$371.6 million) following the capitalization of the advisory fee for the Barsele acquisition.
- Exploration expenditure of approximately C$1.7 million during Q3 2026 (Q2 2026: C$2.3 million), split mainly between Rajapalot (C$0.8 million) and Barsele (C$0.8 million).
- Net loss of C$3.6 million for Q3 2026 (Q2 2026: C$5.5 million), mainly reflecting lower exploration expenditure and management fees, as Q2 2026 included a C$1.5 million management fee recorded on closing of the Barsele acquisition. The nine-month net loss of C$37.4 million includes C$23.7 million of non-cash share-based payments relating to options granted in Q1 2026.

Operational Highlights:

- On September 22, 2026, the Company announced a 25,000-metre diamond drill program at Barsele, its first major campaign since consolidating 100% ownership. Drilling commenced on September 16, 2026, targeting the Skiråsen, Central and Avan zones to upgrade Inferred Mineral Resources and test extensions, in support of an updated Mineral Resource estimate and a maiden Preliminary Economic Assessment (PEA).
- Metallurgical test work on 345 kg of composite samples from the Central and Avan zones at Barsele commenced on August 5, 2026. Positive interim results reported on September 21, 2026 showed overall gold recoveries of 89.6% (Central) and 90.8% (Avan) at a grind size of P80 75 microns.
- At the Rajapalot gold-cobalt project in northern Finland, assay results from all 46 holes of the winter drill program were received. The updated resource model is with SLR, which is completing the resource update that will support an updated PEA.

Corporate Highlights:

- On July 23, 2026, the Company held its Annual General Meeting. Shareholders elected all six director nominees, reappointed Davidson & Company LLP as auditor and approved a new Omnibus Equity Incentive Plan.
- Appointment of Gabriella Hammarskjöld as Environmental Manager of Goldsky Sweden AB, effective September 1, 2026, and Carl Danielsson as Manager of Communications and Public Affairs for Goldsky Sweden AB, effective October 1, 2026.
- Appointment of Karl-Petter Thorwaldsson, former Minister of Enterprise, on November 11, 2026, as a non-executive Director of Goldsky Resources.

Subsequent Events:

- In October 2026, the Company paid the Haywood cash advisory fee and, on October 23, 2026, issued the 1,166,130 common shares.
- On October 27, 2026, the Company announced assay results from all 46 holes of the 2026 Rajapalot winter drill program, with significant intercepts in 32 of 37 infill holes, including 12.6 metres at 233.56 g/t gold uncut (14.19 g/t gold at a 50 g/t top cut) and 881 ppm cobalt in hole PAL0433, and 17.35 metres at 16.46 g/t gold and 652 ppm cobalt in hole PAL0406.
- After September 30, 2026, 1,018,729 warrants were exercised for proceeds of $1,890,462 and 79,918 compensatory options for proceeds of $105,492.
- After September 30, 2026, 130,000 options were exercised for proceeds of $226,400.

Financial Reporting and Additional Notes:

The Company's unaudited condensed consolidated interim financial statements and MD&A for the nine months ended September 30, 2026, are available on SEDAR+ and on the Company's website. The Unaudited Financial Statements are available on the Company's website here.

These statements are based on reasonable estimates and information available as of the reporting date and may be subject to revision. Actual results may vary from the financial information presented therein.

Qualified Person

The scientific and technical information contained in this news release has been reviewed and approved by Malcolm Titley, MAusIMM, MAIG, SVP Technical Services of Goldsky Resources Corp., who is a "Qualified Person" as defined in National Instrument 43-101 — Standards of Disclosure for Mineral Projects ("NI 43-101"). Mr. Titley is an employee of the Company and is not independent of the Company. Mr. Titley has verified the data disclosed, including the sampling, analytical and test data underlying the information, by review of the drill logs, core photographs, assay certificates and QA/QC results for the drill holes reported herein; there were no limitations on the verification.

About Goldsky Resources Corp.

Goldsky Resources is a publicly listed gold exploration company, consolidating assets in Sweden and Finland. The Company's flagship asset is the 100% owned Barsele gold project in central Sweden. Barsele is host to an Indicated Mineral Resource of 7.88 Mt grading 1.27 g/t Au containing 320,781 oz Au and an Inferred Mineral Resource: 28.75 Mt grading 1.98 g/t Au containing 1.83 Moz Au. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.

Goldsky Resources is the 100%-owner of a district-scale license position on Sweden's Gold Line greenstone belt comprised of two additional projects (Paubäcken, Storjuktan), which combined with Barsele, total approximately 80,000 hectares.

Additionally, in central Finland, Goldsky Resources is the 100%-owner of a district-scale position covering the entire underexplored Oijärvi greenstone belt, including the Kylmäkangas deposit, the largest known gold occurrence on this belt. Goldsky Resources is also the 100% -owner of the Rajapalot gold cobalt project situated

in northern Finland, which has an Inferred Resource of 9,780kt containing 867 koz Au @ 2.8 g/t Au & 4.3 kt Co @ 441 ppm Co (NI 43-101 Technical Report ON A Preliminary Economic Assessment Of The Rajapalot Gold-Cobalt Project, Finland. Effective Date: 19 December 2023. Prepared for Mawson Finland Ltd by SRK Consulting (UK) LTD. Forward-looking Information:

This news release contains forward-looking statements that reflect the Company's intentions, beliefs, or current expectations about and targets for the Company's and the group's future results of operations, financial condition, liquidity, performance, prospects, anticipated growth, strategies and opportunities and the markets in which the Company and the group operates. Forward-looking statements are statements that are not historical facts and may be identified by words such as "believe", "expect", "anticipate", "intend", "may", "plan", "estimate", "will", "should", "could", "aim" or "might", or, in each case, their negative, or similar expressions. The forward-looking statements in this news release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that they will materialize or that the assumptions on which it is based are correct. Because these statements are based on assumptions or estimates and are subject to risks and uncertainties, the actual results or outcome could differ materially from those set out in the forward-looking statements as a result of many factors. Such risks, uncertainties, contingencies, and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements. The Company does not guarantee that the assumptions underlying the forward-looking statements in this news release are free from errors and readers of this news release should not place undue reliance on the forward-looking statements in this press release. The information, opinions and forward-looking statements that are expressly or implicitly contained herein speak only as of the date of this news release and are subject to change without notice. Neither the Company nor anyone else undertake to review, update, confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this news release, unless it is required by law or Nasdaq First North Growth Market Rulebook for Issuers of Shares.

Supplemental disclosure with respect to cash flows (note 9)
The accompanying notes are an integral part of these condensed consolidated interim financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

Goldsky Resources Corp. (formerly First Nordic Metals Corp.) (the "Company") was incorporated under the laws of the Province of British Columbia, Canada on February 20, 2013. The Company's principal business activities include the acquisition and exploration of mineral properties in Sweden and Finland. On March 18, 2024, after the closing of the transaction with Gold Line Resources Ltd. (Note 4), the Company changed its name to First Nordic Metals Corp. On December 22, 2025, after the closing of the transaction with Mawson Finland Limited (Note 4), the Company changed its name to Goldsky Resources Corp. The Company's shares trade on the TSX Venture Exchange under the trading symbol GSKR.V. On March 21, 2025, the Company's SDR's commenced trading on Nasdaq First North under the symbol GSKR SDB with the ISIN SE0023847785.

The head office, registered address and records office of the Company are located at Suite 2700, 666 Burrard Street, Vancouver, BC, V6C 2X8.

On February 23, 2024, the Company closed the transaction to acquire 100% of the shares of Gold Line Resources Ltd. ("Gold Line"), a Canadian exploration company listed on the TSX-V and OTC Exchange, for total consideration of $4,754,444 (note 4). On December 16, 2025, the Company closed the transaction to acquire 100% of the shares of Mawson Finland Limited ("Mawson"), a Canadian exploration company listed on the TSX-V, for a total consideration of $75,871,879 (Note 4).

On December 10, 2025, the Company consolidated its outstanding share capital on the basis of four (4) pre-consolidated shares for one (1) post consolidated share (the "Consolidation"). All share amounts have been adjusted to reflect the consolidation. The exercise price and number of common shares issuable upon the exercise of the Company's outstanding options and warrants have also been proportionately adjusted.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company has raised adequate funds during the prior year and anticipates that it has sufficient capital to meet its current obligations for the next twelve months.

2. BASIS OF PREPARATION

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with accounting policies consistent with International Accounting Standards ("IAS") 34, Interim Financial Reporting using the Principles of IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

These condensed consolidated interim financial statements do not include all the information required for full annual financial statements and, accordingly, should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2025.

b) Basis of measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

c) Basis of consolidation

These condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, being Gold Line Resources Ltd. (British Columbia, Canada), Gold Line Resources Holdings Ltd. (British Columbia, Canada), First Nordic Metals Sweden AB (Sweden), GLR Finland Oy (Finland), Solvik Gold AB (Sweden), Nordic Route Explorations Ltd. (British Columbia, Canada), Nordic Route Explorations AB (Sweden), Mawson Finland Limited (Canada), Mawson Finland Gold BC Limited (Canada), Mawson Oy (Finland), Gunnarn Mining AB and Goldsky Sweden AB.

Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries, including entities which the Company controls, are included in the consolidated financial statements from the date that control commences until the date that control ceases. All intercompany transactions and balances have been eliminated.

Critical accounting estimates

The preparation of these condensed consolidated interim financial statements in accordance with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

a) The inputs used in calculating the fair value for share-based payments expense included in profit or loss and share-based share issuance costs included in shareholders' equity. The share-based payments expense is estimated using the Black-Scholes option pricing model as measured on the grant date to estimate the fair value of stock options. This model involves the input of highly subjective assumptions, including the expected price volatility of the Company's common shares, the expected life of the options, and an estimated forfeiture rate.

b) Management has determined that acquisition costs related to its exploration and evaluation assets which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including, geologic and other technical information, a history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the project.

c) Management had to apply judgement with respect to whether the acquisition of Barsele, Mawson Finland Limited ("Mawson"), Nordic Business Unit ("NBU") and Gold Line Resources Ltd. ("Gold Line") were an asset acquisition or business combination. The assessments required management to assess the inputs, processes and outputs of the company acquired at the time of acquisition. The Barsele, Mawson, NBU and Gold Line acquisitions were classified as asset acquisitions in the assessment.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied by the Company in its consolidated financial statements for the year ended December 31, 2025.

Future accounting changes

Effective January 1, 2027, the Company is required to adopt IFRS 18, Presentation and Disclosure in Financial Statements, with early adoption permitted. IFRS 18 will replace IAS 1; many of the existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its operating profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7, Statement of Cash Flows. The Company is assessing the potential impact of the application of the standards.

4. (a) ACQUISITION OF GOLD LINE RESOURCES LTD. ("GOLD LINE")

On February 23, 2024, the Company completed the acquisition of all the issued and outstanding common shares of Gold Line whereby each Gold Line shareholder received 0.7382 common shares of the Company in exchange for one common share of Gold Line (the "Arrangement"). Pursuant to the Arrangement, the Company issued 8,936,929 common shares with a fair value of $4,289,726. Gold Line was a Canadian exploration company listed on the TSX-V and OTC Exchange. On completion of the Arrangement, Gold Line's common shares were delisted from the TSX-V and OTC Exchange.

As part of the Arrangement, all outstanding share options and warrants of Gold Line were exchanged for share options to acquire up to an aggregate of 387,555 common shares of the Company. All outstanding warrants of Gold Line are now exercisable to acquire 3,547,064 common shares of the Company.

The transaction costs associated with the Arrangement totaled $101,043 and is comprised of legal fees and transfer agent fees.

The acquisition of Gold Line constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as a payment of equity consideration for the acquisition of Gold Line and its net assets. The value of the consideration paid after allocation to the other net assets acquired, was allocated to exploration and evaluation assets, which are located in Sweden and Finland.

The total consideration for the acquisition of the assets and liabilities of Gold Line assumed on acquisition were as follows:

	Total $
Cost of acquisition:	
Common shares issued	4,289,726
Transaction costs	101,043
Value of stock options	126,020
Value of warrants	237,655
Total consideration	**4,754,444**
Allocated as follows:	
Cash	14,126
Receivables	35,403
Prepaid expenses	68,847
Exploration and evaluation assets	6,221,626
Accounts payable	(1,585,558)
	4,754,444

4. (b) ACQUISITION OF MAWSON FINLAND LIMITED ("MAWSON")

On December 16, 2025, the Company completed the acquisition of all the issued and outstanding common shares of Mawson (the "Transaction). Pursuant to the terms and conditions of the Arrangement Agreement, the holders of the issued and outstanding Mawson common shares received 1.7884 (or 7.1534 on a pre-consolidation basis) common shares in the capital of the Company (the "Goldsky Shares") for each one Mawson common share (the "Exchange Ratio") held immediately prior to closing of the Transaction, which exchange occurred on a post the Consolidation. Pursuant to the Transaction, the Company issued 39,976,326 common shares with a fair value of $69,958,571. Mawson was a Canadian exploration company listed on the TSX-V. On completion of the Transaction, Mawson's common shares were delisted from the TSX-V.

As part of the Transaction, all outstanding share options of Mawson were exchanged for share options to acquire up to an aggregate of 1,931,472 common shares of the Company.

The transaction costs associated with the Transaction totaled $4,770,864 and are comprised of advisory fees, legal fees and transfer agent fees. These costs were settled by issuance of common shares and cash payments.

The acquisition of Mawson constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as payment of equity consideration for the acquisition of Mawson and its net assets. The value of the consideration paid after allocation to the other net assets acquired, was allocated to exploration and evaluation assets, which are located in Finland.

The total consideration for the acquisition of the assets and liabilities of Mawson assumed on acquisition were as follows:

	Total $
Cost of acquisition:	
Common shares issued	69,958,571
Transaction costs	4,770,864
Value of stock options	1,142,444
Total consideration	**75,871,879**
Allocated as follows:	
Cash	691,823
Receivables	161,674
Prepaid expenses	72,930
Property and equipment	33,841
Right of use asset	347,101
Exploration and evaluation assets	76,016,266
Bonds	101,119
Accounts payable	(807,433)
Advances	(350,000)
Lease liability	(395,442)
	75,871,879

4. (c) ACQUISITION OF NORDIC BUSINESS UNIT ("NBU")

On February 19, 2026, the Company announced the closing of the acquisition of the Nordic business unit ("NBU Acquisition") of Elemental Royalty Corporation (previously operating as EMX Royalty Corporation ("Elemental"). Pursuant to the terms of the NBU Acquisition agreement dated May 30, 2025 (the "Agreement"), the Company is making staged payments totaling 3,247,000 SEK (CAD $480,900), with each payment paid half in cash and half in the Company's common shares ("Shares"), as follows:

- 1,052,000 SEK following TSX-V approval (paid by the issuance of 20,138 common shares and SEK 526,000 (CAD $77,900) in cash)
- 1,195,000 SEK (CAD $177,000) on the first anniversary of closing; and
- 1,000,000 SEK (CAD$148,100) on the second anniversary of closing.

