Notice:

This document may contain forward-looking statements. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances that may be beyond the Storebrand Group's control. As a result, the Storebrand Group's actual future financial condition, performance and results may differ materially from the plans, goals and expectations set forth in these forward-looking statements. Important factors that may cause such a difference for the Storebrand Group include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) market related risks such as changes in equity markets, interest rates and exchange rates, and the performance of financial markets generally. The Storebrand Group assumes no responsibility to update any of the forward-looking statements contained in this document or any other forward-looking statements it may make. This document contains alternative performance measures (APM) as defined by The European Securities and Market Authority (ESMA). An overview of APM can be found at www.storebrand.com/ir

Storebrand Livsforsikring group

Storebrand Livsforsikring AS is a wholly owned subsidiary of the listed company Storebrand ASA. For information about the Storebrand Group's 2nd quarter result please refer to the Storebrand Group's interim report for the 2nd quarter of 2019. Storebrand Group's ambition is to be the best provider of pension savings. The Group offers an integrated product range spanning from life insurance, P&C insurance, asset management and banking to private individuals, companies and public sector entities. The Group is divided into the segments Savings, Insurance, Guaranteed Pension and Other.

PROFIT STOREBRAND LIVSFORSIKRING GROUP

(NOK million)	2019		2018			1.1 - 30.06		Full year
	Q2	Q1	Q4	Q3	Q2	2019	2018	2018
Fee and administration income	814	809	776	821	800	1,624	1,588	3,185
Insurance result	186	170	199	239	274	356	509	947
Operational expenses	-638	-577	-653	-593	-609	-1,216	-1,208	-2,454
Operating profit	362	402	322	467	466	764	889	1,678
Financial items and risk result life & pension	120	194	36	148	151	313	453	637
Profit before amortisation	482	596	358	615	616	1,078	1,342	2,315
Amortisation	-84	-86	-85	-84	-85	-169	-135	-305
Profit before tax	398	511	273	531	532	908	1,207	2,010

The profit before amortisation was NOK 482m (NOK 616m) in the 2nd quarter and NOK 1,078m year to date (NOK 1,342m). The figures in brackets are from the corresponding period last year.

Total fee and administration income amounted to NOK 814m (NOK 800m) for the 2nd quarter representing an increase of 2% compared to the same period last year, when adjusted for currency changes. Income within the segment Guaranteed Pension decreased by 1% compared to same period last year, adjusted for currency changes. This is in line with the run off of the Guaranteed Pension schemes, while the Savings segment increased income by 8%. Sales of occupational pensions in the first half of 2019 in both the Norwegian and Swedish business have resulted in new corporate clients that will be onboarded in the second half of 2019. Posten Norway is expected to be the largest transfer of premiums for Storebrand to date with more than NOK 300m in annual premiums and more than NOK 3bn in assets.

The Insurance result had a total combined ratio of 88% (74%) in the quarter. High claims in Group Life decreases the segment result.

The operating costs in the 2nd quarter were NOK 638m (NOK 609m).

The underlying cost control is strong. Operational costs increased in the quarter compared to the same period last year due to restructuring costs of NOK 35m that were of one-off nature. Volume growth within the Saving segment has resulted in a larger part of the Group's costs being allocated to this segment.

Overall, the operating profit decreased in the quarter compared to last year. Strong insurance results in the 2nd quarter of 2018 combined with higher costs in the quarter are the main explanations for the difference compared to last year.

The Group reported a tax cost of NOK minus 2m (NOK 182m) for the quarter. The low tax cost in the quarter is a result of too much taxes having been booked previously for the fiscal year 2018. The effective tax rate is influenced by the fact that the Group has operations in countries with tax rates that are different from Norway, and it varies from quarter to quarter depending on each legal entity's contribution to the Group result. The tax rate is estimated to be in the range of 21-23% for 2019. Storebrand has received a change notice for tax returns for 2015 with an uncertain outcome, see note 7 for details.

PROFIT STOREBRAND LIVSFORSIKRING GROUP - BY BUSINESS AREA

(NOK million)	2019		2018			1.1 - 30.06		Full year
	Q2	Q1	Q4	Q3	Q2	2019	2018	2018
Savings	117	150	115	133	134	267	243	491
Insurance	96	74	67	153	179	170	334	554
Guaranteed pensions	211	249	217	295	236	460	637	1,148
Other	58	124	-40	35	67	182	127	121
Profit before amortisation	482	596	358	615	616	1,078	1,342	2,315

The Savings segment reported a profit of NOK 117m (NOK 134m) for the 2nd quarter. Structural growth and positive equity markets within Unit linked savings contribute positively to the result.

The Insurance segment reported a profit of NOK 96m (NOK 179m) for the 2nd quarter. The risk result gives a claims ratio of 73% (60%) in the quarter. Run-off gains in the previous year contributed to the result last year.

