Notes

Note 01 | Accounting principles

The financial statements are prepared in accordance with IAS 34 Interim Financial Reporting. The interim financial statements do not contain all the information that is required in full annual financial statements. The financial statements of Storebrand Boligkreditt AS have been prepared in accordance with International Financial Reporting Standards (IFRS) and appurtenant interpretations.

A description of the accounting policies applied in the preparation of the financial statements is provided in the 2018 annual report, and the interim financial statements are prepared with respect to these accounting policies.

There are new accounting standards that entered into effect in 2019.

IFRS 16

IFRS 16 Leases replaces the current standard IAS 17, and entered into force from 1 January 2019. IFRS 16 sets out principles for recognition, measurement, presentation and publication of leases. The new leasing standard do not entail any major changes for lessors, but significantly change lessees' accounting. IFRS 16 requires that lessees must, as a starting point, recognise all lease contracts in the balance sheet according to a simplified model that resembles accounting of financial leases under IAS 17. The present value of total lease payments must be recognised as a lease liability and an asset that reflect a right of use of the asset during the lease period. The recognised asset is amortised over the lease period, and the depreciation cost is recognised in the income statement on an ongoing basis as an operating cost. Interest charges on the lease commitment are recognised as a financial cost.

IFRS 16 can be implemented either in accordance with the full retrospective method or modified retrospective method, and Storebrand has selected the modified retrospective method. This means that comparable figures are not restated and the effect is entered in the balance sheet for the implementation year of 2019. Upon implementation, the `right of use` asset and liability is the same amount and have no effect on equity. Storebrand Boligkreditt AS did not have any lease agreements according to IFRS 16 as of 1 January 2019.

Storebrand Boligkreditt AS has no lease agreements according to IFRS 16 at the end of the first half of 2019.

Note 02 | Estimates

Critical accounting estimates and judgements are described in the 2018 annual financial statements' note 2 and valuation of financial instruments at fair value are described in note 8.

In preparing financial statements the management are required to make judgements, estimates and assumptions of uncertain amounts. The estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and expectations of future events and represent the management's best judgment at the time the financial statements were prepared.

Actual results may differ from these estimates.

Note 03 | Tax

In December 2018, the Norwegian Parliament (Stortinget) agreed to reduce the company tax rate from 23 to 22 per cent with effect from 1 January 2019. It was also agreed to maintain the tax rate at 25 per cent for companies subject to the financial tax. Storebrand Boligkreditt AS has activities within "Section K" (financing and insurance activities as defined in Standard Industrial Classification 2007) which exceed 30 per cent and are therefore subject to the financial tax, but since the company does not have any employees it is not subject to finance tax. A tax rate of 22 per cent has been used for capitalizing deferred tax asset in the balance sheet.
