

**Press release**

5/2013

**Stockholm**

7 March 2013

**Boliden publishes its 2012 Annual Report**

Boliden's 2012 Annual Report is now available on the Group's website: [www.boliden.com](http://www.boliden.com).

The Annual Report not only presents the financial results for 2012, but also describes the Group's strategy, operations and investment projects, such as the ongoing expansions of the Aitik and Garpenberg mining areas. The publication has this year been integrated with the Group's Sustainability Report and features, among other things, a presentation of Boliden's zero tolerance philosophy for accidents involving individuals and the environment.

A printed version of the Annual Report will be available on 25 March and will be distributed to shareholders who have requested one.