The Guaranteed Pension segment achieved a profit before amortisation of NOK 211m (NOK 236m) for the 2nd quarter. Fee and administration income is reduced by 1.6% compared to last year. Lower interest rates in the 2nd quarter have led to low financial results in SPP, whereas the same period last year saw a reserve release of NOK 200m. The products within Guaranteed Pension are in long-term runoff and reduced earnings from this segment are to be expected over time.

The Other segment includes the return in company portfolios, credit spreads tightening affects results positively.

CAPITAL SITUATION

Storebrand uses the standard model for the calculation of Solvency II. The Storebrand Group's target solvency margin in accordance with the Solvency II regulations is a minimum of 150%, including use of the transitional rules. The solvency margin was calculated to 167% at the end of the 2nd quarter of 2019, including a two percentage points effect from transitional rules. Reduced interest rates, M&A activities and changes to models and assumptions explain the reduction in Solvency II ratios.

MARKET AND SALES PERFORMANCE

The growth in Unit linked savings is driven by premiums from existing contracts, investment returns and conversion from defined benefit schemes and increased savings rates. Assets under management in the Unit Linked business in Norway and Sweden increased by NOK 19.5bn (11%) relative to the same period in 2018. In Norway, Storebrand is the market leader in Unit Linked occupational pension with 29% of the market share of gross premiums written (at the end of the 1st quarter 2019). SPP has a market share of 14% in the Swedish market for other occupational pensions ("Övrig Tjänstepension") at the end of 1st quarter.

The pension system for public employees is about to be adjusted to better fit with the pension reform that was introduced in 2010. The change will take effect from 2020. In the second quarter of 2019 Storebrand officially decided to return to this market to offer occupational pension solutions to municipalities. This market is currently only covered by own pension funds and Kommunal Landspensjonskasse (KLP), a mutual company. The market is larger than the private occupational pensions market. Storebrand has set up an organization to be in a position to offer occupational pension in the public sector. The initiative will to a large extent be built on existing systems and solutions, and will be executed within previously communicated cost limitations for the group.

Savings

- Growth in premiums and assets under management
- Increased costs due to underlying growth in the business

The Savings segment includes products for retirement savings with no interest rate guarantees. The segment consists of defined contribution pensions in Norway and Sweden.

SAVINGS

(NOK million)	2019		2018			1.1 - 30.06	Full year	
	Q2	Q1	Q4	Q3	Q2	2019	2018	2018
Fee and administration income	437	435	427	425	406	872	804	1,655
Operational expenses	-314	-281	-301	-286	-270	-595	-553	-1,139
Operating profit	123	153	126	139	136	277	251	516
Financial items and risk result life & pension	-6	-3	-11	-6	-2	-10	-8	-25
Profit before amortisation	117	150	115	133	134	267	243	491

PROFIT

The Savings segment reported a profit before amortisation and tax of NOK 117m (NOK 134m) for the 2nd quarter and NOK 267m year to date (NOK 243m).

Fee- and administration income increased by 8% for the quarter, when adjusted for currency changes. Returns, customer conversion from defined-benefit to defined-contribution pension schemes, new business and higher savings rates drive income growth. Increased competition contributes to moderate margin pressure both for the Norwegian and the Swedish Unit Linked products.

Operating expenses was NOK 314m for the quarter (NOK 270m). The operating expenses are impacted by underlying growth in the business and restructuring costs in the quarter.

BALANCE SHEET AND MARKET TRENDS

Turbulent market conditions in the 4th quarter 2018 lead to lower assets under management at the beginning of 2019, but good returns in the 1st and 2nd quarter has contributed to growth.

KEY FIGURES

(NOK million)	2019	2018			
	Q2	Q1	Q4	Q3	Q2
Unit Linked Reserves	198,032	187,016	187,016	178,498	171,749
Unit Linked Premiums	4,175	4,096	4,096	3,892	3,947

The Unit Linked premiums were NOK 4.2bn at the end of 2nd quarter, growing by 7% compared to previous year. The total assets under management in Unit Linked have increased by 7bn (4%) during 2nd quarter and 19.5bn (11%) compared to previous year, and amounted to NOK 198bn at the end of the quarter. In the Norwegian Unit Linked business the assets under management increased by NOK 3.9bn (4%) in the quarter and NOK 10.2 bn (11%) last year. The underlying growth is driven by premium payments for existing contracts, returns and conversion from defined benefit schemes. In Norway, Storebrand is the market leader in Unit Linked with 29% of the market share of gross premiums written (at the end of the 1st quarter).

In the Swedish market, SPP is the fourth largest supplier in the Other Occupational Pensions segment with a market share of 14% measured by premium income from Unit Linked. Customer assets increased by SEK 4.4bn (5%) in the quarter and 9.4bn (10%) year to date.

