

ACULON T01 Binoculars

Nikon launches ACULON T01 – a new generation of trendy, high quality binoculars.

There's a bright future ahead for all budgets and tastes, as Nikon introduces a new line of its affordably priced ACULON binoculars. Equipped with multilayer-coated lenses, a 21 mm objective lens, and 8x or 10x magnification, ACULON T01 binoculars offer a stunningly clear, high contrast image quality.

The stylish, compact design is ideal for all types of leisure activities. Small enough to fit into a pocket and surprisingly lightweight, ACULON T01 binoculars are perfect for any occasion.

A choice of five different colors makes them even more fun. In addition to the standard black, the ACULON T01 is available in blue, red, orange, and a sporty white model.

ACULON T01
10x21 black

ACULON T01
8x21 orange

Key features:

- Stylish, compact design – fits in a pocket
- Extremely lightweight and easy to handle
- Multilayer-coated lenses offer bright, high contrast images
- Eco-glass optics – lenses and prisms contain absolutely no lead or arsenic