The deemed issue price of the Company's common shares to be issued will be the greater of $1.26 and the volume weighted average price of the Company's shares over the 10 consecutive trading days preceding the issue date, provided that, if and to the extent any issuance of the Company's shares causes Elemental's ownership of the Company's shares to exceed 9.9% of the then issued and outstanding shares, the dollar value of such excess portion of the Company's shares not issued shall instead be satisfied by the Company making an equivalent cash payment.

Elemental will retain a 1% net smelter return (NSR) royalty on any new projects organically generated (i.e. newly staked) by the Company in Sweden and Finland within five years of the effective date of the Agreement.

The acquisition of NBU constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as payment of equity consideration for the acquisition of Elemental/NBU and its net assets.

The total consideration for the acquisition of the assets and liabilities of Elemental assumed on acquisition were as follows:

	Total $
Cost of acquisition:	
Common shares issued and to be issued	240,450
Cash paid and payable	240,450
Total consideration	**480,900**
Allocated as follows:	
Cash	60,529
Receivables	1,940
Property and equipment	525,785
Accounts payable	(6,149)
Advances	(101,205)
	480,900

4. (d) ACQUISITION OF REMAINING 55% INTEREST IN GUNNARN MINING AB ("BARSELE PROJECT")

On June 25, 2026, the Company completed the acquisition of the remaining 55% interest in Gunnarn Mining AB ("Gunnarn") from Agnico Eagle Sweden AB ("Agnico"), resulting in the Company owning 100% of Gunnarn and the Barsele Project. Prior to the acquisition, the Company held a 45% interest in Gunnarn.

Pursuant to the terms of the acquisition agreement, consideration for the remaining 55% interest consisted of:

- US$20,000,000 in cash (CAD $28,465,700);
- 75,509,577 common shares of the Company; and
- the grant to Agnico of a perpetual 2% net smelter return ("NSR") royalty on the Barsele Project that will commence on commercial production.

In connection with the acquisition, the Company also issued 2,574,833 common shares to Nuvolari Capital Limited as an advisory fee and incurred direct transaction costs of $281,093.

During the three months ended September 30, 2026, the Company agreed to pay Haywood Securities Inc. ("Haywood") an advisory fee in connection with the acquisition consisting of cash of $3,785,257 (plus HST) and 1,166,130 common shares of the Company valued at $3,785,258 (C$3.246 per share, being the value of the shares set out in Haywood's invoice). The total advisory fee of $7,570,515 was capitalized to the Barsele exploration and evaluation asset. As at September 30, 2026, the shares had not been issued and were recorded as shares to be issued within shareholders' equity, and $4,769,424 (including HST) payable to Haywood was included in accounts payable and accrued liabilities. The cash was paid and the shares were issued in October 2026 (note 15).

The acquisition of the remaining 55% interest in Gunnarn constitutes an asset acquisition. The assets acquired did not meet the definition of a business under IFRS 3, Business Combinations ("IFRS 3"), and accordingly, the transaction has been accounted for as an acquisition of assets rather than a business combination. The Company's previously held 45% interest in Gunnarn, with a carrying amount of $1, was not remeasured on acquisition.

The total acquisition cost was allocated to exploration and evaluation assets as follows:

	Total $
Cost of acquisition:	
Cash consideration	28,465,700
75,509,577 common shares issued	243,140,838
2,574,833 common shares issued as advisory fee	8,290,963
Direct transaction costs	281,093
Advisory fee – Haywood (cash)	3,785,257
1,166,130 common shares to be issued as advisory fee – Haywood	3,785,258
Carrying amount of previously held 45% interest	1
Total acquisition cost allocated to exploration and evaluation assets	**287,749,110**

The common shares issued as consideration to Agnico and as an advisory fee listed above were valued at $3.22 per common share. The 1,166,130 common shares to be issued to Haywood were valued at $3,785,258 (C$3.246 per common share), being the value of the services attributed to the shares in Haywood's invoice. These shares were issued after the quarter on October 23, 2026.

The 2% NSR royalty granted to Agnico has not been recognized as a separate financial liability or as a separate component of the acquisition cost. The royalty represents a continuing burden on mineral property, with royalty payments becoming payable when minerals are produced and sold. Accordingly, the acquired mineral property is recognized subject to the 2% NSR royalty.

5. EQUITY INVESTMENT - EXPLORATION AND EVALUATION ASSETS

Barsele Project

On September 25, 2015, a 45% interest in the Barsele Project, which includes Gunnarn Mining AB and Gunnarn Exploration AB (collectively, the "Barsele JV"), was transferred from Orex Minerals Inc. ("Orex") to the Company pursuant to a plan of arrangement. Prior to June 25, 2026, the remaining 55% interest in the Barsele Project was held by Agnico Eagle Sweden AB ("Agnico").

Prior to the acquisition of Agnico's interest, the Company accounted for its 45% interest in the Barsele JV using the equity method. As Agnico had elected to solely fund expenditures on behalf of the Barsele JV, the Company did not recognize its share of losses once the carrying value of its investment had been reduced to $1.

On June 25, 2026, the Company completed the acquisition of Agnico's remaining 55% interest in Gunnarn Mining AB, resulting in the Company owning 100% of Gunnarn Mining AB and the Barsele Project. Accordingly, effective June 25, 2026, the Company ceased accounting for its interest using the equity method. The acquisition was accounted for as an asset acquisition and the carrying amount of the Company's previously held 45% interest of $1 was included in the cost of the acquired exploration and evaluation assets without remeasurement. See note 4(d).As at September 30, 2026, the Company's interest in the Barsele Project is included in exploration and evaluation assets rather than as an equity-accounted investment.

The following summarizes the continuity of the Company's interest in the Barsele Project during the nine months ended September 30, 2026:

	Total $
Equity-accounted investment, December 31, 2025	1
Acquisition of remaining 55% interest and other acquisition costs	287,749,109
Exploration and evaluation assets, September 30, 2026	**287,749,110**

6. EXPLORATION AND EVALUATION ASSETS

As part of the acquisition of Gold Line (note 4), the Company acquired its exploration and evaluation assets. The following tables summarize the capitalized costs associated with the Company's exploration and evaluation assets as of September 30, 2026:

Acquisition Costs	Gold Line Project $	Klippen Gold Project $	Oijärvi Gold Project $	Rajapalot (Finland) $	Barsele Project $	Total $
Balance: December 31, 2023	-	-	-	-	-	-
Acquisition of Gold Line (note 4a)	3,522,377	844,217	1,855,032	-	-	6,221,626
Shares issued for mineral property acquisition	-	-	10,063,754	-	-	10,063,754
Write-down of exploration and evaluation asset	-	(844,217)	-	-	-	(844,217)
Balance: December 31, 2024	3,522,377	-	11,918,786	-	-	15,441,163
Acquisition of Mawson Finland (note 4b)	-	-	-	76,016,266	-	76,016,266
Balance: December 31, 2025	3,522,377	-	11,918,786	76,016,266	-	91,457,429
Acquisition of Barsele Project (note 4d)	-	-	-	-	287,749,110	287,749,110
Balance: September 30, 2026	**3,522,377**	**-**	**11,918,786**	**76,016,266**	**287,749,110**	**379,206,539**

Gold Line Project, Sweden

As part of the acquisition of Gold Line (Note 4), the Company acquired the Gold Line Project located in Sweden. The Gold Line Project consists of mineral property licenses along the Gold Line of northern Sweden and includes the Långtjärn, Blåbärliden, Paubäcken and Kankberg Norra properties.

The project was acquired by Gold Line from EMX Royalty Corporation ("EMX"). Under the terms of the original agreement, EMX has the right to participate pro rata in future financings of the Company, at its own cost, to maintain its interest in Gold Line (the "Pre-Emptive Right") until EMX's interest is less than 5%. EMX also holds a 3% royalty interest on production returns from certain licences and properties comprising the Gold Line Project. Gold Line had the right, within six years of April 1, 2019, to buy down up to 1% of the royalty owed to EMX (leaving EMX with a 2% royalty interest) by paying EMX 2,500 ounces of gold, or the cash equivalent thereof. Subsequent to the expiry of this period, the Company did not exercise the buy-down right and the option lapsed. In addition, the following royalty agreements are associated with the project.

Eurasian Minerals Sweden AB ("EMSAB") Royalty:

Gold Line entered into a royalty agreement with EMSAB dated April 1, 2019, pursuant to which Gold Line is required to make annual advance royalty payments (the "Gold Line AAR"). The Gold Line AAR commenced at 30 ounces of gold and increases by five ounces per year up to a maximum of 75 ounces of gold per year until commencement of commercial production. EMSAB has the option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain agreed conditions. During the nine months ended September 30, 2026, the Company paid $Nil related to the Gold Line AAR. As at September 30, 2026, the Company paid a total of $492,442 (US$357,503) related to the Gold Line AAR.

AOI Royalty:

Certain additional licenses were staked subsequent to the original agreement with EMX. Under the terms of the original agreement, licenses staked within the agreed area of interest (the "AOI"), or subsequently acquired by Gold Line before April 1, 2024, are subject to a 1% net smelter return royalty on production from the AOI interest. The Company did not acquire any licenses within the AOI before April 1, 2024.

Failure to Comply:

If Gold Line delivers a relinquishment notice to EMX or fails to make required royalty or annual advance royalty payments, EMX has the right, subject to the terms of the applicable agreements, to require Gold Line to transfer the Gold Line Project back to EMX for no further consideration.

Klippen Gold Project

As part of the acquisition of Gold Line (Note 4), the Company acquired the Klippen Gold Project, consisting of an exploration license located in Sweden. Viad Royalties AB ("Viad") holds a 1% royalty interest in the project.

Viad Royalty:

Gold Line entered into a royalty agreement with Viad dated December 31, 2021, pursuant to which Gold Line was required to make annual advance royalty payments (the "Klippen AAR") of one ounce of gold on or before the first anniversary and each anniversary thereafter until commencement of commercial production. Viad had the option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain agreed conditions.

Subsequent to December 31, 2024, the Company decided not to renew the Klippen claims and accordingly recognized a write-down of the exploration and evaluation asset of $844,217 as at December 31, 2024. As a result, the carrying value of the Klippen Gold Project was $Nil as at September 30, 2026 and December 31, 2025.

Oijärvi Gold Project, Finland

As part of the acquisition of Gold Line (note 4(a)), the Company acquired the Oijärvi Gold Project located in central Finland. Gold Line and EMX previously entered into a definitive agreement (the "AEM Agreement") with Agnico Eagle Mines Limited ("Agnico") pursuant to which Gold Line would acquire a 100% interest in Agnico's Oijärvi Gold Project and the Solvik Gold Project, which was impaired by Gold Line during the year ended December 31, 2022 (the "AEM Transaction"). Agnico retained a 2% net smelter return ("NSR") royalty on the projects, 1% of which may be purchased by EMX for US$1,000,000.

Eurasian Minerals Sweden AB ("EMSAB") Royalty:

Gold Line entered into a royalty agreement with EMSAB dated March 25, 2021, pursuant to which Gold Line is required to make annual advance royalty payments (the "Oijärvi AAR"). The Oijärvi AAR commenced at 30 ounces of gold and increases by five ounces per year up to a maximum of 75 ounces of gold per year until commencement of commercial production. EMSAB has the option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain agreed conditions. During the year ended December 31, 2025, the Company accrued $297,874 (US$216,983) related to the Oijärvi AAR, which was paid during the nine months ended September 30, 2026.

On May 1, 2023, Gold Line entered into an amending agreement to the AEM Agreement (the "Amended AEM Agreement"). In connection with the Amended AEM Agreement, Gold Line issued 1,327,989 common shares on May 1, 2023 and made a cash payment of US$87,500 on or before June 30, 2023.

As a result of the Amended AEM Agreement, total consideration would be US$10,175,000, comprised of US$7,087,500 in cash, US$1,500,000 in common shares of EMX and US$1,587,500 in common shares of Gold Line, which was required to be paid (or had been paid) to Agnico as follows:

Date	Cash Payments (USD) $	EMX Shares (USD) $	Gold Line Shares (USD) $
Upon TSXV approval	750,000 (paid)	375,000 (issued)	375,000 (issued)
On first anniversary of the Agreement (March 19, 2022)	1,500,000 (paid)	500,000 (issued)	500,000 (issued)
On second anniversary of the Agreement (March 19, 2023)	87,500 (paid)	-	87,500 (issued)
On the third anniversary of the Agreement (March 19, 2024)	4,750,000 (unpaid)	625,000 (not issued)	625,000 (not issued)
Total	**7,087,500**	**1,500,000**	**1,587,500**

As part of the AEM Agreement, EMX will receive cash and share payments from the Company as set out in the revised table below, as well as the purchase right of 1% of Agnico's 2% NSR royalty.

Date	Cash Payments (USD) $	Gold Line Shares Issued to EMX (USD) $
Upon TSXV approval	-	375,000 (issued)
On the first anniversary of the AEM Agreement (March 19, 2022)	250,000 (paid)	250,000 (issued)
On the third anniversary of the AEM Agreement (March 19, 2024)	312,500 (unpaid)	312,500 (not issued)

On July 15, 2024, the Company entered into a subscription agreement with Agnico pursuant to which amounts remaining due under the Amended AEM Agreement were exchanged for common shares of the Company. On July 31, 2024, the Company completed the transaction and issued 27,954,872 common shares to Agnico at a fair value of $10,063,754. The common shares were valued using the trading price on the date of issuance. Completion of the transaction resulted in the Company acquiring the Oijärvi Gold Project.

In connection with the transaction, Agnico and the Company entered into an investor rights agreement that provides Agnico, subject to maintaining specified minimum ownership thresholds, with certain rights including participation rights in equity financings, a top-up right permitting Agnico to increase its ownership to 19.9%, and the right to nominate one person to the Company's board of directors.

Oijärvi Reservation Transaction

On January 21, 2022, in connection with an amendment to the Gold Line Project agreement, Gold Line acquired the Oijärvi exploration reservation (the "Oijärvi Reservation") from EMX. Under the terms of the agreement, EMX received an uncapped 3% NSR royalty on the Oijärvi Reservation. Within six years of December 31, 2021, Gold Line may buy down up to 1% of the royalty owed to EMX (leaving EMX with a 2% NSR) by paying EMX 2,500 ounces of gold, or the cash equivalent thereof.