Insurance

- Weaker result compared to last year due to high run-off gains in 2018
- Continued weak results from Group Life; reserve strengthening in the quarter and pricing measures to be implemented

The Insurance segment provides personal risk products in the Norwegian and Swedish retail market and employee insurance and pensions-related insurance in the Norwegian and Swedish corporate market.

INSURANCE

(NOK million)	2019		2018			1.1 - 30.06		Full year 2018
	Q2	Q1	Q4	Q3	Q2	2019	2018	
Fee and administration income								
Insurance result	186	170	199	239	274	356	509	947
- Insurance premiums f.o.a.	683	675	731	681	680	1,358	1,367	2,780

Profit before amortisation	96	74	67	153	179	170	334	554

PROFIT

Insurance delivered a result before amortisation of NOK 96m (NOK 179m) for the 2nd quarter and NOK 170m year to date (NOK 334m). The combined ratio was 88% (74%) in the quarter. The 2nd quarter claims ratio was 73% (60%) and the result is weaker than last year mainly due to development in Group Life and run-off gains in 2018.

Group Life delivers a weak risk result as in the previous quarter. Repricing measures will be implemented with effect from year-end 2019. Compared to same period last year, the result is also lower due to run-off gains in 2018. The risk result for Group Disability Pension is driven by a good development in Norwegian disability, but it is still high competition in the market for new business. The Swedish disability result is stronger than expected due to good disability development. The result for individual life products is satisfactory.

The cost ratio was 15% (15%) in the 2nd quarter, and cost control continues to be satisfactory.

Insurance's investment portfolio in Norway amounted to NOK 6.5bn as of the 2nd quarter, which primarily is invested in fixed income securities with a short to medium duration. Return on investments is satisfactory in the quarter.

BALANCE SHEET AND MARKET TRENDS

Portfolio premium (annual) amounts to NOK 2 645m (NOK 2 685m) in the 2nd quarter.

For risk cover in connection with defined-contribution pensions in Norway, future growth is expected to be driven by pension related disability insurance and salary growth. The new disability pension regulations, which entered into force in 2016, have resulted in a lower premium volume.

PORTFOLIO PREMIUM (ANNUAL)

(NOK million)	2019		2018		
	Q2	Q1	Q4	Q3	Q2

* Individual life disability insurance ** Group disability, workers compensation insurance *** DC disability risk premium Norway and disability risk Sweden

KEY FIGURES

(NOK million)	2019		2018		
	Q2	Q1	Q4	Q3	Q2
Claims ratio	73 %	75 %	73 %	65 %	60 %
Cost ratio	15 %	14 %	15 %	15 %	15 %
Combined ratio	88 %	89 %	88 %	79 %	74 %

Guaranteed pension

- Income development in line with strategy and product run-off
- Stable risk result
- Moderate net profit sharing due to lower interest rates and one-offs

The Guaranteed Pension segment includes long-term pension savings products that give customers a guaranteed rate of return. The area includes defined benefit pensions in Norway and Sweden, paid-up policies and individual capital and pension insurances.

GUARANTEED PENSION

(NOK million)	2019		2018			1.1 - 30.06		Full year 2018
	Q2	Q1	Q4	Q3	Q2	2019		
Fee and administration income	364	361	333	369	370	724	738	1,440
Operational expenses	-209	-186	-223	-179	-215	-395	-415	-816
Operating profit	155	174	111	190	155	329	323	624
Financial items and risk result life & pension	56	74	106	105	81	131	314	525
Profit before amortisation	211	249	217	295	236	460	637	1,148

PROFIT

Guaranteed Pension achieved a profit before amortisation of NOK 211 m (NOK 236m) in the 2nd quarter and NOK 460m year to date (NOK 637m).

Fee and administration income has performed in line with the fact that a large part of the portfolio is mature and in long-term decline. Income was NOK 364m (NOK 370m) in the 2nd quarter and NOK 724m year to date (NOK 738m). Year to date this is equivalent to a decline of 1.9% compared to the previous year.

Operating costs amounted to NOK 209m (NOK 215m) in the 2nd quarter and NOK 395m year to date (NOK 415m). Operating costs are being reduced over time as a result of the products being in long-term runoff.

The risk result amounted to NOK 52m (minus NOK 140m) in the 2nd quarter and NOK 113m year to date (NOK 42m).

Overall, the risk result in the quarter is satisfactory with the Norwegian paid-up policy portfolio generating good results for disability risk coverages. Other product areas had moderate risk results. Compared to same quarter last year there has been a strong improvement in the risk result. This is mainly attributed to a reserve strengthening in SPP last year.

The result from profit sharing in the Guaranteed Pension segment consists of profit sharing and other financial effects. The result was NOK 4m (NOK 221m) in the 2nd quarter and NOK 18m year to date (NOK 272m). Compared to last year, net profit sharing is considerably lower, the main reason being last year's reserve release of NOK 200m from deferred capital contributions (DCC) in SPP. Lower interest rates in the 2nd quarter have led to weaker results in the Swedish business. The Norwegian defined benefit product had a financial result of minus NOK 22m due to a one-off correction in the insurance reserves.