EMX is also entitled to annual advance royalty payments (the "Oijärvi Extension AAR") commencing at 30 ounces of gold and increasing by five ounces of gold per year, starting from the fourth anniversary, up to a maximum of 75 ounces of gold per year until commencement of commercial production. EMX has the option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares of Gold Line, subject to certain agreed conditions. As at December 31, 2025, the Company had paid a total of $102,886 (US$74,264) related to the Oijärvi Extension AAR.

The Oijärvi Reservation was held by EMX in trust for Gold Line until conversion into an exploration permit application registered in the name of Gold Line. The Company submitted its exploration permit application in January 2023 and, in January 2024, the Oijärvi Reservation was converted into an exploration permit.

Rajapalot Gold-Cobalt Project, Finland

As part of the acquisition of Mawson Finland Ltd. (Note 4 (b)), completed on December 16, 2025, the Company acquired a 100% interest in the Rajapalot Gold-Cobalt Project in northern Finland. The Rajapalot Project forms part of the larger Rompas-Rajapalot property, which is wholly owned by the Company through its Finnish subsidiary, Mawson Oy.

Rajapalot hosts an Inferred Mineral Resource of approximately 9.8 million tonnes grading 2.8 g/t gold and 441 ppm cobalt, containing approximately 867,000 ounces of gold and 4,311 tonnes of cobalt. The mineral resource is based on an underground-only mining scenario.

During the nine months ended September 30, 2026, the Company advanced a winter diamond drilling program at Rajapalot. The program was initially planned for approximately 10,000 metres, including approximately 8,000 metres of infill drilling at the Raja and Palokas deposits to increase confidence in the existing Inferred Mineral Resources and support progression of the project through the Finnish permitting process, together with approximately 2,000 metres of target-test drilling on high-priority exploration targets near the existing resource areas.

All of the assay results have now been received. The updated resource model has been delivered to SLR, an independent consulting firm engaged to complete a resource update that will support an updated Preliminary Economic Assessment (PEA) for the project.

During the three months ended September 30, 2026, the Company entered into a memorandum of understanding with Ocean Partners to investigate the technical and economic viability of recovering cobalt from the Rajapalot Project and to evaluate potential commercial arrangements relating to cobalt concentrate production, marketing and offtake.

Barsele Gold Project, Sweden

Prior to June 25, 2026, the Company held a 45% interest in Gunnarn Mining AB, which owns the Barsele Gold Project in Sweden, with the remaining 55% interest held by Agnico Eagle Sweden AB ("Agnico Sweden"). The Company accounted for its 45% interest using the equity method and the investment had a carrying amount of $1 immediately prior to the acquisition described below.

On June 25, 2026, the Company completed the acquisition of Agnico Sweden's remaining 55% interest in Gunnarn Mining AB, resulting in the Company consolidating 100% ownership of the Barsele Gold Project. The acquisition was accounted for as an asset acquisition. The carrying amount of the Company's previously held 45% interest of $1 was included in the cost of the acquired exploration and evaluation assets without remeasurement. See Note 4(d).

The consideration and directly attributable acquisition costs capitalized to the Barsele exploration and evaluation asset consisted of US$20,000,000 in cash (CAD $28,465,700), 75,509,577 common shares of the Company valued at $243,140,838, 2,574,833 common shares issued as an advisory fee valued at $8,290,963, direct transaction costs of $281,093, advisory fees to Haywood of $7,570,515 (cash of $3,785,257 and 1,166,130 common shares to be issued valued at $3,785,258), and the $1 carrying amount of the previously held 45% interest, for a total capitalized cost of $287,749,110.

As part of the acquisition, the Company granted Agnico Sweden a perpetual 2% NSR royalty over the Barsele Project. The royalty has not been recognized as a separate financial liability or as a separate component of acquisition cost and is treated as a continuing burden on the mineral property. Royalty payments will become payable when minerals are produced and sold.

7. SHARE CAPITAL AND RESERVES

Authorized

Unlimited number of common shares without par value.

Issued

Nine months ended September 30, 2026

As at September 30, 2026, there were 268,066,072 common shares issued and outstanding on a post consolidation basis. On December 10, 2025, the Company consolidated its outstanding share capital on the basis of four (4) pre-consolidated shares for one (1) post consolidated share.

During this period, 3,749,392 stock options were exercised for a total consideration of $4,504,028 and $3,561,224 was transferred from reserves to share capital.

During this period, 6,763,887 warrants were exercised for a total consideration of $12,554,938.

During this period, 710,406 compensatory options were exercised for a total consideration of $1,001,488.

The Company issued 20,138 common shares for the NBU acquisition valued at $80,150.

The Company issued 75,509,577 common shares for the Barsele acquisition valued at $243,140,838 and issued 2,574,833 advisory shares valued at $8,290,963.

On July 6, 2026, the Company issued 468,550 common shares to the CEO and director of the Company in settlement of a management fee of $1,508,731, which had been recorded as shares to be issued as at June 30, 2026 (note 10).

As at September 30, 2026, 1,166,130 common shares valued at $3,785,258 to be issued to Haywood as an advisory fee on the Barsele acquisition were recorded as shares to be issued. The shares were issued on October 23, 2026 (notes 4(d) and 15).

Year ended December 31, 2025

As at December 31, 2025, there were 176,651,231 common shares issued and outstanding on a post consolidation basis.

On March 14, 2025, the Company closed its brokered private placement (the "Private Placement") of Swedish depository receipts ("SDRs") in conjunction with its listing on the Nasdaq First North Growth Market ("Nasdaq First North") in Sweden. SDRs are a financial instrument issued by a Swedish bank representing shares in a non-Swedish company. The Private Placement of SEK 7.5 million was fully subscribed and the full oversubscription allotment of SEK 2.5 million was used. 776,398 SDRs were subscribed for aggregate gross proceeds of SEK 10.0 million (CAD $1,397,516). Each subscribed SDR is underpinned by one common share of the Company. The Company incurred $773,424 in share issuance costs.

On July 31, 2025, the Company closed a financing (the "Offering") for aggregate gross proceeds of $15,422,010. The Offering consisted of the issuance and sale of 10,420,278 units of the Company (the "Units") at a price per Unit of $1.48 (the "Issue Price") Each Unit consists of one common share in the capital of the Company and one-half of one common share purchase warrant of the Company (each whole purchase warrant, a "Warrant"). Each Warrant entitles the holder thereof to acquire one common share of the Company at a price of $2.20 on or before July 31, 2027. In consideration for agency services, the Company issued to the agents 583,663 non-transferable compensation options (the "Compensation Options"). Each Compensation Option is exercisable to acquire one common share of the Company at $1.48 until July 31, 2027, and incurred expenses of $1,273,297 as share issuance costs. The Company valued the compensation options at $405,065. [BD8.1] [RM8.2] [BD8.3]

On December 16, 2025, the Company closed its non-brokered private placement (the "Non-Brokered Private Placement") and its "best efforts" brokered private placement (the "Brokered Private Placement" and together with the Non-Brokered Private Placement, the "Offerings") of subscription receipts raising aggregate gross proceeds of $80 million.

Pursuant to the Non-Brokered Private Placement, First Nordic issued 44,736,831 subscription receipts (the "Non-Brokered Subscription Receipts") at a price of $1.52 per Non-Brokered Subscription Receipt (the "Offering Price"), for aggregate gross proceeds of $67,999,983. Pursuant to the Brokered Private Placement, First Nordic issued a total of 7,894,736 subscription receipts (the "Brokered Subscription Receipts") at the Offering Price, for aggregate gross proceeds of $12 million. The Company issued 1,164,959 common shares called finders shares valued at $1,842,965 for its non-brokered subscriptions and incurred expenses of $1,488,685 as share issuance costs.

During the year ended December 31, 2025, 1,294,092 stock options were exercised for a total consideration of $1,590,740.

During the year ended December 31, 2025, 2,095,507 warrants were exercised for a total consideration of $2,301,178.

During the year ended December 31, 2025, 6,252 compensatory options were exercised for a total consideration of $8,253.

During the year ended December 31, 2025, 870,982 common shares valued at $1,396,344 were issued for services. Subsequent to December 31, 2025, the Company issued 657,894 common shares valued at $1,000,000 for services.

Stock Options

The Company has a plan to grant stock options to directors, officers, employees and consultants of the Company. Under the plan, the Board of Directors has the discretion to issue the equivalent of up to 10% of the issued and outstanding shares of the Company from time to time. Stock options are generally for a term of up to five years from the date granted and are exercisable at a price that is not less than the market price on the date granted.

Vesting terms are determined at the discretion of the board of directors. Options issued to consultants providing investor relations services must vest in stages over a minimum of 12 months with no more than one-quarter of the options vesting in any three-month period.

Nine months ended September 30, 2026

On January 29, 2026, the Company issued 8,090,000 stock options to directors, officers and consultants. The stock options have an exercise price of $4.10 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $22,298,000. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of 5 years.

On March 2, 2026, the Company issued 500,000 stock options to an officer of the Company. The stock options have an exercise price of $4.22 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $1,414,000. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of 5 years.

The share-based payments expense for stock options granted and vested during the nine months ended September 30, 2026, was $23,730,688 (September 30, 2025 - $3,789,135).

Year ended December 31, 2025

On January 7, 2025, the Company issued 2,222,500 stock options to directors, officers and consultants. The stock options have an exercise price of $1.56 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $2,428,373. The following assumptions were used: risk free interest rate of 3.01%, dividend yield of 0%, expected volatility of 90.54% and expected life of 5 years.

On January 20, 2025, the Company issued 250,000 stock options to the Company director. The stock options have an exercise price of $1.68 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $289,721. The following assumptions were used: risk free interest rate of 3.01%, dividend yield of 0%, expected volatility of 90.31% and expected life of 5 years.

On May 7, 2025, the Company issued 850,828 stock options to directors, officers and consultants. 775,828 stock options have an exercise price of $1.80 per share, expire five years from the date of

grant and have varying vesting periods. 75,000 options have an exercise price of $2.80 per share, expire three years from date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be a total of $999,344. The Company expensed $928,005 during the year ended December 31, 2025. The following assumptions were used: risk free interest rate of 2.7%, dividend yield of 0%, expected volatility of 86.94% and expected life of five and three years.

On August 8, 2025, the Company issued 437,500 stock options to directors, officers and consultants. These stock options have an exercise price of $1.60 per share, expire five years from the date of grant and vest 1/3 immediately and 1/3 annually thereafter. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be a total of $303,627. The Company expensed $137,435 during the year ended December 31, 2025. The following assumptions were used: risk-free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.16 % and expected life of five.

On September 1, 2025, the Company issued 50,000 stock options to a consultant. The stock options have an exercise price of $1.60 per share, expire six months from the date of grant. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $33,122. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.161% and expected life of 6 months.

On October 16, 2025, the Company issued 25,000 stock options to a consultant. The stock options have an exercise price of $2.00 per share, expire one year from the date of grant. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $65,700. The following assumptions were used: risk free interest rate of 1.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of one year.

The share-based payments expense for stock options granted and vested during the year ended December 31, 2025, was $3,882,356 (December 31, 2024 - $2,747,251).

Warrants and Compensatory Options

Nine months ended September 30, 2026

The Company did not issue any warrants or compensatory options during the nine months ended September 30, 2026.

Year ended December 31, 2025

In connection with a private placement completed in July 2025, the Company issued 5,210,146 warrants. The warrants have an exercise price of $2.20 per share, expire two years from the date of grant and vest immediately. Under the residual value method, $nil was attributed to the warrants. The Company also issued 583,663 compensation options. Each Compensation Option is exercisable to acquire one common share of the Company at $1.48 until July 31, 2027. The Company used the Black Scholes option pricing model to estimate the fair value of the compensation options to be $0.68. The following weighted average assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.16% and expected life of 2 years.

Warrant and compensatory option transactions are summarized as follows:

	Warrants and Compensatory Options	Warrants and Compensatory Options Weighted average exercise price $
Outstanding, December 31, 2024	8,781,055	2.16
Granted	5,793,809	2.12

3,967,750	**389,749**		

8. CAPITAL MANAGEMENT

The Company defines its capital as shareholder equity. The Board of Directors does not establish quantitative return on capital criteria for management due to the nature of the Company's business. The Company may invest its capital in liquid investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns on unused capital. The Company does not pay dividends. The Company is not subject to any externally imposed capital requirements.

The Company raises capital to fund its corporate and exploration costs and other obligations through the sale of its common shares or units consisting of common shares and warrants in order to operate its business and safeguard its ability to continue as a going concern. Although the Company management has been successful at raising funds in the past through issuance of share capital, it is uncertain whether it will continue this financing due to uncertain economic conditions. There have been no changes to the Company's approach to capital management during the period.

9. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash transactions during the nine months ended September 30, 2026 and 2025:

a) Fair value of shares issued to acquire the Nordic Business Unit ("NBU") $80,150 (2025-$nil).

b) Subscription funds for $681,809 received in advance for the exercise of warrants in the year 2025 were allotted shares in 2026.

c) Fair value of shares issued to acquire the Barsele property $243,140,838 and fair value of shares issued for advisory services for $8,290,963. (2025-$nil).

d) Fair value of 1,166,130 common shares to be issued to Haywood as an advisory fee on the Barsele acquisition of $3,785,258, and the cash advisory fee of $3,785,257 (plus HST of $984,167) included in accounts payable and accrued liabilities as at September 30, 2026 (2025-$nil).

e) Issuance of 468,550 common shares to the CEO in settlement of shares to be issued of $1,508,731 (2025-$nil).

f) The Company paid $Nil for income taxes and cash interest during the nine months ended September 30, 2026 (2025 - $Nil).

10. RELATED PARTY TRANSACTIONS

During the nine months ended September 30, 2026, the Company entered into transactions with directors, officers and other related parties. Key management personnel are individuals responsible for planning, directing and controlling the activities of the Company and include the Company's directors and officers.

Compensation paid or payable to key management personnel for services rendered are as follows:

	Nine Months Ended September 30, 2026 $	Nine Months Ended September 30, 2025 $
Management Fees[(1)]	1,130,479	2,811,722
Share Based Payments	9,131,500	839,483
Management fee settled in shares	1,508,731	-
Total	**11,770,710**	3,651,205

[(1)] Management fees include compensation to: Russell Bradford (CEO), Noora Ahola (Executive Director & MD, Nordics), Rakesh Malhotra (CFO-up to February 28, 2026), Brent Doster (CFO-March 1, 2026, onwards), Karilyn Farmer (Executive Director and SVP – up to September 11, 2026).

In connection with the closing of the Barsele transaction (note 4(d)), the Company recorded a management fee expense of $1,508,731 payable to the CEO and director of the Company. The amount had been recognized as a management fee expense with a corresponding amount recorded as shares to be issued within shareholders' equity as at June 30, 2026, and was settled through the issuance of 468,550 common shares on July 6, 2026 (note 7).

Other transactions with related parties during the period are as follows:

	Nine Months Ended September 30, 2026 $	Nine Months Ended September 30, 2025 $
Exploration Expenditures	59,912	464,800
Board and Management Costs	150,915	65,000
Share Based Payments	6,945,700	903,371
Total	**7,156,527**	1,433,171

The amounts presented under other related -party transactions related to related parties other than amounts included in key management compensation above.

Included in accounts payable and accrued liabilities as at September 30, 2026 is $Nil (December 2025 - $24,617) due to directors or officers or companies controlled by directors.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are described below.

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value of financial instruments

The Company has various financial instruments including cash, receivables and accounts payable and accrued liabilities. The carrying values of all these financial instruments approximate their fair values due to the short-term maturity of the financial instruments.

Concentrations of business risk

The Company maintains a majority of its cash with a major Canadian financial institution. Deposits held with this institution may exceed the amount of insurance provided on such deposits.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Company's cash is held primarily in a large Canadian financial institution. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk. The Company's receivables are primarily comprised of goods and services tax, which are recoverable from the governing body in Canada.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company is exposed to liquidity risk. The Company manages liquidity risk through the management of its capital structure.

Foreign exchange risk

The Company is exposed to foreign currency risk on fluctuations related to cash, receivables, prepaid expenses, amounts payable and accrued liabilities that are denominated in the Swedish krona, Euro and the US dollar. A 10% fluctuation in the SEK, Euro or the USD against the Canadian dollar would not result in any material change in loss for the nine months ended September 30, 2026.

Interest rate risk

The Company limits its exposure to interest rate risk by holding cash deposits at major Canadian financial institutions and accordingly is not subject to significant interest rate risk.

Price risk

Mineral prices, in particular gold and silver, are volatile. The prices are subject to market supply and demand, political and economic factors, and commodity speculation, all of which can interact with one another to cause significant price movement from day to day and hour to hour. These price movements can affect the Company's ability to operate and to raise financing through the sale of its common shares.

12. SEGMENTED INFORMATION

The Company's one reportable operating segment is the acquisition and exploration of mineral properties. Geographic information is as follows:

	September 30, 2026 $	December 31, 2025 $
Equity investment – exploration and evaluation assets		
Sweden	-	1
Exploration and evaluation assets		
Sweden	291,271,487	3,522,377
Finland	87,935,052	87,935,052

13. RIGHT OF USE ASSET

The following shows the movement in the Company's Right of Use Asset

Balance, December 31, 2025	$ 347,101
Amortization	(82,208)
Balance, September 30, 2026	**264,893**

Right- of- use asset includes office space amortized over the period of the lease.

14. LEASE LIABILITY

The following shows the movement in the Company's Lease liability

Balance, December 31, 2025	$ 395,442
Accretion on lease obligation	29,625
Lease payments made during the period	(109,654)
Balance, September 30, 2026	315,413
Less than one year	119,775
Greater than one year	195,638
Total lease obligation	**315,413**

15. SUBSEQUENT EVENTS

a) On October 23, 2026, the Company issued 1,166,130 common shares to Haywood in settlement of the advisory fee of $3,785,258 recorded as shares to be issued as at September 30, 2026. In October 2026, the Company also paid the cash advisory fee of $4,769,424 (including HST) payable to Haywood that was included in accounts payable and accrued liabilities as at September 30, 2026. See note 4(d).

b) After September 30, 2026, 1,018,729 warrants were exercised for proceeds of $1,890,462 and 79,918 compensatory options for proceeds of $105,492.

c) After September 30, 2026, 130,000 options were exercised for proceeds of $226,400.

Management Discussion and Analysis ("MD&A")

This Management Discussion and Analysis has been prepared as of November 27, 2026, and should be read in conjunction with the Company's financial statements and notes thereto for the period ended September 30, 2026, and the year ended December 31, 2025.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying interim financial report for the nine months ended September 30, 2026, has been prepared by management using accounting policies consistent with International Financial Reporting Standards ("IFRS"). Other information contained in this document has also been prepared by management and is consistent with the data contained in the annual financial report.

The Company's certifying officers, based on their knowledge, having exercised reasonable diligence, are also responsible to ensure that the interim financial report and interim MD&A (together the "filings") do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by these filings, and the interim financial report together with the other financial information included in these interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented in these interim filings.

Certain statements in this report may constitute forward-looking statements that are subject to risks and uncertainties. A number of important factors could cause actual outcomes and results to differ materially from those expressed in these forward-looking statements. Consequently, readers should not place any undue reliance on such forward-looking statements. In addition, these forward-looking statements relate to the date on which they were made.

In particular, forward looking comments regarding both the Company's plans and operations included in the "Description of Business" with respect to management's planned exploration and other activities, and in "Liquidity", and "Corporate Summary" regarding management's estimated ability to fund its projected costs of exploration work and general corporate costs of operations, and its ability to raise additional funding through placement of the Company's common shares, are plans and estimates of management only and actual results and outcomes could be materially different.

DESCRIPTION OF BUSINESS

Acquisition of Gold Line Resources Ltd.

On February 23, 2024, the Company completed the acquisition of all the issued and outstanding common shares of Gold Line whereby each Gold Line shareholder received 0.7382 common shares of the Company in exchange for one common share of Gold Line (the "Arrangement"). Pursuant to the Arrangement, the Company issued 8,936,929 common shares with a fair value of $4,289,726. Gold Line was a Canadian exploration company listed on the TSX-V and OTC Exchange. On completion of the Arrangement, Gold Line's common shares were delisted from the TSX-V and OTC Exchange.

As part of the Arrangement, all outstanding share options and warrants of Gold Line were exchanged for share options to acquire up to an aggregate of 387,555 common shares of the Company. All outstanding warrants of Gold Line are now exercisable to acquire 3,547,064 common shares of the Company.

The transaction costs associated with the Arrangement totaled $101,043 and is comprised of legal fees and transfer agent fees.

The acquisition of Gold Line constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not

constitute a business combination, but rather it is treated as a payment of equity consideration for the acquisition of Gold Line and its net assets. The value of the consideration paid after allocation to the other net assets acquired, was allocated to exploration and evaluation assets, which are located in Sweden and Finland and consist of the Gold Line Project, the Klippen Gold Project, and the Oijärvi Gold Project.

Barsele, Project Sweden

The Barsele Project is located in Västerbottens County, northern Sweden, approximately 600 kilometres north of Stockholm. The project hosts a large orogenic gold system centred on the Avan, Central and Skiråsen zones, where mineralization remains open in multiple directions. Gold mineralization is primarily hosted within granodiorite and associated volcanic and sedimentary rocks and is generally associated with arsenopyrite.

In 2015, Agnico Eagle Sweden AB acquired a 55% interest in the project through Gunnarn Mining AB. From 2015 until June 25, 2026, Agnico Eagle held a 55% interest, and the Company held a 45% interest. On June 25, 2026, the Company completed the acquisition of Agnico Eagle's remaining 55% interest and now owns 100% of Gunnarn Mining AB and the Barsele Project.

Since Agnico Eagle became operator in 2015, the project has undergone extensive exploration and technical advancement, including more than 165,000 metres of diamond drilling, geophysical surveys, metallurgical testing, till sampling, environmental baseline studies and regional target generation programs. Exploration programs have demonstrated continuity and expansion potential within the Avan-Central-Skiråsen mineralized corridor and identified additional regional targets including Risberget, Norra and Avan extensions.

A mineral resource estimate for the Barsele Project was completed in accordance with NI 43-101 standards and is set out in the technical report prepared by InnovExplo Inc. dated February 21, 2019. The estimate outlined an Indicated Mineral Resource of 7.88 million tonnes grading 1.27 g/t gold containing 320,781 ounces of gold and an Inferred Mineral Resource of 28.75 million tonnes grading 1.98 g/t gold containing 1.83 million ounces of gold. The mineral resource estimate was prepared by InnovExplo Inc.

On December 16, 2020, the Company filed an amended NI 43-101 technical report and amended annual information form relating to the Barsele Project following a review by the British Columbia Securities Commission. The amended filings did not result in any material changes to the underlying mineral resource estimate or technical conclusions for the project.

In addition to exploration drilling, significant technical and environmental work has been completed across the project area, including metallurgical studies, hydrogeological and environmental baseline studies, surface geochemistry, geophysical surveys and community engagement activities. In 2021, portions of the Barsele Project area were designated by the Swedish Geological Survey as an area of National Interest under the Swedish Environmental Code, recognizing the regional significance of the mineralized system.

Exploration activities completed during 2022 and 2023 focused on the Avan, Risberget, Skiråsen and Norra target areas. Diamond drilling and regional exploration programs continued to support the potential for additional mineralized zones and extensions to the existing resource areas within the broader Barsele trend. Results from the 2023 program confirmed continued alteration and mineralization along the Avan-Central-Skiråsen structural corridor, including encouraging results from the Risberget target area southeast of the existing resource zones. A total of approximately 165,900 metres of drilling had been completed on the property since 2015.

Since early 2024, Agnico Eagle continued technical and exploration activities at Barsele in preparation for future drilling campaigns.

Barsele And Gold Line Combined Projects, Sweden/Finland

On December 13, 2023, Barsele Minerals Corp. and Gold Line Resources Ltd. announced entry into a plan of arrangement agreement pursuant to which Barsele Minerals Corp. would acquire all of the issued and outstanding common shares of Gold Line Resources Ltd. in exchange for common shares of Barsele Minerals Corp. The

transaction combined the Barsele Project with Gold Line's district-scale exploration portfolio in Sweden and Finland, including projects located along the Gold Line Mineral Belt in Sweden and the Oijärvi Greenstone Belt in Finland.

The combined exploration portfolio encompasses more than 100,000 hectares across Sweden and Finland, including the Paubäcken, Storjuktan and Oijärvi projects. The transaction was undertaken to consolidate a significant regional exploration land package and create operational and administrative efficiencies through advancement of the combined asset portfolio under a single corporate structure.

On January 28, 2026, the Company entered into a definitive agreement with Agnico Eagle Sweden AB, a wholly owned subsidiary of Agnico Eagle Mines Limited, to acquire Agnico Eagle's remaining 55% interest in the Barsele Project. Upon completion of the transaction, the Company would consolidate 100% ownership of the Barsele Project.

On June 25, 2026, the Company completed the acquisition of Agnico Eagle Sweden AB's ("Agnico Sweden") remaining 55% interest in Gunnarn Mining AB, resulting in the Company consolidating 100% ownership of the Barsele Gold Project. Prior to completion of the transaction, the Company held a 45% interest in Gunnarn Mining AB.

Consideration for the acquisition included US$20.0 million in cash, 75,509,577 common shares of the Company and the grant to Agnico Sweden of a perpetual 2% net smelter return ("NSR") royalty on the Barsele Project. In connection with the transaction, the Company also issued 2,574,833 common shares to Nuvolari Capital Limited as an advisory fee. The acquisition was accounted for as an asset acquisition.

During the three months ended September 30, 2026, the Company agreed to pay Haywood Securities Inc. ("Haywood") an advisory fee in connection with the acquisition consisting of cash of $3,785,257 (plus HST) and 1,166,130 common shares of the Company valued at $3,785,258 (C$3.246 per share, being the value of the shares set out in Haywood's invoice). The total advisory fee of $7,570,515 was capitalized to the Barsele exploration and evaluation asset. The cash fee was paid and the shares were issued in October 2026.

In connection with closing, the Company and Agnico Eagle entered into an investor rights agreement providing Agnico Eagle with certain rights, subject to applicable ownership thresholds, including participation rights in future equity financings, top-up rights, board nomination rights and registration rights. The Company also assumed Agnico Eagle's obligations under an existing 2% NSR royalty on the Barsele Project in favour of Orex Minerals Inc.

The Barsele Project comprises exploration and exploitation permits in Sweden. Certain exploration permits are approaching expiry and may be subject to renewal requirements. The Company intends to continue advancing exploration and development activities at Barsele.

Mawson Finland Acquisition

On December 16, 2025, the Company completed the previously announced acquisition of all of the issued and outstanding common shares of Mawson Finland Limited ("Mawson") pursuant to a court-approved plan of arrangement under the Business Corporations Act (Ontario) (the "Transaction"). The Transaction significantly expanded the Company's Nordic exploration and development portfolio through the addition of the Rajapalot gold-cobalt project and the surrounding Rompas-Rajapalot property in Finland.

The Transaction consolidated a large gold exploration and development portfolio across Sweden and Finland, including the Company's interests in the Barsele Project in Sweden, the Gold Line Belt projects in northern Sweden, the Oijärvi Project in Finland and Mawson's Rajapalot Project in northern Finland.

Immediately prior to completion of the Transaction, the Company completed a consolidation of its common shares on the basis of four pre-consolidation shares for one post-consolidation share, effective December 10, 2025. All share and per share amounts are presented on a post-consolidation basis.

In connection with completion of the Transaction, the Company changed its name from First Nordic Metals Corp. to Goldsky Resources Corp.

Concurrent with completion of the Transaction, subscription receipts issued under previously announced brokered and non-brokered financings were converted into common shares of the Company, resulting in gross proceeds of approximately $80 million being released from escrow to the Company. The proceeds are intended to fund exploration and development activities across the combined project portfolio, transaction-related costs and general corporate purposes.

The Transaction significantly expanded the Company's mineral resource base and land position in the Nordic region. The Company's project portfolio includes the Barsele Project in Sweden, the Rajapalot gold-cobalt project in Finland, the Oijärvi Project in Finland and the Gold Line Belt exploration projects in Sweden. The combined land package exceeds 123,000 hectares across Sweden and Finland.

The Rajapalot Project represents a district-scale gold-cobalt exploration and development project located in northern Finland. The Company continued to advance the Rajapalot Gold-Cobalt Project in northern Finland during 2026. The winter diamond drilling program was initially planned for approximately 10,000 metres, consisting primarily of infill drilling at the Raja and Palokas deposits to increase confidence in the existing Inferred Mineral Resources and support advancement of the project through the Finnish permitting process, together with target-test drilling on high-priority exploration targets near the existing resource areas. By the end of March 2026, approximately 10,429 metres of drilling had been completed at Rajapalot. All of the assay results from all 46 holes drilled have now been received. The updated resource model has been delivered to SLR, an independent consulting firm engaged to complete a resource update that will support an updated Preliminary Economic Assessment (PEA) for the project.

In addition to drilling activities, environmental impact assessment work, land use planning initiatives and stakeholder engagement activities continued during the quarter in both Finland and Sweden in support of ongoing exploration and project advancement activities across the Company's Nordic portfolio.