BALANCE SHEET AND MARKET TRENDS

The majority of products are closed for new business, and the customers' choice of transferring from guaranteed to non-guaranteed products is in line with the Group's strategy. As of the 2nd quarter, customer reserves for guaranteed pensions amounted to NOK 262bn, which is an increase of NOK 1.4bn compared to the previous quarter and an increase of NOK 4.2bn compared to the same quarter last year. The premium income for guaranteed pensions (excluding transfers) was NOK 1.3bn (NOK 1.2bn) for the 2nd quarter and NOK 3.0bn for the year to date (NOK 3.2bn). In the Norwegian business, paid-up policies is the only guaranteed pension portfolio experiencing growth over time with a total portfolio amounting to NOK 137bn as of the 2nd quarter. This is an increase of NOK 3.7bn year to date. Since 2014, customers have been given the

choice to convert from traditional paid-up policies to paid-up policies with investment choice. Reserves for defined-benefit pensions in Norway amounted to NOK 33bn at the end of the 2nd quarter, a decline of NOK 0.3bn year to date.

Guaranteed portfolios in the Swedish business totaled NOK 80bn as of the 2nd quarter, a reduction of NOK 1.7bn year to date. The reduction is attributed to changes in the SEK/NOK exchange rate while there was an underlying reserve growth of 4 per cent in the period.

KEY FIGURES

Other

Under Other, the company portfolios and smaller daughter companies with Storebrand Life Insurance and SPP are reported. In addition, the result associated with the activities at BenCo is included.

OTHER

(NOK million)	2019		2018			1.1 - 30.06		Full year
	Q2	Q1	Q4	Q3	Q2	2019	2018	2018
Fee and administration income	14	14	16	27	24	28	46	89
Operational expenses	-14	-14	-18	-29	-23	-28	-41	-88
Operating profit	0	-0	-2	-2	1	-0	5	2
Financial items and risk result life & pension	58	124	-39	37	66	182	122	120
Profit before amortisation	58	124	-40	35	67	182	127	121

PROFIT

The Other segment reported a profit of NOK 58m (NOK 67m) for the 2nd quarter and NOK 182m year to date (NOK 127m). Fee and administration income is associated to BenCo's business being wound down.

The financial result for the Other segment includes the company portfolios of SPP and Storebrand Life Insurance as well as the net result for subsidiaries.

The Storebrand Life Insurance Group is funded by a combination of equity and subordinated loans. Given the interest rate level at the end of the 2nd quarter, interest expenses of approximately NOK 80m per quarter are expected.

The company portfolios in the Norwegian and Swedish life insurance companies amounted to NOK 21.5bn at end of the quarter.

The investments are primarily in interest-bearing securities, with short maturities, in Norway and Sweden. The Norwegian company portfolio reported a return of 0.66% for the quarter. The Swedish company portfolio provided a return of 0.3 % in the quarter.

Balance sheet and capital situation

Continuous monitoring and active risk management is a core area of Storebrand's business. Risk and solidity are both followed up on at the Group level and in the legal entities. Regulatory requirements for financial strength and risk management follow the legal entities to a large extent. The section is thus divided up by legal entities.

STOREBRAND LIVSFORSIKRING GROUP

The Solidity capital¹ measures the amount of IFRS capital available to cover customer liabilities. The solidity capital amounted to NOK 59.9bn at the end of 2nd quarter 2019, an increase of NOK 1.3bn in 2nd quarter. The change in the quarter is due to increased customer buffers in the Norwegian business.

STORBRAND LIVSFORSIKRING AS

The market value adjustment reserve increased during the 2nd quarter by NOK 0.8bn and year to date by NOK 2.9bn and amounted to NOK 5.1bn at the end of the 2nd quarter 2019. The additional statutory reserves decreased year to date by NOK 0.3bn due to preliminary calculated deduction due to weak booked return in the first quarter and amounted to NOK 8.2bn at the end of the 2nd quarter 2019. The excess value of bonds and loans valued at amortised cost increased by NOK 0.2bn in the 2nd quarter and NOK 1.2bn year to date and amounted to NOK 5.9bn at the end of the 2nd quarter 2019 due to decreases in interest rates. The excess value of bonds and loans at amortised cost is not included in the financial statements.

CUSTOMER BUFFERS

ALLOCATION OF GUARANTEED CUSTOMER ASSETS

Customer assets increased by NOK 4.8bn in the 2nd quarter and NOK 3.5bn year to date due to positive investment returns. Customer assets totaled NOK 286bn at the end of the 2nd quarter 2019. Customer assets within non-guaranteed savings increased NOK 3.9bn during the 2nd quarter and NOK 10.4bn year to date and amounted to NOK 104bn at the end of 2nd quarter 2019. Guaranteed customer assets increased by NOK 0.9bn in the 2nd quarter and NOK 3.1bn year to date and amounted to NOK 182bn at the end of 2nd quarter 2019.