The Gold Line and Mawson Finland Acquisition Assets

As part of the acquisition of Gold Line and Mawson Finland, the Company acquired its exploration and evaluation assets. The following tables summarize the capitalized costs associated with the Company's exploration and evaluation assets:

Acquisition Costs	Gold Line Project $	Klippen Gold Project $	Oijärvi Gold Project $	Rajapalot (Finland) $	Barsele Project $	Total $
Balance: December 31, 2023	-	-	-	-	-	-
Acquisition of Gold Line (note 4a)	3,522,377	844,217	1,855,032	-	-	6,221,626
Shares issued for mineral property acquisition	-	-	10,063,754	-	-	10,063,754
Write-down of exploration and evaluation asset	-	(844,217)	-	-	-	(844,217)
Balance: December 31, 2024	3,522,377	-	11,918,786	-	-	15,441,163
Acquisition of Mawson Finland (note 4b)	-	-	-	76,016,266	-	76,016,266
Balance: December 31, 2025	3,522,377	-	11,918,786	76,016,266	-	91,457,429
Acquisition of Barsele Project (note 4d)	-	-	-	-	287,749,110	287,749,110
Balance: September 30, 2026	3,522,377	-	11,918,786	76,016,266	287,749,110	379,206,539

Gold Line Project, Sweden

As part of the acquisition of Gold Line, the Company acquired its Gold Line Project located in Sweden. The Gold Line Project consist of mineral property licenses in the Gold Line of Northern Sweden and includes the Långtjärn Property, Blåbärliden Property, Paubäcken Property, and the Kankberg Norra Property.

The project was acquired by Gold Line from EMX Royalty Corporation ("EMX") who under the terms of the original agreement will have the right to participate pro-rata in future financings of the Company at its own cost to maintain its interest in Gold Line (the "Pre-Emptive Right") until EMX's interest becomes less than 5%. EMX also received a royalty interest of 3% on the production returns to certain licences and properties of the Gold Line Project. Within six years of April 1, 2019, Gold Line can exercise its right to buy down up to 1% of the royalty owed to EMX (leaving EMX with a 2% royalty interest) by paying EMX 2,500 ounces of gold, or the cash equivalent thereof. Subsequent period end, the Company did not exercise its right to buy down the royalty and the option lapsed. In addition, the following royalty agreements are associated with the Project.

Eurasian Minerals Sweden AB ("EMSAB") Royalty

Gold Line entered into a royalty agreement with EMSAB dated April 1, 2019, pursuant to which Gold Line is required to pay annual advance royalty (the "Gold Line AAR") payments of 30 ounces of gold on or before April 1, 2022, the third anniversary of the closing date. This royalty payment will then increase by five ounces per year up to a maximum of 75 ounces of gold per year until commencement of commercial production. EMSAB will have an option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain and agreed upon conditions. During the nine months ended September 30, 2026, the Company paid $Nil (September 30, 2025: $Nil) related to Gold Line AAR. As at September 30, 2026, the Company has paid a total of $492,442 (US $357,503) related to the Gold Line AAR.

AOI Royalty

Certain additional licenses were staked subsequent to the original agreement with EMX. Per the terms of the original agreement, all licenses staked within the agreed upon area of interest (the "AOI") or subsequently acquired by Gold Line before April 1, 2024, will also be subject to a 1% net smelter return royalty in production from the AOI interest. The Company did not acquire any licences within the AOI before April 1, 2024.

Failure to Comply

If Gold Line delivers a relinquishment notice to EMX, fails to make the required payment of royalties or annual advance royalties EMX will have the right to demand GLR transfer the Gold Line Project back to EMX for no further consideration.

Paubäcken Project, Sweden

The Paubäcken Project consists of 3 licenses (17,097 ha) that cover the central part of the "Gold Line Belt".

Diamond drilling totaling 670 metres was completed at Paubäcken in early November 2021, with multiple, prioritized drill targets having been defined by exploration in 2020 and 2021. The best result from this drilling program was 22.4m @ 2.4 g/t gold in hole PAU-21-003.

The 2021 drill program focused on the "Aida" target area at Paubäcken, where top of bedrock drilling intersected numerous zones of gold enrichment, including one top of bedrock sample of 3 meters grading 3.9 g/t gold (the entire sampled interval was mineralized). Another > 1 g/t gold top of bedrock sample was also collected from the area, and these zones of documented gold mineralization in bedrock will be targeted in future drill campaigns.

In May 2022 the existing airborne magnetic data was reinterpreted by Perry Eaton. The interpretation identified a clear geophysical trend possibly corresponding to a structural corridor.

A follow up drilling program at the Aida Target was initiated in September 2022 with the aim of expanding on the 2021 results. The program was completed in November 2022 and consisted of 822.15 metres of drilling in 6 holes. The program tested 650 metres of the >5 km Aida structural corridor identified using airborne magnetic geophysics with wide spaced step outs. The 2022 drilling tested down dip and along strike of mineralization encountered in the 2021 discovery hole (22.5 m @ 2.4 g/t Au in PAU-21003). Mineralization is hosted within a sheared and altered mafic volcanic unit located within the structural corridor. Hanging wall and footwall units consist of black shale and greywacke metasedimentary rocks. Mineralization within the volcanic unit has been encountered over 250 metres along strike and remains open to depth and along strike in both directions. Intercepts encountered include 14.55 metres grading 2.44 g/t gold in 2022-AID001, 9.75 metres grading 0.78 g/t Au in 2022-AID002; 3.35 metres grading 1.61 g/t gold and 4.7 metres grading 2.12 g/t gold in 2022-AID-003; and 7.2 metres grading 1.35 g/t gold in 2022-AID-006.

Drill hole 2022-AID-005 was drilled a further 460 metres along strike to the northwest and encountered 1.0-meter grading 1.04 g/t gold within an alteration envelope of 18 metres grading 0.29 g/t gold. No significant intercepts were encountered in 2022-AID-004 although it did cut into the Aida structural corridor. Mineralization in this area is hosted within a sheared and altered greywacke metasediment.

Initially planned for 1,500 metres, and only testing 800 metres of the structural corridor, the program was cut short due to delays caused by winter weather conditions and expiry of seasonal permit agreements with the Sami Nation to make way for seasonal migration of the reindeer herds.

Up to December 31, 2021, Gold Line aggressively explored the Paubäcken area with:

- 2,399 surface till/soil samples were collected and analyzed.
- 270-line km of geophysical surveys were completed.
- 185 rock chip samples were collected and analyzed.
- 201 base of till/top of bedrock drill holes were completed.
- 17 channel samples collected.
- 5,200 meters of historic drill core was relogged with 252 additional samples analyzed from the historic drill core.
- 670 metres of diamond drilling.

Up to December 31, 2022, the company completed the following exploration work at Paubäcken:

- Reinterpretation of existing airborne magnetic data.
- 3,718 surface till samples collected and analyzed.
- 822.15 metres of diamond drilling on the Aida target structural corridor.

In 2023, exploration at Paubäcken included:

- 1,181 metres in 71 base-of-till (BoT) holes at the Aida Zone, testing for hydrothermal alteration and mineralization along structural corridors. In total, 1.8 kilometres of terrain was tested.

3,050 regional B Horizon till samples collected across 1,350 hectares over a 12-kilometer strike length of the northern extent of the first order Gold Line Belt structural corridor and related second order structures within the Paubäcken exploration permit.

In 2024, exploration at Paubäcken included:

- BoT samples collected through systematic till sampling, which expanded the Harpsund target anomaly to a footprint of approximately 5.5 kilometres by 1 kilometre.

- BoT drilling completed at the Aida target, confirming shallow gold mineralization over 1.5 kilometres within a broader interpreted +4 kilometre corridor. BoT drilling included grades up to 5.01 g/t gold.

On December 31, 2025, the Company announced additional results from its 2025 diamond drill program at the Aida target ("Aida"), located within the Company's 100%-owned Paubäcken project.

Key Highlights

Multiple strong gold intercepts continue the expansion story at Aida including: 2.30 g/t Au over 9.2 m (2025-AID-014), 2.59 g/t Au over 4.25 m (2025-AID-016), 8.00 g/t Au over 1.55 m (2025-AID-016), 3.12 g/t Au over 5.10 m (2025-AID-019), 4.83 g/t Au over 4.00 m (2025-AID-021), 11.42 g/t Au over 1.45m (2025-AID-027), 1.17 g/t Au over 21.4m and 4.69 g/t Au over 6.0m (both in 2025-AID-037), 2.80 g/t Au over 26.4m (2025-AID-039.

2 new zones identified: the **Radames Zone** on the east side of the Aida Fault Corridor and the **Amneris Zone** on the southwest side of the Aida Corridor. 2.1 km gold-mineralized strike of Aida Corridor infill drilling successful and still remaining open in all directions.

Klippen Gold Project, Sweden

As part of the acquisition of Gold Line, the Company acquired the Klippen Gold Project. The Klippen Gold Project consists of an exploration license located in the Kingdom of Sweden, of which, Viad Royalties AB ("Viad") holds a 1% royalty interest.

Viad Royalty

Gold Line entered into a royalty agreement with Viad dated December 31, 2021, pursuant to which Gold Line is required to pay annual advance royalty (the "Klippen AAR") payments of one ounce of gold on or before the first anniversary and every anniversary afterwards until the commencement of commercial production. Viad will have an option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain and agreed upon conditions.

Subsequent to the year ended December 31, 2024, the Company decided not to renew the Klippen claims and accordingly recognized a write-down of exploration and evaluation asset of $844,217 as at December 31, 2024.

Oijärvi Gold Project, Finland

As part of the acquisition of Gold Line, the Company acquired its Oijärvi Gold Project located in central Finland. Gold Line and EMX previously entered into a definitive agreement (the "AEM Agreement") with Agnico Eagle Mines Limited (NYSE and TSX: AEM; "Agnico") pursuant to which Gold Line will acquire a 100% interest in Agnico's Oijärvi Gold Project and the Solvik Gold Project which was impaired by Gold Line during the year ended December 31, 2022 (the "AEM Transaction"). Agnico will retain a 2% net smelter return ("NSR") royalty on the projects, 1% of which may be purchased at any time by EMX for US$1,000,000.

Eurasian Minerals Sweden AB ("EMSAB") Royalty

Gold Line entered into a royalty agreement with EMSAB dated March 25, 2021, pursuant to which Gold Line is required to pay annual advance royalty (the "Oijärvi AAR") payments of 30 ounces of gold on or before March 25, 2024, the third anniversary of the closing date. This royalty payment will then increase by five ounces per year up to a maximum of 75 ounces of gold per year until commencement of commercial production. EMSAB will have an option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares, subject to certain and agreed upon conditions. During the year ended December 31, 2024, the Company paid $159,840 (US$115,374) related to the Oijärvi AAR. During the year ended December 31, 2025, the Company accrued $297,874 (US$216,983) related to the Oijärvi AAR which was paid in the nine months ended September 30, 2026.

On May 1, 2023, Gold Line entered into an amending agreement to the AEM Agreement ("Amended AEM Agreement").

In connection with the Amended AEM Agreement, Gold Line issued 1,327,989 common shares (issued) on May 1, 2023, and was required to make a cash payment in the amount of US$87,500 on or before June 30, 2023 (paid).

As a result of the Amended AEM Agreement, total consideration would be US$10,175,000, comprised of US$7,087,500 in cash, US$1,500,000 in common shares of EMX and US$1,587,500 in common shares of Gold Line, which was required to be paid (or had been paid) to Agnico as follows:

Date	Cash Payments (USD) $	EMX Shares (USD) $	Gold Line Shares (USD) $
Upon TSXV approval	750,000 (paid)	375,000 (issued)	375,000 (issued)
On first anniversary of the Agreement (March 19, 2022)	1,500,000 (paid)	500,000 (issued)	500,000 (issued)
On second anniversary of the Agreement (March 19, 2023)	87,500 (paid)	-	87,500 (issued)
On the third anniversary of the Agreement (March 19, 2024)	4,750,000 (unpaid)	625,000 (not issued)	625,000 (not issued)
Total	**7,087,500**	**1,500,000**	**1,587,500**

As part of the AEM Agreement, EMX would receive cash and share payments from the Gold Line as set out in the revised table below, as well as the purchase right of 1% of Agnico's 2% NSR royalty.

Date	Cash Payments (USD) $	Gold Line Shares Issued to EMX (USD) $
Upon TSXV approval	-	375,000 (issued)
On the first anniversary of the AEM Agreement (March 19, 2022)	250,000 (paid)	250,000 (issued)
On the third anniversary of the AEM Agreement (March 19, 2024)	312,500 (unpaid)	312,500 (not issued)

On July 15, 2024, the Company entered into a subscription agreement with Agnico that will result in Agnico Eagle holding, after giving effect to the transaction, 13.3% of the issued and outstanding common shares of the Company, subject to the receipt of certain regulatory approvals and the satisfaction of other conditions.

Agnico Eagle has agreed to exchange amounts that remained due under the Amended AEM Agreement between certain subsidiaries of the Company, certain subsidiaries of Agnico Eagle and EMX for 27,954,872 common shares of the Company (the "Transaction"). The Transaction is being affected by way of a subscription agreement between the Company and Agnico Eagle. The Transaction provided for the acquisition of the Oijärvi Gold Project ("Oijärvi" or the "Project"). The Oijärvi is a greenstone belt land package that includes the Kylmäkangas gold deposit.

On July 31, 2024, the Company completed the Transaction to acquire the Oijärvi Gold Project. The Company issued 27,954,872 common shares to Agnico Eagle at a fair value of $10,063,754. The common shares were valued using the trading price on the date of issuance.

In connection with the Transaction, Agnico Eagle and the Company entered into an investor rights agreement that provides Agnico Eagle with, among other things, certain rights in the event it maintains minimum ownership thresholds in the Company, including: (i) the right to participate in equity financings; (ii) a top-up right that would permit Agnico Eagle to increase its holdings in the Company to 19.9%; and (iii) the right (which Agnico Eagle has no present intention of exercising) to nominate one person to the Company's board of directors.

Oijärvi Reservation Transaction

On January 21, 2022, in connection with an amended to the Gold Line Project agreement, Gold Line acquired the Oijärvi exploration reservation (the "Oijärvi Reservation") from EMX. Under the terms of the agreement, EMX also received an uncapped 3% NSR royalty on the Oijärvi Reservation. Within six years of December 31, 2021, Gold Line can exercise its right to buy down up to 1% of the royalty owed to EMX (leaving EMX with a 2% NSR) by paying EMX 2,500 ounces of gold, or the cash equivalent thereof.