¹⁾ NOK 2.6bn of the investment portfolio is linked to disability coverages where the investment result goes to the customer reserves and not as a result element in the P&L

SPP

BUFFER CAPITAL

The buffer capital amounted to SEK 7,8bn (SEK 6,9bn) at the close of the 2nd quarter.

ALLOCATION OF GUARANTEED CUSTOMER ASSETS

Total assets under management in SPP were SEK 186bn (SEK 175bn) at the end of the 2nd quarter. This corresponds to an increase of 6.2% compared to the 2nd quarter 2018. For customer assets in non-guaranteed savings, assets under management totaled SEK 103bn (SEK 93bn) at the end of the 2nd quarter, which corresponds to an increase of 10%, compared with the 2nd quarter 2018.

Outlook

STRATEGY

Storebrand Group follows a twofold strategy. First, Storebrand aims to build a world class Savings Group supported by Insurance. Storebrand is the market leader in pension solutions to Norwegian businesses and a challenger in the Swedish market, and uniquely positioned in the growing retail savings market. Storebrand Group expects to start capital release as dividends and/or share buy backs when the solvency margin is above 180%. The solvency margin is expected to grow 5 percentage points annually after dividends from today's level. The guaranteed business in long term run off is projected to release NOK 10bn in the next eight years until 2027.

FINANCIAL PERFORMANCE

The market for defined-contribution pensions is growing, and Storebrand's total reserves within Unit Linked increased by 11% in the last 12 months. Continued good growth for defined-contribution pensions is expected in the future. The loyalty program for employees at companies that have a pension scheme at Storebrand remains an important area of focus. The sale of banking products and P&C insurance contributes to growth within the Savings and Insurance segments. The competition in the market has resulted in pressure on margins within these segments. This in turn sets requirements for cost reductions and efficiency improvements in distribution and product solutions to achieve continued profitable growth. In order to realize the ambitions in the retail market, sales must continue to increase.

The Guaranteed Pension segment is in long term runoff and the reserves for the Guaranteed Defined Benefit solutions are decreasing. However, there is continued growth in the reserves linked to paid-up policies due to companies choosing to convert existing defined-benefit schemes to defined-contribution schemes. It is expected that the growth in paid-up policies will decline in the next few years and that there will be flat growth in reserves over several years before the reserves start to fall. The portfolio of paid-up policies makes a limited contribution to the Group results with the present interest rates. Guaranteed reserves represent a declining share of the Group's total pension reserves and were 57.7% at the end of the quarter, a 2%-point reduction from the previous year.

The Board observes margin pressure in many parts of the group operations. The group has a strong track record on cost control. To ensure profitability, the group continues a strict reign on cost and invests in digital solutions to improve scalability and efficiency. Storebrand will still make selected investments in growth. Lower cost through automation, digitalization and the partnership with Cognizant is expected to cover normal investments in business growth and inflation the coming years.

RISK

Market risk is the Group's biggest risk. In the Board's self-assessment of risk and solvency (ORSA) process, developments in interest rates, credit spreads, and equity and property values are considered to be the biggest risks that influence the solvency of the Group. Storebrand has adapted to the low interest rates by increasing duration in portfolios and building up buffer capital. The level of the average annual interest rate guarantee is gradually reduced as older policies with higher guarantees are phased out. In the long term, continued low interest rates will represent a risk for products with guaranteed high interest rates. Storebrand has adjusted its asset allocation by building a robust portfolio with bonds at amortised cost to achieve the guaranteed interest rate. For insurance risk, increased longevity and the development in disability are the factors that have greatest influence on solvency. Operational risk may have an effect on solvency. The risk is closely monitored.

INDIVIDUAL PENSION ACCOUNT

We expect Individual Pension Accounts to be introduced in 2021. The new scheme is based on existing pension accounts in active defined contribution schemes. Defined contribution capital certificates issued by previous employers ("pensjonskapitalbevis") will be transferred into the active scheme unless the holder makes an active choice to stay with the current provider ("negative acceptance"). Individuals will be able to transfer the pension account (both current and former earnings) to other providers.

Storebrand is participating in the Ministry of Finance implementing group on individual pension accounts.

Merging management of the active schemes and capital certificates will increase margin pressure. Storebrand currently has a higher market share for active defined contribution schemes than for certificates from such schemes. We would therefore expect some new net inflows of certificates from the proposed changes.

NEW PUBLIC SECTOR PENSION

Parliament has passed the bill on a new occupational pension scheme for the public sector. The existing defined benefit scheme will close, so that only employees born in 1962 and earlier will continue in the old scheme. Employees born in 1963 and later will earn new pension rights in a hybrid-based scheme from 2020. The market for municipal occupational pensions is larger than the private sector market Storebrand is active in today.