EMX will also receive annual advance royalty (the "Oijärvi Extension AAR") payments of 30 ounces of gold on the Oijärvi Extension Project, commencing on December 31, 2023, the second anniversary of the closing date, until commencement of commercial production, with each Oijärvi Extension AAR payment increasing by five ounces of gold per year, starting from the fourth anniversary, up to a maximum of 75 ounces of gold per year. EMX will have an option to receive the AAR payments in gold bullion, a gold bullion cash equivalent, or a value equivalent in shares of Gold Line, subject to certain and agreed upon conditions. During the nine months ended September 30, 2026, the Company paid $Nil (September 30, 2025: $Nil) related to the Oijärvi Extension AAR. As at September 30, 2026, the Company has paid a total of $102,886 (US$74,264) related to the Oijärvi Extension AAR.

In addition, the Oijärvi Reservation would be held by EMX, in trust for Gold Line, until such time as the Oijärvi Reservation has been converted into an exploration permit application (the "Exploration Permit Application") registered in the name of the Gold Line. The Company submitted its Exploration Permit Application in January 2023, and in January 2024, the Oijärvi Reservation was officially converted into an exploration permit.

Developments During the Quarter – Environmental and Permitting

On July 9, 2026, the Company announced the appointment of Gabriella Hammarskjöld as Environmental Manager of Goldsky Sweden AB, effective September 1, 2026. Ms. Hammarskjöld has more than 24 years of environmental and permitting experience in Sweden, including experience relating to environmental impact assessments, mining permitting, water protection, environmental court proceedings and regulatory and stakeholder engagement. The appointment is intended to strengthen the Company's environmental and permitting capabilities as it advances the Barsele Project.

Developments During the Quarter – Communications and Public Affairs

On August 26, 2026, the Company announced the appointment of Carl Danielsson as Manager of Communications and Public Affairs for Goldsky Sweden AB. Mr. Danielsson has extensive experience with mining and mineral exploration policy, including legislation, land use, permitting and stakeholder dialogue, and has worked with the Barsele project for two years. The appointment supports an increased focus on local and regional stakeholder dialogue as the development of the Barsele project advances.

Developments During the Quarter – Metallurgical Test Work

On August 5, 2026, the Company announced the commencement of metallurgical test work on approximately 345 kilograms of composite samples from the Central and Avan zones at the Barsele Project. The samples were dispatched to Alfred Knight in Truro, United Kingdom. The test program includes crusher comminution testing, Bond rod and ball mill testing, gravity gold recovery testing, gold leach kinetic testing and detoxification testing.

The metallurgical program is intended to provide information regarding power requirements and reagent consumption for use in future technical studies. The Company expects the results to contribute to the planned resource update and preliminary economic assessment for the Barsele Project. The test program is expected to take approximately 16 weeks.

On September 21, 2026, the Company reported positive interim, PEA-level metallurgical test results for the Barsele Project from Alfred H Knight Mineral Processing UK Limited. Gravity recoveries of 30.2% for the Central composite and 27.7% for the Avan composite were achieved, with leach extraction on the gravity tailings of

86.0% (Central) and 88.1% (Avan), resulting in overall gold recoveries of 89.6% (Central) and 90.8% (Avan) at a grind size of P80 75 microns. Cyanide consumption was approximately 0.75 kg/t and lime consumption was below 0.5 kg/t. Further optimization test work is planned ahead of a future pre-feasibility study.

Developments During the Quarter – Barsele Drilling Program

On September 22, 2026, the Company announced the commencement of a 25,000-metre diamond drill program at the Barsele Gold Project, its first major drilling campaign at Barsele following the consolidation of 100% ownership. Drilling commenced on September 16, 2026 with two rigs contracted to Comadev, with a third rig from Arctic Drilling Company scheduled to commence in October 2026. The program is focused on the Skiråsen, Central and Avan zones, where the existing Mineral Resource remains open along strike and at depth, and is designed to upgrade Inferred Mineral Resources to the Indicated category, test extensions of the deposit and improve understanding of the controls on high-grade gold mineralization. The Company expects the drilling to support an updated Mineral Resource estimate in 2027 and its maiden Preliminary Economic Assessment for Barsele.

Developments During the Quarter – Ocean Partners MOU

On July 8, 2026, the Company entered into a non-binding Memorandum of Understanding ("MOU") with Ocean Partners to evaluate the technical and economic viability of recovering cobalt from mineralized material at the Rajapalot Gold-Cobalt Project and to assess potential commercial arrangements relating to cobalt concentrate production, marketing and offtake.

Under the MOU, the parties intend to evaluate the metallurgical recovery of cobalt, the technical and economic viability of a cobalt recovery circuit and processing facility, potential concentrate marketing and offtake arrangements, concentrate blending opportunities and potential participation by Ocean Partners in future project development. Costs associated with the initial phase, including sample generation, transportation, laboratory work and supervision, are expected to be shared between the parties.

The MOU facilitates technical and commercial evaluation and information sharing and does not constitute a binding commitment to proceed with a transaction, construction project, financing arrangement or offtake agreement.

Subsequent Developments – Rajapalot 2026 Drill Results

On October 27, 2026, the Company announced assay results from all 46 holes of the 2026 winter drill program at the Rajapalot Gold-Cobalt Project. The program comprised 45 new diamond drill holes totalling 10,385 metres, plus an extension of a 2017 hole, completed between January 15 and March 25, 2026 with four rigs. Thirty-seven infill holes (8,809 metres) were drilled within or at the margins of the Raja, Palokas and South Palokas Inferred Mineral Resource, with significant intercepts returned in 32 of the 37 infill holes, including 12.6 metres at 233.56 g/t gold uncut (14.19 g/t gold at a 50 g/t top cut) and 881 ppm cobalt in hole PAL0433 at Raja, and 17.35 metres at 16.46 g/t gold and 652 ppm cobalt in hole PAL0406 at Palokas. The eight exploration target-test holes (1,576 metres) did not intersect significant mineralization. The updated geological and resource model is with SLR, which is completing the Mineral Resource update that will form the basis of an updated PEA.

OVERALL PERFORMANCE

Results of Operations for the Three-Month Period Ended September 30, 2026, and 2025

During the three-month period ended September 30, 2026, the Company incurred exploration expenses amounting to $1,711,769 (2025 - $2,352,613). Exploration expenses consist of drilling costs, claims management (including assay costs), technical consulting (site and local consultants), geology, field and camp costs, licence and permit fees, and office administration, which includes salaries and benefits of site employees and other site costs not allocated elsewhere, incurred in Sweden and Finland. Exploration expenses during the quarter were

incurred primarily at the Rajapalot Project ($834,828) and the Barsele Project ($836,925), with the balance at the Gold Line Project ($40,016).

Operating costs were $3,553,135 (2025 - $8,726,826) for the three-month period ended September 30, 2026. These costs primarily included consulting of $597,659 (2025 - $1,776,431), foreign exchange loss of $40,924 (2025 - $292,428), interest income of $438,947 (2025 - $42,061), investor relations of $108,141 (2025 - $550,323), management fees of $575,428 (2025 - $2,507,992), office and administrative fees of $649,408 (2025 - $930,052), professional fees of $236,786 (2025 - $118,060), stock-based payments of $nil (2025 - $179,244), and transfer agent and filing fees of $34,689 (2025 - $61,744). Consulting fees decreased from $1,776,431 in the three months ended September 30, 2025 to $597,659 in the three months ended September 30, 2026 due to a reduced requirement for management and outside consultants, with the Company's focus shifting to exploration. Foreign exchange loss decreased to $40,924 from $292,428 in the comparative quarter. Foreign exchange gains and losses arise mainly on balances held in Swedish krona, Euros and US dollars. Interest income increased to $438,947 from $42,061 in the comparative quarter due to higher cash balances held during the current period. Investor relations decreased from $550,323 in the three months ended September 30, 2025 to $108,141 in the three months ended September 30, 2026 due to decreased investor relations needs and timing of spend. Investor relations expenses include investor communication and press releases, investor roadshows and conferences, shareholder services, payments to external IR firms or consultants, market awareness and advertising, stock exchange and regulatory fees and IR related travel and expenses. Management fees decreased from $2,507,992 in the three months ended September 30, 2025 to $575,428 in the three months ended September 30, 2026, as the comparative quarter included an accrual of $1,500,000 for the settlement relating to the stepping down of the former CEO. Professional fees increased from $118,060 in the three months ended September 30, 2025 to $236,786 in the three months ended September 30, 2026 due to increased corporate activity following the Barsele acquisition. Stock-based payments expense decreased from $179,244 in the three months ended September 30, 2025 to $nil in the three months ended September 30, 2026 as no options were granted or vested during the current quarter.

In summary, the loss in the three-month period ended September 30, 2026 amounted to $3,553,135 (2025 - $8,726,826) or loss of $0.01 (2025 - $0.11) per share.

Results of Operations for the Nine-Month Period Ended September 30, 2026, and 2025

During the nine-month period ended September 30, 2026, the Company incurred exploration expenses amounting to $7,669,783 (2025 - $8,220,133). Exploration expenses consist of drilling costs, claims management (including assay costs), technical consulting (site and local consultants), geology, field and camp costs, licence and permit fees, and office administration, which includes salaries and benefits of site employees and other site costs not allocated elsewhere, incurred in Sweden and Finland.

Operating costs totalled $37,370,680 (2025 - $22,410,778) for the nine months ended September 30, 2026. These costs primarily included consulting of $1,697,948 (2025 - $3,239,550), investor relations of $457,836 (2025 - $1,474,504), foreign exchange gain of $120,715 (2025 - loss $504,468), interest income of $1,511,230 (2025 - $142,721), management fees of $2,790,125 (2025 - $2,876,722), office and administrative fees of $1,576,244 (2025 - $1,898,422), professional fees of $748,583 (2025 - $353,118), share-based payments of $23,730,688 (2025 - $3,789,135) and transfer agent and filing fees of $219,585 (2025 - $197,447). Consulting fees decreased from $3,239,550 in the nine months ended September 30, 2025 to $1,697,948 in the nine months ended September 30, 2026 due to a reduced requirement for management and outside consultants, with the Company's focus shifting to exploration. Foreign exchange gain was $120,715 in 2026 as compared to foreign exchange loss of $504,468 in the comparative period. Foreign exchange gains and losses arise mainly on balances held in Swedish krona, Euros and US dollars. Interest income increased to $1,511,230 from $142,721 in the comparative period due to higher cash balances held following the financing completed in December 2025. Investor relations decreased from $1,474,504 in the nine months ended September 30, 2025 to $457,836 in the nine months ended September 30, 2026 as the comparative period included investor relations activity focused on raising capital and aligning with investors, which was not required to the same extent in the current period. Management fees were $2,790,125 (2025 - $2,876,722) and included a management fee of $1,508,731 recorded

in connection with the closing of the Barsele transaction, which was settled through the issuance of 468,550 common shares on July 6, 2026; the comparative period included an accrual of $1,500,000 for the settlement relating to the stepping down of the former CEO. Professional fees increased from $353,118 in the nine months ended September 30, 2025 to $748,583 in the nine months ended September 30, 2026 due to increased corporate and transaction activity relating to the Barsele acquisition. During the nine months ended September 30, 2026, options were granted and vested resulting in a fair value of $23,730,688 (2025 - $3,789,135) in share-based payments recognized using the Black-Scholes Model.

In summary, the loss in the nine-month period ended September 30, 2026, amounted to $37,370,680 (2025 - $22,410,778) or loss of $0.18 (2025 - $0.32) per share.

The following is a summary of the exploration expenditures for the nine months ended September 30, 2026.

General Exploration	Rajapalot Project $	Oijärvi Gold $	Gold Line $	Barsele $	Total $
Claims Management	896,494	-	-	21,830	918,324
Drilling	3,153,595	-	16,492	-	3,170,087
Field and Camp	86,252	-	2,410	10,472	99,134
Geology	241,362	-	8,308	99,211	348,881
Licence and Permits	-	25,000	100,601	-	125,601
Office Administration	830,301	17,261	90,385	535,082	1,473,029
Other (small)	-	-	3,627	-	3,627
Technical Consulting	944,984	15,000	177,546	393,570	1,531,100
Total	6,152,988	57,261	399,369	1,060,165	7,669,783

Use of Proceeds and Capital Allocation

In connection with the completion of the Mawson Finland acquisition, the Company received the net proceeds from the previously completed brokered and non-brokered subscription receipt financings, which raised aggregate gross proceeds of approximately $80 million. As previously disclosed, the proceeds are intended to fund exploration and development activities across the combined Goldsky portfolio, costs related to the Mawson Finland acquisition, working capital and general corporate purposes.

During the nine months ended September 30, 2026, the Company deployed funds primarily toward exploration activities, including approximately $6.2 million at the Rajapalot Project and $1.1 million at the Barsele Project, together with expenditures relating to exploration activities at the Oijärvi Gold Project and Gold Line Project. In addition, funds were utilized for corporate, professional, investor relations and administrative activities associated with the expanded business following completion of the Mawson Finland and Barsele acquisitions. The Company spent cash of US $20M (CAD $28,465,700) on the Barsele acquisition in June of 2026 and, in October 2026, paid the cash advisory fee of $4,769,424 (including HST) to Haywood in connection with the Barsele acquisition.

As at September 30, 2026, the Company had cash of approximately $58.6 million. Management believes the Company's existing treasury provides significant financial flexibility to continue advancing its Nordic exploration and development portfolio.

Other than the foregoing, the Company has not identified any material variance from the previously disclosed intended use of proceeds as at September 30, 2026.

[(1)] On December 16, 2025, the Company consolidated its outstanding share capital on the basis of four (4) pre-consolidated shares for one (1) post consolidated share. All share amounts have been adjusted to reflect the consolidation.

During the three-month period ended September 30, 2026, Operating costs totaled $3,553,135, and $5,457,605 during the three months ended June 30, 2026. The decrease in operating expenses was mainly due to the management fee of $1,508,731 recorded in Q2 2026 in connection with the closing of the Barsele transaction and lower exploration expenditures in Q3 2026.

During the three-month period ended June 30, 2026, Operating costs totaled $5,457,605, and $28,359,940 during the three months ended March 31, 2026. The decrease in operating expenses was mainly due to decrease in stock-based compensation expense.

During the three-month period ended March 31, 2026, Operating costs totaled $28,359,940 and $5,825,128 during the three months ended December 31, 2025. The increase in operating expenses was mainly due to non-cash stock- based compensation expense for $23,730,688 during the three months ended March 31, 2026.

During the three-month period ended December 31, 2025, Operating costs totaled $5,825,128 and $8,726,826 during the three months ended September 30, 2025. The reduction in operating expenses was mainly due to lower exploration and consulting and support services in Q4 of 2025 as compared to Q3 of 2025.

During the three-month period ended September 30, 2025, Operating costs totaled $8,726,826, and $7,541,522 during the three months ended June 30, 2025. The increase in operating expenses was mainly due to increase

in business activity after the capital raises in Q4 of 2024 and Q3 of 2025, adding additional exploration expenditures, management fees and consulting and support services.