Storebrand has decided to enter the market for municipal occupational pensions, delivering both the existing defined benefit scheme and the new hybrid-based scheme.

GUARANTEED PENSION REGULATION

The Financial Supervisory Authority has delivered draft proposals for changes in guaranteed pension regulation to the Ministry of Finance. The proposals follow up the Working Group Report published in September 2018.

We expect that The Ministry of Finance will consider the proposals, and decide which proposals to present to the Parliament after a public hearing.

When guaranteed pension customers transfer to other providers, market value adjustment reserves under 2% of technical provisions can be withheld. The Ministry of Finance has proposed to abolish this regulation. The proposal is on public hearing until 1 October 2019.

MORTGAGE LOANS HELD BY INSURANCE COMPANIES

The Financial Supervisory Authority has proposed changes in capital requirements for mortgage loans held by life insurance companies. The proposal will have limited effect on Storebrand's solvency margin. We expect the Ministry of Finance to consider the proposals after a public hearing.

Lysaker, 11 July 2019

Notes

Storebrand Livsforsikring group

Note 01 | Accounting policies

The Group's interim financial statements include Storebrand Livsforsikring AS, subsidiaries, associated and joint-ventures companies. The financial statements are prepared in accordance with the "Regulation on the annual accounts etc. of lifeinsurance companies" for the parent company and the consolidated financial statements in accordance with IAS 34 Interim Financial Reporting. The interim financial statements do not contain all the information that is required in full annual financial statements.

A description of the accounting policies applied in the preparation of the financial statements are provided in the 2018 annual report, and the interim financial statements are prepared in accordance with these accounting policies.

Storebrand Livsforsikring AS - the company's financial statements

The financial statements have been prepared in accordance with the accounting principles that were used in the annual report for 2018.

There are new accounting standards that entered into effect in 2019.

IFRS 16

IFRS 16 Leases replaces the current IAS 17, and entered into force from 1 January 2019. IFRS 16 stipulates principles for recognition, measurement, presentation and disclosure for leases. The new leasing standard do not entail major changes for lessors, but significantly change accounting for lessees. IFRS 16 requires that lessees must, as a starting point, recognise all leases in the balance sheet according to a simplified model that resembles accounting of financial leases under IAS 17. The present value of total lease payments must be recognised as a lease liability and an asset that reflects the right of use of the asset during the lease period, with the exception of short-term agreements and agreements in which the asset has a low value. The `right of use` asset is amortised over the lease period and the depreciation expense is continually recognised in the income statement as an operating expense. Interest expense on the lease liability is recognised in the income statement as a financial expense.

IFRS 16 can be implemented either in accordance with the full retrospective method or modified retrospective method, and Storebrand has selected the modified retrospective method. This means that comparable figures are not restated and the effect is entered in the balance sheet for the implementation year of 2019. Upon implementation, the `right of use` asset and the lease liability is the same amount and have no effect on equity. The transition to IFRS 16 and effects in 2019 is showned in the table below.

Storebrand has used alternative loan rate as discount rate for calculating the present value of the lease payments, and this discount rate is adapted to the individual lease agreement duration. Leases that are shorter than 12 months as of 1 January 2019 and leases that include assets with a value lower than NOK 50,000 will not be recognised in the balance sheet but as an expense over the lease period.

EFFECTS ON TRANSITION TO IFRS 16

Note 02 | Estimates

In preparing the Group's financial statements the management are required to make estimates, judgements and assumptions of uncertain amounts. The estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and expectations of future events and represent the management's best judgement at the time the financial statements were prepared.

Actual results may differ from these estimates.

A description of the most critical estimates and judgements that can affect recognised amounts is included in the 2018 annual report in note 2, insurance risk in note 8, valuation of financial instruments at fair value is described in note 13 and in the interim financial statements note 9 Solvency II.

Note 03 | Segments - profit by business area

Storebrand's operation includes the segments Savings, Insurance, Guaranteed Pension and Other.

SAVINGS

The savings segment includes products for retirement savings with no interest rate guarantees. The segment consists of defined contribution pensions in Norway and Sweden. In addition, certain other subsidiaries in Storebrand Livsforsikring and SPP are included in Savings.

INSURANCE

The insurance segment provides personal risk products in the Norwegian retail market and employer's liability insurance and pension-related insurance in the Norwegian and Swedish corporate markets.

GUARANTEED PENSION

The guaranteed Pension segment includes long-term pension savings products that give customers a guaranteed rate of return. The area includes defined benefit pensions in Norway and Sweden, paid-up policies and individual capital and pension insurances.

OTHER

The result for the company portfolios and small subsidiaries of Storebrand Life Insurance and SPP. In addition, the activities at BenCo are reported in this segment. The elimination of intra-group transactions that have been included in the other segments has also been included.

RECONCILIATION WITH THE OFFICIAL PROFIT AND LOSS ACCOUNTING

Profit in the segments are reconciled with the corporate profit and loss account before tax. The corporate profit and loss account includes gross income and gross expenses linked to both the insurance customers and owners. The various segments are to a large extent followed up on net profit margins, including risk and administration results. The profit lines that are used in segment reporting will therefore not be identical with the profit lines in the corporate profit and loss account.

A description of the most important differences is included in the 2018 annual report in note 5 Segment reporting.

Note 04 | Financial market risk and insurance risk

Risks are described in the annual report for 2018 in note 8 (Insurance risk), note 9 (Financial market risk), note 10 (Liquidity risk), note 11 (Credit risk) and note 12 (Concentrations of risk).

Market risk means changes in the value of assets due to unexpected volatility or changes in prices in the financial markets. It also refers to the risk that the value of the insurance liability develops differently than the assets.

The most significant market risks for Storebrand are equity market risk, credit risk, property price risk, interest rate risk and currency exchange rate risk.

For the life insurance companies, the financial assets are invested in a variety of sub-portfolios. Market risk affects Storebrand's income and profit differently in the different portfolios. There are three main types of sub-portfolios: company portfolios, customer portfolios without a guarantee (unit linked) and customer portfolios with a guarantee.

The market risk in the company portfolios has a direct impact on Storebrand's profit.

The market risk in customer portfolios without a guarantee (unit linked) is at the customers' risk, meaning Storebrand is not directly affected by changes in value. Nevertheless, changes in value do affect Storebrand's profit indirectly. Income is based mainly on the size of the portfolios, while the costs tend to be fixed. Lower returns from the financial market than expected will therefore have a negative effect on Storebrand's income and profit.

For customer portfolios with a guarantee, the net risk for Storebrand will be lower than the gross market risk. The extent of risk sharing with customers depends on several factors, the most important being the size and flexibility of the customer buffers, and also the level and duration of the interest rate guarantee. If the investment return is not sufficiently high to meet the guaranteed interest rate, the shortfall will be met by using customer buffers in the form of risk capital built up from previous years' surpluses. Risk capital primarily consists of unrealised gains, additional statutory reserves and conditional bonuses. Storebrand is responsible for meeting any shortfall that cannot be covered by the customer buffers.

For guaranteed customer portfolios, the risk is affected by changes in the interest rate level. Falling interest rates are positive for the investment return in the short term due to price appreciation for bonds, but negative in the long term because it reduces the probability of achieving a return higher than the guarantee.

During the first quarter, the equity market were strong, regaining most of the sharp corrections during the fourth quarter of 2018. In the second quarter the markets have been more volatile, but positive for the full quarter. The global equity market rose 16 % during the first two quarters. The Norwegian equity market rose 8 %. The market for corporate bonds also recovered and credit spreads fell during the first two quarters, with most of the fall coming in the first quarter. Reduced spreads was positive for return, but lower credit spreads are negative for expected return going forward.

Long term interest rates fell both in the first and in the second quarter. Since year-end 2018 the Norwegian 10-year interest rate swap fell by 0.3 pp. The Swedish 10-year interest swap rate fell by 0.6 pp. But short term interest rates increased, both in Norway and Sweden. Due to the majority of the interest rate investments in the Norwegian customer portfolios being held at amortized cost, changes in interest rates have a limited effect on booked returns in the short term. However, with the present interest rates, new bond investments provide a lower return than the average interest rate guarantee. Lower interest rate is a negative factor for the solvency position.

The Norwegian Krone strengthened during the first two quarters. The strengthening was 6 % against the Swedish Krona and 2 % against the US dollar and the Euro. A high degree of currency hedging in the portfolio means that the exchange rate fluctuations have a modest effect on results and risk.

During the first two quarters, the investment allocation was not materially changed.

Return for guaranteed customer portfolios in Norway on average was higher than the guaranteed rate in the first two quarters. Most of the excess return came in the form of increased unrealized gains and overvalues in portfolios held at amortised cost. Return for guaranteed customer portfolios in Sweden was positive and in excess of the increase in value for the liabilities. This led to an increase in conditional bonuses.

Investment return on unit linked portfolios was good during the first two quarters, positively affected by strong equity markets.

Insurance risk is the risk of higher than expected payments and/or an unfavorable change in the value of an insurance liability due to actual developments deviating from what was expected when premiums or provisions were calculated. Most of the insurance risk for the group is related to life insurance. Changes in longevity is the greatest risk because higher longevity means that the guaranteed benefits must be paid over a longer period. There are also risks related to disability and early death.

The insurance risk has only had minor changes during the first two quarters.

Valuation of financial instruments and properties

The Group categorises financial instruments valued at fair value on three different levels. Criteria for the categorisation and processes associated with valuing are described in more detail in note 13 in the annual report for 2018.

The company has established valuation models and gathers information from a wide range of well-informed sources with a view to minimizing the uncertainty of valuations.