During the three-month period ended June 30, 2025, Operating costs totaled $7,541,522, and $6,142,430 during the three months ended March 31, 2025. The increase in operating expenses was mainly due to increase in business activity after the capital raise in Q4 of 2024, adding additional exploration expenditures and consulting and support services.

During the three-month period ended March 31, 2025, Operating costs totaled $6,142,430, and $3,309,090 during the three months ended December 31, 2024, and a write-down of exploration and evaluation asset totalled $Nil (December 31, 2024: $844,217). The increase in operating expenses was mainly due to increase in business activity after the capital raise in Q4 of 2024, adding additional exploration expenditures and consulting and support services.

During the three-month period ended December 31, 2024, Operating costs totaled $3,309,090, and $2,984,331 during the three months ended September 30, 2024, and a write-down of exploration and evaluation asset totalled $844,217 (September 30, 2024: $nil). The increase in operating expenses was mainly due to increase in business activity after the capital raise in Q4 of 2024, adding additional exploration expenditures and consulting and support services.

Liquidity

The Company is in the exploration stage and commodity prices are not reflected in operating financial results. However, fluctuations in commodity prices may influence financial markets and may indirectly affect the Company.

The loss for the nine months ended September 30, 2026, was $37,370,680 (2025 – $22,410,778). The significant increase in net loss during the nine-month period was primarily attributable to a non-cash share-based compensation expense of $23,730,688 (2025 – $3,789,135) related mainly to stock options granted during the period to directors, officers, employees and consultants following completion of the Mawson Finland acquisition and concurrent financings completed in December 2025. Cash used in operating activities for the nine months ended September 30, 2026, was $14,079,914 (2025 – $18,075,261), primarily reflecting exploration, corporate and administrative activities associated with the expanded business following the Mawson Finland and Barsele acquisitions.

Total cash used in investing activities was $29,008,897 (2025 – $Nil), consisting primarily of the cash payment of $28,465,700 and transaction costs of $281,093 for the Barsele acquisition, the purchase of property and equipment of $221,428 and advances of $101,205, partially offset by cash of $60,529 acquired on the NBU acquisition.

Cash from financing activities consisted of gross proceeds from a private placement of $nil (2025 - $16,819,526), less share issuance costs paid of $nil (2025 - $2,046,721), proceeds from an exercise of options of $4,504,028 (2025 - $1,590,741), proceeds from warrants exercised of $11,873,129 (2025 - $1,300,727), subscription for shares for $nil (2025 - $681,809), proceeds from compensatory options exercised for $1,001,488 (2025 - $7,786) and repayment of lease liabilities of $109,654 (2025 - $nil). Total cash received from financing activities was $17,268,991 (2025 - $18,353,868).

Consequently, the Company's cash position decreased from an opening level of $84,381,333 at the beginning of the period to $58,561,513 at the end of the period.

Management believes it will be able to raise equity capital as required in the long term, but recognizes the risks attached thereto. The Company continues to use various strategies to minimize its dependence on equity capital, included the securing of joint venture partners where appropriate.

Capital Resources

The Company considers its capital structure to be shareholder equity. Management's objective is to ensure that there is sufficient capital to minimize liquidity risk and to continue as a going concern. As an exploration stage company, the Company is unable to finance its operations from cash flow and relies primarily on the existing cash resources and, when required, equity financings and other strategic financing alternatives.

There can be no assurance that the Company will be able to obtain adequate financing in the future, or that the terms of such financings will be favourable.

The Company's share capital is not subject to any external restriction, and the Company did not change its approach to capital management during the period.

Equity Investment - exploration and evaluation assets

On September 25, 2015, a 45% interest in the Barsele Project, which includes Gunnarn Mining AB and Gunnarn Exploration AB (collectively, the "Barsele JV"), was transferred from Orex Minerals Inc. ("Orex") to the Company pursuant to a plan of arrangement. Prior to June 25, 2026, the remaining 55% interest in the Barsele Project was held by Agnico Eagle Sweden AB ("Agnico").

Prior to the acquisition of Agnico's interest, the Company accounted for its 45% interest in the Barsele JV using the equity method. As Agnico had elected to solely fund expenditures on behalf of the Barsele JV, the Company did not recognize its share of losses once the carrying value of its investment had been reduced to $1.

On June 25, 2026, the Company completed the acquisition of Agnico's remaining 55% interest in Gunnarn Mining AB, resulting in the Company owning 100% of Gunnarn Mining AB and the Barsele Project. Accordingly, effective June 25, 2026, the Company ceased accounting for its interest using the equity method. The acquisition was accounted for as an asset acquisition and the carrying amount of the Company's previously held 45% interest of $1 was included in the cost of the acquired exploration and evaluation assets without remeasurement.

As at September 30, 2026, the Company's interest in the Barsele Project is included in exploration and evaluation assets rather than as an equity-accounted investment.

The following summarizes the continuity of the Company's interest in the Barsele Project during the nine months ended September 30, 2026:

	Total $
Equity-accounted investment, December 31, 2025	1
Acquisition of remaining 55% interest and other acquisition costs	287,749,109
Exploration and evaluation assets, September 30, 2026	287,749,110

Related Party Transactions

During the nine months ended September 30, 2026, the Company entered into transactions with directors, officers and other related parties. Key management personnel are individuals responsible for planning, directing and controlling the activities of the Company and include the Company's directors and officers.

Compensation paid or payable to key management personnel for services rendered are as follows:

	Nine Months Ended September 30, 2026 $	Nine Months Ended September 30, 2025 $
Management Fees[(1)]	**1,130,479**	2,811,722
Share Based Payments	**9,131,500**	839,483
Management fee – shares to be issued	**1,508,731**	-
Total	**11,770,710**	3,651,205

[(1)] Management fees include compensation to: Russell Bradford (CEO), Noora Ahola (Executive Director & MD, Nordics), Rakesh Malhotra (CFO-up to February 28, 2026), Brent Doster (CFO-March 1, 2026, onwards), Karilyn Farmer (Executive Director and SVP – up to September 11, 2026).

In connection with the closing of the Barsele transaction, the Company recorded a management fee expense of $1,508,731 payable to the CEO and director of the Company. The amount had been recognized as a management fee expense with a corresponding amount recorded as shares to be issued within shareholders' equity as at June 30, 2026, and was settled through the issuance of 468,550 common shares on July 6, 2026.

Other transactions with related parties during the period are as follows:

	Nine Months Ended September 30, 2026 $	Nine Months Ended September 30, 2025 $
Exploration Expenditures	**59,912**	464,800
Board and Management costs	**150,915**	65,000
Share Based Payments	**6,945,700**	903,371
Total	**7,156,527**	1,433,171

The amounts presented under other related party transactions related to related parties other than amounts included in key management compensation above.

Included in accounts payable and accrued liabilities as at September 30, 2026 is $Nil (December 2025 - $24,617) due to directors or officers or companies controlled by directors.

Off Balance Sheet Arrangements

The Company has no material off balance sheet arrangements in place.

Changes in Accounting Policies Including Initial Adoption

Future accounting changes

Effective January 1, 2027, the Company is required to adopt IFRS 18, Presentation and Disclosure in Financial Statements, with early adoption permitted. IFRS 18 will replace IAS 1; many of the existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its operating profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new

principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7, Statement of Cash Flows. The Company is assessing the potential impact of the application of the standards.

Capital Management

The Company defines its capital as shareholder equity. The Board of Directors does not establish quantitative return on capital criteria for management due to the nature of the Company's business. The Company may invest its capital in liquid investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns on unused capital. The Company does not pay dividends. The Company is not subject to any externally imposed capital requirements.

The Company raises capital to fund its corporate and exploration costs and other obligations through the sale of its common shares or units consisting of common shares and warrants in order to operate its business and safeguard its ability to continue as a going concern. Although the Company management has been successful at raising funds in the past through issuance of share capital, it is uncertain whether it will continue this financing due to uncertain economic conditions. There have been no changes to the Company's approach to capital management during the period.

RISKS AND UNCERTAINTIES

Operational Risk Management

The Company is exposed to numerous risks by virtue of its operations as a mineral explorer, both of an operational and a financial nature. Operational exposures include the risks in acquisition of property rights and access, the actual surface exploration work, surveying the property and sampling, undertaking a drilling program, assaying the drill cores recovered, the evaluation of the results of these determinations and the technical assessments from all of these steps to identify mineralization initially, and then the determination of commercial viability of the mineralization. These various procedures involve the work of staff and consultants or contractors, which introduce risks of damage to the property sites and surrounding areas and harm to those workers involved in the project work. Also, this project work introduces environmental exposures, in particular from drilling, of contamination on site to the air, to the water and to the biodiversity, and equally to the communities in proximity to the project site.

The Company has developed a number of policies to address the ethical elements of its interaction with staff, contractors and communities and its full compliance with governmental laws, rules and guidelines. It has also developed policies addressing Environmental, Social and Governance ("ESG") requirements to guide its staff and others in the conduct of its business on site and elsewhere and requires all workers to commit regularly to their adherence to the policies.

Climate Change

More recently, the effects of climate change to project work sites has introduced added risk to the success of the site work and the overall viability of the Company's exploration plans. Climate changes can make the project site more difficult for workers due to extreme temperatures or heavy rains or flooding, all adding greater risk of injury or damage. Climate changes can change the costs of fuels and supplies, the availability of water for drilling, and costs for site preparation and maintenance. The impact of climate

change has already caused changes to past project work, and there is expected to be future program changes necessitated by additional weather events and changes, which will alter the Company's plans, performance and success going forward.

Financial and Risk Management

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are described below.

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

a) Fair value of financial instruments

The Company has various financial instruments including cash, receivables, and accounts payable and accrued liabilities. The carrying value of all these financial instruments approximate their fair values due to the short-term maturity of the financial instrument.

b) Concentrations of business risk

The Company maintains a majority of its cash with a major Canadian financial institution. Deposits held with this institution may exceed the amount of insurance provided on such deposits.

c) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Company's cash is held primarily in a large Canadian financial institution. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk. The Company's receivables are primarily comprised of goods and services tax, which are recoverable from the governing body in Canada.

d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company is exposed to liquidity risk. The Company manages liquidity risk through the management of its capital structure.

e) Foreign exchange risk

The Company is exposed to foreign currency risk on fluctuations related to cash, receivables, prepaid expenses, amounts payable and accrued liabilities that are denominated in the Swedish krona, Euro and the US dollar. A 10% fluctuation in the SEK, Euro or the USD against the Canadian dollar would not result in any material change in loss for the nine months ended September 30, 2026.

f) Interest rate risk

The Company limits its exposure to interest rate risk by holding cash deposits at major Canadian financial institutions and accordingly is not subject to significant interest rate risk.

g) Price risk

Mineral prices, in particular gold and silver, are volatile. The prices are subject to market supply and demand, political and economic factors, and commodity speculation, all of which can interact with one another to cause significant price movement from day to day and hour to hour. These price movements can affect the Company's ability to operate and to raise financing through the sale of its common shares.

ACQUISITION OF GOLD LINE RESOURCES LTD.

On February 23, 2024, the Company completed the acquisition of all the issued and outstanding common shares of Gold Line whereby each Gold Line shareholder received 0.7382 common shares of the Company in exchange for one common share of Gold Line (the "Arrangement"). Pursuant to the Arrangement, the Company issued 8,936,929 common shares with a fair value of $4,289,726. Gold Line was a Canadian exploration company listed on the TSX-V and OTC Exchange. On completion of the Arrangement, Gold Line's common shares were delisted from the TSX-V and OTC Exchange.

As part of the Arrangement, all outstanding share options and warrants of Gold Line were exchanged for share options to acquire up to an aggregate of 387,555 common shares of the Company. All outstanding warrants of Gold Line are exercisable to acquire 3,547,064 common shares of the Company.

The transaction costs associated with the Arrangement totaled $101,043 and is comprised of legal fees and transfer agent fees.

The acquisition of Gold Line constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as a payment of equity consideration for the acquisition of Gold Line and its net assets. The value of the consideration paid after allocation to the other net assets acquired, was allocated to exploration and evaluation assets, which are located in Sweden and Finland.

The total consideration for the acquisition of the assets and liabilities of Gold Line assumed on acquisition were as follows:

	Total $
Cost of Acquisition:	
Common shares issued	4,289,726
Transaction costs	101,043
Value of stock options	126,020

ACQUISITION OF MAWSON FINLAND LIMITED

On December 16, 2025, the Company completed the acquisition of all the issued and outstanding common shares of Mawson (the "Transaction). Pursuant to the terms and conditions of the Arrangement Agreement, the holders of the issued and outstanding Mawson common shares received 1.7884 (or 7.1534 on a pre-consolidation basis) common shares in the capital of the Company (the "Goldsky Shares") for each one Mawson common share (the "Exchange Ratio") held immediately prior to closing of the Transaction, which exchange occurred on a post the Consolidation. Pursuant to the Transaction, the Company issued 39,976,326 common shares with a fair value of $69,958,571. Mawson was a Canadian exploration company listed on the TSX-V. On completion of the Transaction, Mawson's common shares were delisted from the TSX-V.

As part of the Transaction, all outstanding share options of Mawson were exchanged for share options to acquire up to an aggregate of 1,931,472 common shares of the Company.

The transaction costs associated with the Transaction totaled $4,770,864 and are comprised of advisory fees, legal fees and transfer agent fees. These costs were settled by issuance of common shares and cash payments.

The acquisition of Mawson constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as payment of equity consideration for the acquisition of Mawson and its net assets. The value of the consideration paid after allocation to the other net assets acquired, was allocated to exploration and evaluation assets, which are located in Finland.

The total consideration for the acquisition of the assets and liabilities of Mawson assumed on acquisition were as follows:

	Total $
Cost of Acquisition:	
Common shares issued	69,958,571
Transaction costs	4,770,864
Value of Stock Options	1,142,444
Total consideration	**75,871,879**
Allocated as follows:	
Cash	$ 691,823
Receivables	161,674
Prepaid expenses	72,930

Bonds	101,119
Accounts payable	(807,433)
Advances	(350,000)
Lease liability	(395,442)
Total	**75,871,879**

ACQUISITION OF NORDIC BUSINESS UNIT ("NBU")

On February 19, 2026, the Company announced the closing of the acquisition of the Nordic business unit ("NBU Acquisition") of Elemental Royalty Corporation (previously operating as EMX Royalty Corporation ("Elemental"). Pursuant to the terms of the NBU Acquisition agreement dated May 30, 2025 (the "Agreement"), the Company is making staged payments totaling 3,247,000 SEK (CAD$480,900), with each payment paid half in cash and half in the Company's common shares ("Shares"), as follows:

- 1,052,000 SEK following TSX-V approval (paid by the issuance of 20,138 common shares and SEK 526,000 (CAD$77,900) in cash)
- 1,195,000 SEK (CAD$177,000) on the first anniversary of closing; and
- 1,000,000 SEK (CAD$148,100) on the second anniversary of closing.