Note 07

Tax

The tax rate for the Group will vary from quarter to quarter depending on the individual legal entities' contribution to earnings. The net income tax expense for the quarter and year also reflects effects that each give a higher or lower effective tax rate. The effective tax rate is influenced by the fact that the Group has operations in countries with tax rates that are different from Norway. In addition, the Group includes Norwegian entities that are subject to tax rates, ranging from 22-25%. The company tax rate that applies for the individual Norwegian Group companies is used in the consolidated financial statements.

Uncertain tax positions

The tax legislation and interpretations of the tax rules for the Norwegian life & pension industry have undergone significant changes in the last years, which have entailed complex assessments. Storebrand's uncertain tax positions are described in note 28 in the annual accounts for 2018 and below. In certain instances, Storebrand and The Norwegian Tax Administration (TNTA) have different interpretations of the tax rules. Consequently, this may lead to both a higher or lower tax expense than recognized in the financial reports based on the current uncertain tax positions.

- A. In 4th quarter 2015 Storebrand booked a tax income of NOK 1.7 billion due to the liquidation of the real estate holding company Storebrand Eiendom Holding AS (SEH). On 23 May 2019, Storebrand received a draft letter from TNTA, claiming changes in the tax returns for 2015.

If the preliminary decision drafted by TNTA should be upheld after a final and enforceable judgement by the court, Storebrand assess that it would be a tax cost for Storebrand of NOK 1.3 billion. In addition, there will be a negative effect on customer investment return after tax. Based on TNTA's preliminary decision Storebrand will be in a payable tax position.

The amount will not be booked in the accounts based on the draft notice received, as Storebrand is of the opinion that Storebrand's view on the technical tax issue in question most likely will be confirmed by the court of law. The tax effect in 2015 was calculated using our best judgment and after a thorough review with internal as well as external expertise. In case TNTA's preliminary draft should be upheld, Storebrand would appeal the decision and, if necessary, try the case in the Norwegian court system in order to clarify the tax related questions relevant to the case.

- B. In December 2018, the Norwegian Parliament (Stortinget) adopted amendments to the tax rules for pension and life insurance companies. Subsequently, the Norwegian Directorate of Taxes (NDT) gave a statement of principles of their understanding of the corresponding transitional rule. In line with the statement from NDT, Storebrand booked a tax income of NOK 1.6 billion for 2018 related to the transitional effect.

When submitting the tax return for 2018, Storebrand has assumed the actual wording of the transitional rule, which deviates from NDT's statement, implying a tax income in excess of the NOK 1.6 billion already booked. The difference is not recognised in the financial reporting per year-end 2018 nor per 2nd quarter 2019. If the difference is recognised it will cause an additional tax income of approximately NOK 0.9 billion.

Note 10 | Information about related parties

Storebrand conducts transactions with related parties as part of its normal business activities. These transactions take place on commercial terms. The terms for transactions with management and related parties are stipulated in notes 24 and 45 in the 2018 annual report.

Storebrand Livsforsikring has not carried out any material transactions other than normal business transactions with related parties during 2019, other than Storebrand Livsforsikring AS having acquired mortgages from the sister company Storebrand Bank ASA. The mortgages were transferred on commercial terms. The portfolio of loans that have been transferred in the second quarter of 2019 totaled NOK 2.2 billion and NOK 2.9 billion year to date. The total portfolio of loans bought as of 30 June 2019 is NOK 31.7 billion. Storebrand Livsforsikring AS pays management fees to Storebrand Bank ASA for management of the portfolios, the expense for the second quarter of 2019 is NOK 4.4 million and NOK 8.6 million year to date.

Declaration by the Members of the Board and the CEO

STOREBRAND LIVSFORSIKRING AS AND STOREBRAND LIVSFORSIKRING GROUP

On this date, the Board and CEO have discussed and approved the annual report and annual financial statements for Storebrand Livsforsikring AS and Storebrand Livsforsikring Group for the first six months of 2019 (Report for the first six months, 2019).

The financial statements are prepared in accordance with the "Regulation on the annual accounts etc. of insurance companies" for the parent company and the consolidated financial statements are presented using EU-approved International Financial Reporting Standards (IFRS) and the additional requirements of the Securities Trading Act.

In the best judgment of the Board and CEO the financial statements and consolidated financial statements for the first six months of 2019 have been prepared in accordance with applicable accounting standards, and the information in the financial statements provides a fair and true picture of the assets, liabilities, financial standing and results as a whole of the parent company and the group as at 30 June 2019. In the best judgment of the Board and CEO the annual report provides a fair and true overview of important events during the accounting period and their effects on the financial statements and consolidated financial statements for the first six months. In the best judgment of the Board and CEO the descriptions of the most important risk and uncertainty factors the group faces in the next accounting period, as well as the descriptions of related parties' significant transactions, also provide a fair and true view.