The deemed issue price of the Company's common shares to be issued will be the greater of $1.26 and the volume weighted average price of the Company's shares over the 10 consecutive trading days preceding the issue date, provided that, if and to the extent any issuance of the Company's shares causes Elemental's ownership of the Company's shares to exceed 9.9% of the then issued and outstanding shares, the dollar value of such excess portion of the Company's shares not issued shall instead be satisfied by the Company making an equivalent cash payment.

Elemental will retain a 1% net smelter return (NSR) royalty on any new projects organically generated (i.e. newly staked) by the Company in Sweden and Finland within five years of the effective date of the Agreement.

The acquisition of NBU constitutes an asset acquisition and has been accounted for under the acquisition method in accordance with the guidance provided in IFRS 3, Business Combinations ("IFRS 3"). The assets acquired did not qualify as a business according to the definition in IFRS 3, and therefore the acquisition did not constitute a business combination, but rather it is treated as payment of equity consideration for the acquisition of Elemental/NBU and its net assets.

The total consideration for the acquisition of the assets and liabilities of Elemental assumed on acquisition were as follows:

	Total $
Cost of Acquisition:	
Common shares issued and to be issued	240,450
Cash paid and payable	240,450
Total consideration	**480,900**
Allocated as follows:	
Cash	$ 60,529
Receivables	1,940
Property and Equipment	525,785
Accounts payable	(6,149)
Advances	(101,205)
Total	**480,900**

ACQUISITION OF REMAINING 55% INTEREST IN GUNNARN MINING AB ("BARSELE PROJECT")

On June 25, 2026, the Company completed the acquisition of the remaining 55% interest in Gunnarn Mining AB ("Gunnarn") from Agnico Eagle Sweden AB ("Agnico"), resulting in the Company owning 100% of Gunnarn and the Barsele Project. Prior to the acquisition, the Company held a 45% interest in Gunnarn.

Pursuant to the terms of the acquisition agreement, consideration for the remaining 55% interest consisted of:

US$20,000,000 in cash (CAD $28,465,700); 75,509,577 common shares of the Company; and the grant to Agnico of a perpetual 2% net smelter return ("NSR") royalty on the Barsele Project.

In connection with the acquisition, the Company also issued 2,574,833 common shares to Nuvolari Capital Limited as an advisory fee and incurred direct transaction costs of $281,093.

During the three months ended September 30, 2026, the Company agreed to pay Haywood an advisory fee in connection with the acquisition consisting of cash of $3,785,257 (plus HST) and 1,166,130 common shares of the Company valued at $3,785,258 (C$3.246 per share, being the value of the shares set out in Haywood's invoice). The total advisory fee of $7,570,515 was capitalized to the Barsele exploration and evaluation asset. As at September 30, 2026, the shares had not been issued and were recorded as shares to be issued within shareholders' equity, and $4,769,424 (including HST) payable to Haywood was included in accounts payable and accrued liabilities. The cash was paid and the shares were issued in October 2026.

The acquisition of the remaining 55% interest in Gunnarn constitutes an asset acquisition. The assets acquired did not meet the definition of a business under IFRS 3, Business Combinations ("IFRS 3"), and accordingly, the transaction has been accounted for as an acquisition of assets rather than a business combination. The Company's previously held 45% interest in Gunnarn, with a carrying amount of $1, was not remeasured on acquisition.

The total acquisition cost was allocated to exploration and evaluation assets as follows:

	Total $
Cost of Acquisition:	
Cash consideration	28,465,700
75,509,577 common shares issued	243,140,838
2,574,833 common shares issued as advisory fee	8,290,963
Direct transaction costs	281,093
Advisory fee – Haywood (cash)	3,785,257
1,166,130 common shares to be issued as advisory fee – Haywood	3,785,258
Carrying amount of previously held 45% interest	1
Total acquisition cost allocated to exploration and evaluation assets	**287,749,110**

The common shares issued as consideration to Agnico and as an advisory fee listed above were valued at $3.22 per common share. The 1,166,130 common shares to be issued to Haywood were valued at $3,785,258 (C$3.246 per common share), being the value of the services attributed to the shares in Haywood's invoice. These shares were issued after the quarter on October 23, 2026.

As part of the acquisition, the Company granted Agnico a perpetual 2% net smelter return ("NSR") royalty on the Barsele Project. The NSR royalty becomes payable upon the production and sale of minerals from the Barsele Project. No amount has been recognized in respect of the NSR royalty as at September 30, 2026

OUTSTANDING SHARE DATA

The Company had 270,460,849 common shares issued and outstanding as of November 27, 2026.

Authorized

Unlimited number of common shares without par value.

Issued

Nine months ended September 30, 2026

As at September 30, 2026, there were 268,066,072 common shares issued and outstanding on a post consolidation basis. On December 10, 2025, the Company consolidated its outstanding share capital on the basis of four (4) pre-consolidated shares for one (1) post consolidated share.

During this period, 3,749,392 stock options were exercised for a total consideration of $4,504,028 and $3,561,224 was transferred from reserves to share capital.

During this period, 6,763,887 warrants were exercised for a total consideration of $12,554,938.

During this period, 710,406 compensatory options were exercised for a total consideration of $1,001,488.

The Company issued 20,138 common shares for the NBU acquisition valued at $80,150.

The Company issued 75,509,577 common shares for the Barsele acquisition valued at $243,140,838 and issued 2,574,833 advisory shares valued at $8,290,963.

On July 6, 2026, the Company issued 468,550 common shares to the CEO and director of the Company in settlement of a management fee of $1,508,731, which was recorded as shares to be issued as at June 30, 2026.

As at September 30, 2026, 1,166,130 common shares valued at $3,785,258 to be issued to Haywood as an advisory fee on the Barsele acquisition were recorded as shares to be issued. The shares were issued on October 23, 2026.

Year ended December 31, 2025

As at December 31, 2025, there were 176,651,231 common shares issued and outstanding on a post consolidation basis.

On March 14, 2025, the Company closed its brokered private placement (the "Private Placement") of Swedish depository receipts ("SDRs") in conjunction with its listing on the Nasdaq First North Growth Market ("Nasdaq First North") in Sweden. SDRs are a financial instrument issued by a Swedish bank representing shares in a non-Swedish company. The Private Placement of SEK 7.5 million was fully subscribed and the full oversubscription allotment of SEK 2.5 million was used. 776,398 SDRs were subscribed for aggregate gross proceeds of SEK 10.0 million (CAD $1,397,516). Each subscribed SDR is underpinned by one common share of the Company. The Company incurred $773,424 in share issuance costs.

On July 31, 2025, the Company closed a financing (the "Offering") for aggregate gross proceeds of $15,422,010. The Offering consisted of the issuance and sale of 10,420,278 units of the Company (the "Units") at a price per Unit of $1.48 (the "Issue Price") Each Unit consists of one common share in the capital of the Company and one-half of one common share purchase warrant of the Company (each whole purchase warrant, a "Warrant"). Each Warrant entitles the holder thereof to acquire one common share of the Company at a price of $2.20 on or before July 31, 2027. In consideration for agency services, the Company issued to the agents 583,663 non-transferable compensation options (the "Compensation Options"). Each Compensation Option is exercisable to acquire one common share of the Company at $1.48 until July 31, 2027, and incurred expenses of $1,273,297 as share issuance costs. The Company valued the compensation options at $405,065.

On December 16, 2025, the Company closed its non-brokered private placement (the "Non-Brokered Private Placement") and its "best efforts" brokered private placement (the "Brokered Private Placement" and together with the Non-Brokered Private Placement, the "Offerings") of subscription receipts raising aggregate gross proceeds of $80 million.

Pursuant to the Non-Brokered Private Placement, First Nordic issued 44,736,831 subscription receipts (the "Non-Brokered Subscription Receipts") at a price of $1.52 per Non-Brokered Subscription Receipt (the "Offering Price"), for aggregate gross proceeds of $67,999,983. Pursuant to the Brokered Private Placement, First Nordic issued a total of 7,894,736 subscription receipts (the "Brokered Subscription Receipts") at the Offering Price, for aggregate gross proceeds of $12 million. The Company issued 1,164,959 common shares called finders shares valued at $1,842,965 for its non-brokered subscriptions and incurred expenses of $1,488,685 as share issuance costs.

During the year ended December 31, 2025, 1,294,092 stock options were exercised for a total consideration of $1,590,740.

During the year ended December 31, 2025, 2,095,507 warrants were exercised for a total consideration of $2,301,178.

During the year ended December 31, 2025, 6,252 compensatory options were exercised for a total consideration of $8,253.

During the year ended December 31, 2025, 870,982 common shares valued at $1,396,344 were issued for services. Subsequent to December 31, 2025, the Company issued 657,894 common shares valued at $1,000,000 for services.

Stock Options

The Company has a plan to grant stock options to directors, officers, employees and consultants of the Company. Under the plan, the Board of Directors has the discretion to issue the equivalent of up to 10% of the issued and outstanding shares of the Company from time to time. Stock options are generally for a term of up to five years from the date granted and are exercisable at a price that is not less than the market price on the date granted.

Vesting terms are determined at the discretion of the board of directors. Options issued to consultants providing investor relations services must vest in stages over a minimum of 12 months with no more than one-quarter of the options vesting in any three-month period.

Nine months ended September 30, 2026

On January 29, 2026, the Company issued 8,090,000 stock options to directors, officers and consultants. The stock options have an exercise price of $4.10 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $22,298,000. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of 5 years.

On March 2, 2026, the Company issued 500,000 stock options to an officer of the Company. The stock options have an exercise price of $4.22 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $1,414,000. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of 5 years.

The share-based payments expense for stock options granted and vested during the nine months ended September 30, 2026, was $23,730,688 (September 30, 2025 - $3,789,135).

Year ended December 31, 2025

On January 7, 2025, the Company issued 2,222,500 stock options to directors, officers and consultants. The stock options have an exercise price of $1.56 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $2,428,373. The following assumptions were used: risk free interest rate of 3.01%, dividend yield of 0%, expected volatility of 90.54% and expected life of 5 years.

On January 20, 2025, the Company issued 250,000 stock options to the Company director. The stock options have an exercise price of $1.68 per share, expire five years from the date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $289,721. The following assumptions were used: risk free interest rate of 3.01%, dividend yield of 0%, expected volatility of 90.31% and expected life of 5 years.

On May 7, 2025, the Company issued 850,828 stock options to directors, officers and consultants. 775,828 stock options have an exercise price of $1.80 per share, expire five years from the date of grant and have varying vesting periods. 75,000 options have an exercise price of $2.80 per share, expire three years from date of grant and vest immediately. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be a total of $999,344. The Company expensed $928,005 during the year ended December 31, 2025. The following assumptions were used: risk free interest rate of 2.7%, dividend yield of 0%, expected volatility of 86.94% and expected life of five and three years.

On August 8, 2025, the Company issued 437,500 stock options to directors, officers and consultants. These stock options have an exercise price of $1.60 per share, expire five years from the date of grant and vest 1/3 immediately and 1/3 annually thereafter. The Company used the Black Scholes option pricing model to

estimate the fair value of the options to be a total of $303,627. The Company expensed $137,435 during the year ended December 31, 2025. The following assumptions were used: risk-free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.16 % and expected life of five.

On September 1, 2025, the Company issued 50,000 stock options to a consultant. The stock options have an exercise price of $1.60 per share, expire six months from the date of grant. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $33,122. The following assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.161% and expected life of 6 months.

On October 16, 2025, the Company issued 25,000 stock options to a consultant. The stock options have an exercise price of $2.00 per share, expire one year from the date of grant. The Company used the Black Scholes option pricing model to estimate the fair value of the options to be $65,700. The following assumptions were used: risk free interest rate of 1.92%, dividend yield of 0%, expected volatility of 83.05% and expected life of one year.

The share-based payments expense for stock options granted and vested during the year ended December 31, 2025, was $3,882,356 (December 31, 2024 - $2,747,251).

Warrants and Compensatory Options

Nine months ended September 30, 2026

The Company did not issue any warrants or compensatory options during the nine months ended September 30, 2026.

Year ended December 31, 2025

In connection with a private placement completed in July 2025, the Company issued 5,210,146 warrants. The warrants have an exercise price of $2.20 per share, expire two years from the date of grant and vest immediately. Under the residual value method, $nil was attributed to the warrants. The Company also issued 583,663 compensation options. Each Compensation Option is exercisable to acquire one common share of the Company at $1.48 until July 31, 2027. The Company used the Black Scholes option pricing model to estimate the fair value of the compensation options to be $0.68. The following weighted average assumptions were used: risk free interest rate of 2.92%, dividend yield of 0%, expected volatility of 85.16% and expected life of 2 years.

Warrant and compensatory option transactions are summarized as follows:

	Warrants and Compensatory Options	Warrants and Compensatory Options Weighted average exercise price $

CRITICAL ACCOUNTING ESTIMATES

The preparation of the condensed consolidated interim financial statements in accordance with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

a) The inputs used in calculating the fair value for share-based payments included in profit or loss and share-based share issuance costs included in shareholders' equity. The share-based payments expense is estimated using the Black-Scholes option pricing model as measured on the grant date to estimate the fair value of stock options. This model involves the input of highly subjective assumptions, including the expected price volatility of the Company's common shares, the expected life of the options, and an estimated forfeiture rate.

b) Management has determined that acquisition costs related to its exploration and evaluation assets which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including, geologic and other technical information, a history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the

project.

c) Management had to apply judgement with respect to whether the acquisition of Barsele, Mawson Finland Limited ("Mawson"), Nordic Business Unit ("NBU") and Gold Line Resources Ltd. ("Gold Line") were an asset acquisition or business combination. The assessments required management to assess the inputs, processes and outputs of the company acquired at the time of acquisition. The Barsele, Mawson, NBU and Gold Line acquisitions were classified as asset acquisitions in the assessment.

SUBSEQUENT EVENTS

a) On October 23, 2026, the Company issued 1,166,130 common shares to Haywood in settlement of the advisory fee of $3,785,258 recorded as shares to be issued as at September 30, 2026. In October 2026, the Company also paid the cash advisory fee of $4,769,424 (including HST) payable to Haywood that was included in accounts payable and accrued liabilities as at September 30, 2026.

b) After September 30, 2026, 1,018,729 warrants were exercised for proceeds of $1,890,462 and 79,918 compensatory options for proceeds of $105,492.

c) After September 30, 2026, 130,000 options were exercised for proceeds of $226,400.

ADDITIONAL INFORMATION

Additional information relating to the Company may be accessed on the System for Electronic Document Analysis and Retrieval (SEDAR+) at www.sedarplus.com.
